CS B.Tech 4

II Mid Term Examination, 2017-18

Course: B.Tech.(CSE) **Year: II** **Semester: III**

Data Structures & Algorithms (CSE 3001)

Uni. Roll No: .....

Time: 1.5 Hrs. **Total Marks: 20**

Notes:

1. All parts of a question should be answered at one place.
2. Answer should be brief and to-the-point and be supplemented with neat sketches.
3. Any missing or wrong data may be assumed suitably giving proper justification.
4. Figures on the right-hand side margin indicate full marks.

Section A

Note: Attempt All Questions **(1x5=5)**

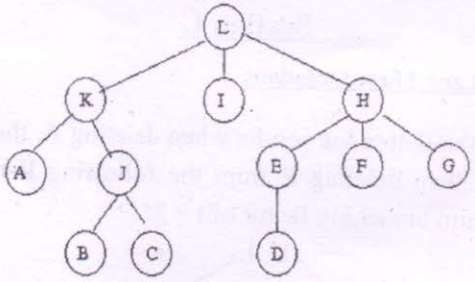

I. Differentiate Full Binary Tree and Complete Binary Tree.

II. The following numbers are inserted into an empty binary search tree in the given order: 10, 1, 3, 5, 15, 12, 16. What is the height of the binary search tree (the height is the maximum distance of a leaf node from the root)?

III. You have to sort 1 GB of data with only 100 MB of available main memory. Which sorting technique will be most appropriate and why?

IV. Why Threaded Binary Tree is used?

V. Find inorder and postorder traversal of the following tree.

Section B

Note: Attempt any Three Questions **(2x3=6)**

I. Construct an iterative algorithm to find preorder traversal of a given Binary Tree.

II. Suppose we are sorting an array of eight integers using heapsort, and we have just finished some heapify (either maxheapify or minheapify) operations. The array now looks like this: 16 14 15 10 12 27 28 How many heapify operations have been performed on root of heap? Explain.

III. Prove that Maximum number of nodes in a Binary Tree of height h is $2^h - 1$.

IV. A Binary search tree (BST) is a node based binary tree data structure which has the following properties.

a. The left subtree of a node contains only nodes with keys less than the node's key.

b. The right subtree of a node contains only nodes with keys greater than the node's key.

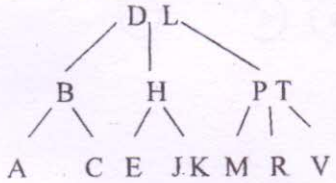

c. Both the left and right subtrees must also be binary search trees.

Write a recursive C function to check whether a Binary Tree is BST or not.

Section C

Note: Attempt any Three Questions **(3x3=9)**

I. Show the B-tree the results when deleting A, then deleting V and then deleting P from the following B-tree with a minimum branching factor of t = 2.

II. Construct a C function for the following problem:
Given an array of integers which is initially increasing and then decreasing. find the maximum value in the array using Binary search.
Input: arr[]={1,3,50,10,9,7,6}
Output:50

III. It is not possible to construct a Binary Tree from preorder and postorder traversals. But if we know that the Binary Tree is full we can construct the tree without ambiguity. Assuming that the resultant Tree is full Binary Tree construct the Binary Tree when preorder and postorder traversals are given.
preorder: 1 2 4 8 9 5 3 6 7 postorder: 8 9 4 5 2 6 7 3 1

IV. Show the result of inserting 13, 8, 5, 9, 4, 6, 12, 2, 1 and 3 in that order into an initially empty AVL tree. Show the tree after each insertion, clearly labeling which tree is which.

Printed Pages-2 **University Roll No.....**

Mid Term Examination, 2017-18
Course: B.Tech (CSE), Year: II, Semester: III
Computer Organization (CSE3102)

Time: 1.5 Hrs. **Total Marks: 20**

Notes:

1. All parts of a question should be answered at one place.
2. Answer should be brief and to-the-point and be supplemented with neat sketches.
3. Any missing or wrong data may be assumed suitably giving proper justification.
4. Figures on the right-hand side margin indicate full marks.

Section A

Note: Attempt All Questions **(1x5=5)**

I. Determine the number of clock cycles that it takes to process 200 tasks in a six segment pipeline.
II. What are the fields of an instruction format?
III. What must the address field of an indexed addressing mode instruction be to make it the same as a register indirect mode instruction?
IV. Write Reverse polish notation of A*B+C*D.
V. Define Instruction prefetching?

Section B

Note: Attempt any Three Questions **(2x3=6)**

I. Draw a space time diagram for a six-segment pipeline showing the time it takes to process eight tasks and also find the number of cycles required for this.
II. Define Hazards? Explain different types of Hazard with examples.
III. Write a program to evaluate the arithmetic statement:

$$X = A\,[B+C*(D+E)] / F*(G+H)$$

a) Using a general register organization with two address

instructions.

b) Using stack organizations with zero address instructions.

IV. Show how a 9-bit Micro operation field in a microinstruction can be divided into subfields to specify 46 micro operations. How much Micro operation can be specified in one microinstruction?

Section C

Note: Attempt any Three Questions **(3x3=9)**

I. Explain the difference between hard wired and micro programmed control unit? Is it possible to have a hardwired control association with a control memory?

II. A two-word instruction is stored in memory at an address designated by the symbol W. The address field of the instruction (stored at W+1) is designated symbol Y. The operand used during the executions of the instruction is stored at an address symbolized by Z. An index register contains the value X. State how Z is calculated from other addresses if the addressing mode of the instruction is

a) Direct b) Indirect c) Relative d) Indexed

III. Write short notes on following:

a) Micro operation and Microcode

b) Micro-Instruction with Next Address field.

c) J-K Flip-Flop and 4 bit Up Counter

IV. Write the sequence of control steps with control signal required for the execution for each of the following instruction:

1) Fetch the instruction from memory address I pointed by PC.

2) Read the operand from memory address x pointed by ri.

Mid Term Examination, 2017-18
Course: B.Tech. (CSE), Year:II, Semester:III
Database Management System (CSE 3003)

Uni. Roll No: _____

Time: 1.5 Hrs. **Total Marks: 20**

Notes:

1. All parts of a question should be answered at one place.
2. Answer should be brief and to-the-point and be supplemented with neat sketches.
3. Any missing or wrong data may be assumed suitably giving proper justification.
4. Figures on the right-hand side margin indicate full marks.

Section A

Note: Attempt All Questions **(1x5=5)**

I. What is multivalued dependency? When does it arise?

II. Between the properties of dependency preservation and losslessness, which one must definitely be satisfied? Why?

III. The employee information in a company is stored in the relation Employee(name,sex,salary,deptname). Consider the following sql query: select deptname from employee where sex='m' group by deptname having avg(salary)>(select avg(salary) from employee).

What is the result of the above query?

IV. When are two sets of functional dependencies equivalent?

V. Use Armstrong's axioms to prove the soundness of the pseudo-transitivity rule.

Section B

Note: Attempt any Three Questions (2x3=6)

I. Discuss various anomalies in relational database. Why are they considered bad? Illustrate with examples.

II. Consider a relation $R(A, B, C, D, E)$ with the following dependencies:

$$AB \rightarrow C,\ CD \rightarrow E,\ DE \rightarrow B$$

Is AB a candidate key of this relation? If not, is ABD? Explain your answer.

III. Suppose that we have the following three tuples in a legal instance of a relation schema S with three attributes ABC (listed in order): (1,2,3), (4,2,3), and (5,3,3).

(a) Which of the following dependencies can you infer does not hold over schema S?

(i) $A \rightarrow B$, (ii) $BC \rightarrow A$, (iii) $B \rightarrow C$

(b) Can you identify any dependencies that hold over S?

IV. What are views? Discuss the problems of Insert, Delete and Update through the views.

Section C

Note: Attempt any Three Questions (3x3=9)

I. Consider the following relation:

R (Doctor#, Patient#, Date, Diagnosis, Treat_code, Charge)

In the above relation, a tuple describes a visit of a patient to a doctor along with a treatment code and daily charge. Assume that diagnosis is determined (uniquely) for each patient by a doctor. Assume that each treatment code has a fixed charge (regardless of patient). Is this relation in 2NF? Justify your answer and decompose if necessary. Then argue whether further normalization to 3NF is necessary, and if so, perform it.

II. Consider the schema $S = (V, W, X, Y, Z)$. Suppose, the following functions dependencies hold:

$Z \rightarrow V, W \rightarrow Y, XY \rightarrow Z, V \rightarrow WX$

State whether the following decomposition of schema S is loss less join decomposition. Justify your answer:

(a) S1 = (V, W, X) and S2 = (V, Y, Z)

(b) S1 = (V, W, X) and S2 = (X, Y, Z)

III. Consider the relation R = (A, B, C, D, E, F, G, H) with following FDs:

F= {AC→G, D→EG, BC→D, CG→BD, ACD→B, CE→AG}

Find the canonical cover of F. Show all the steps clearly.

IV. Consider following scheme for PROJECT database :-

Project (Project_No, Project_Name, Project_Manager)

Employee (Employee_No, Employee_Name)

Assigned_To (Project_No, Employee_No)

(a) Write SQL-DDL statement for implementation of PROJECT database. The SQL statement should clearly indicate the Primary Key and Foreign Keys.

(b) Write following queries in SQL :-

(i) Get the detail of employees working on both projects 'P1' and 'P2'.

(ii) Delete the record of employee whose Employee Number is 'E1'.

(iii) List the name of employees who are working on a project for which 'E1' is the project manager.

University Roll No. : _____

MID Term Examination, 2017 – 2018

Sub.:- Engg. Mathematics - III (AHM – 3101)

Time: - 90 Min. **Course:- B. Tech. III Sem.** **Max. Marks:- 20**

Note - Attempt **ALL** Sections.

SECTION A **(1 x 5 = 5 marks)**

Note : ALL questions of this section are **COMPULSORY.**

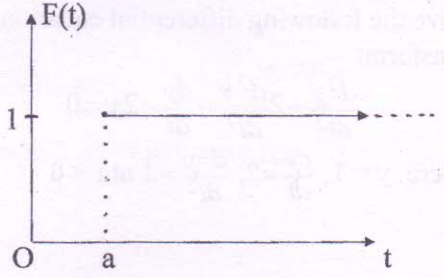

Q.1. Find the Laplace transform of $f(t) = (\sin t - \cos t)^2$, $t > 0$.

Q.2. If $L(t \sin t) = \frac{2p}{(p^2+1)^2}$ then compute $L(t \cos t + \sin t)$ using the given result.

Q.3. Obtain the inverse Laplace transform of $f(p) = \frac{p}{p^2+4p+4}$.

Q.4. State and prove the change of scale property of Laplace transform.

Q.5. Determine, what will be the Laplace transform of the following function? (Given that $a > 0$)

SECTION B (2 x 3 = 6 marks)

Note : Attempt any **THREE** questions. The terms have their usual meanings.

Q.1. Find: $L^{-1}\left[\log_e\left(\frac{p+1}{p-1}\right)\right]$

Q.2. Find the Laplace transform of $F(t) = \int_0^t \frac{\sin t}{t}\, dt$

Q.3. Find: $L^{-1}\left[\frac{p^2}{p^4-1}\right]$

Q.4. Find the Laplace transform of the following function:

$$F(t) = \begin{cases} 1, for\ 0 \le t \le 1,\ 2 < t \le 3,\ 4 < t \le 5, \ldots\ldots \\ 0, for\ 1 < t \le 2,\ 3 < t \le 4,\ 5 < t \le 6, \ldots\ldots \end{cases}$$

SECTION C (3 x 3 = 9 marks)

Note : Attempt any **THREE** questions. The terms have their usual meanings.

Q.1. Solve the following differential equation using Laplace transform:

$$\frac{d^3y}{dt^3} + 2\frac{d^2y}{dt^2} - \frac{dy}{dt} - 2y = 0$$

where $y = 1$, $\frac{dy}{dt} = 2$, $\frac{d^2y}{dt^2} = 2$ at $t = 0$

Q.2. The coordinates (x, y) of a particle moving along a plane curve at any time t are given by

$$\frac{dy}{dt}+2x = \sin 2t,$$
$$\frac{dx}{dt}-2y = \cos 2t;\ t>0$$

It is given that at t = 0, x = 1 and y = 0. Show using Laplace transform that the particle moves along the curve

$$4x^2+4xy+5y^2=4.$$

Q.3. Write down the statement of convolution theorem. Hence compute the inverse Laplace transform of the function:

$$f(p) = \frac{a^2}{(p^2+a^2)^2}$$

Show that the result is equal to $\frac{1}{2a}(\sin x - x\cos x)$ where x = at. Given that a is any constant.

Q.4. (a) Evaluate using Laplace transform:

$$\int_0^\infty \frac{e^{-t}\sin^2 t}{t}\,dt$$

(b) Evaluate : $L^{-1}\left(\frac{pe^{-\pi p}}{p^2+\omega^2}\right)$

where ω is any constant.

II- Mid Term Theory Examination 2017-18

B. Tech – Year II, Semester – III

Industrial Economics **Paper Code: MBA5031**

Time Allotted: 90 Minutes **Max. Marks: 20**

Note:

Attempt **All** Questions from Section -A, Any **Three** Questions from Section- B and Any **Three** Questions from Section- C. Make a **graphical illustration** in support of your answer.

Section: A

Note: Attempt All Questions **(1 X 5= 5 Marks)**

I. Define Total Cost.

II. Regression Method of demand forecasting.

III. Can Marginal productivity become negative? Explain.

IV. Define point of Inflection.

V. If Marginal cost is falling throughout, will average cost be necessarily falling? Justify.

Section –B

Note: Attempt Any Three Questions **(3 X 2 = 6 Marks)**

I. Define Law of returns to scale with all stages and show it graphical illustration.

II. What is meant by Isoquant map? Show it graphically.

III. If a Production function's coefficient is represented by $\alpha + \beta < 1$, what will be stage of the returns to scale. Justify your answer by graphical illustration.

IV. Explain the relationship between long run average total cost and long marginal cost curves.

Section – C

Note: Attempt Any Three Questions **(3 X 3 = 9 Marks)**

I. What do you mean by Demand Forecasting? Discuss various methods of demand forecasting?

II. Long run average cost (LAC) is flatter while short run average cost curve is U-shaped? Justify the statement with graphical illustration.

III. Production manager is able to change factor inputs in a definite ratio? Discuss under which production function he is working? Justify your answer.

IV. Calculate Total Cost, Marginal cost, Average Variable cost, Average Fixed Cost and Average Total Cost, if **Total Fixed Cost is equal to 7000. Show it graphically.**

Mid-Term Exam B.Tech (ODD SEMESTER)/MCA-2017

Ethics & Values: AHE 3001

Time: 1 ½ Hours **Max. Marks: 20**

Note: There are four passages in this paper based on class discussion. Read the passages carefully and answer the given questions. Each question is followed by multiple statements numbered 1,2,3,4. Please note that there is only ONE CORRECT ANSWER (one among a, b, c, d). Choose the most appropriate answer.

Passage: 1 (1 X 5=5 marks)

The Life-Boat Case (also known as Richard Parker case) is one of the most debated cases in the law schools. It is about the fate of an English ship which was to be transported to Australia with a crew of four: Thomas Dudley, the captain; Edwin Stephens; Edmund Brooks; and Richard Parker, the cabin boy. The ship went down in a storm and all of them escaped in a lifeboat. They battled thirst and starvation for several days in the sea but in the end had to kill the cabin boy Richard Parker, who had fallen sick by drinking sea-water, and survived by feeding on his body. Luckily, four days after the killing, they were rescued by a passing ship. When they landed, Dudley and Stephens were arrested for murder and put on trial, while Brooke turned a witness. The judge had to decide whether the killing done by the three on life-boat for saving their lives was justified. The accused argued that it was a tragic but an unavoidable necessary action. They reasoned that circumstances were such that they were forced to take Richard Parker's life.

Thomas Dudley, the captain, further argued that Parker was an orphan and had become so ill that he would have died anyway. He also reasoned that since others had families and Parker had none, Parker's death would have caused suffering to fewer people than the death of others. Since all would have died of hunger and thirst had nobody been killed, Parker was the only logical choice.

The argument of situational necessity was rejected by the judge. The arguments presented by the Dudley based on saving of maximum lives too was not sufficient to excuse them from the charges of murder and cannibalism. The jury initially decided the death sentence for both Dudley & Stephenson but it was later changed into imprisonment for six months by the interference of the crown. However the case offers a thrilling moral debate on whether achieving the greatest good outweighs other moral considerations.

Even though the Utilitarian can find reasons to support Dudley's action, there is something about the action that violates our sense of morality. Wasn't Parker's life made simply a means to achieve a greater good? How could Dudley and Stephens take decision about Parker's life? There are theorists, called the Libertarians, who believe that the rightness or wrongness of an action depends on whether human liberty has been respected or not. Those who hold this view object to Dudley's action on the ground that it violated Parker's liberty, his right to choose his own fate. Had Parker consented to his sacrifice, the action would not be as unethical as it seems now. Morality of an action does not increase or decrease by the numbers of people affected by it. For them Parker's life could not simply be used as a means to save others. Consequences don't decide the morality of an action for such theorists but the respect for an individual's life and liberty.

Questions:

1) Which of the following arguments were **not** offered by Dudley & Stephens in their defence?

1. The saving of maximum lives argument
2. They were following their duty based on Moral law.
3. Situation forced them to take such an action.
4. Killing Richard Parker was done to relieve him of his suffering.

a) 1&3 b) 1&2 c) 3&4 d) 2&4

2) What Utilitarian arguments were given by Dudley, the captain, in his defence?

1. In a situation of shipwreck killing is the only means of surviving.
2. It was necessary to kill one person in order to save three.
3. Parker had no dependents and would have died anyway.
4. A captain's life and a cabin boy's life are not equally valuable.

a) 1&2 b) 1&4 c) 3&4 d) 2&3

3) What two primary ethical approaches emerge in the lifeboat case ?

1. The captain's approach that morality of an action depends only on the results.
2. The captain's approach that in extreme situations there is no humanity.
3. The judge's approach that duty and rights should command our respect.
4. The approach that morality fails in matters of life and death.

a) 1&2 b) 1&4 c) 3&4 d) 1&3

4) What would a libertarian approve in the Life-Boat case?

1. Action about Parker's life should not have been based on consequences
2. The law should be followed at all costs.
3. Respecting Richard Parker's freedom to decide about his life.
4. Freedom of one can be disregarded if it benefits many people.

a) 3&4 b) 2&4 c) 1,2&3 d) 1&3

A

5) Which of the following are valid **utilitarian** arguments against the captain's claim that killing Richard Parker achieved "maximum happiness of maximum no."?

1. One can argue that allowing it will permit murdering the weak thus resulting in overall unhappiness of the society.
2. It can be argued that people might be encouraged to take law in their own hands thus resulting in overall unhappiness.
3. Taking parker's life without his consent was wrong.
4. The captain did not do his duty.

a) 3&4 b) 1&4 c) 2&3 d)1 &2

Passage: 2 (1x5 =5 marks)

Libertarianism holds that morality is about respecting personal freedom and that individuals should be free from interference of others including the government. A society based on libertarian principles holds that justice and fairness, right and wrong are measured not by the welfare of the masses but from ensuring equal opportunity for all to engage in informed choices about their own lives. Individuals' preferences should not be sacrificed for either larger social purposes or the common good.

Nevertheless, we desire those minimum laws and rules which would protect our rights and freedom from being violated by others. That is why Libertarians differentiate between individual and collective (social) freedom. According to libertarians, there should be no limitations on individual freedom. However, since collective freedom is important, one is free to the extent that one must not harm others. An interesting feature of the Libertarians' idea of freedom is that one should even have the freedom, if one wishes so, to harm oneself.

A natural result of applications of the principles of libertarianism is the minimal state theory. What this theory simply means is that government should not regulate the individuals' choices and actions by making certain laws. Government has only limited role to play in individuals' lives which should be to protect them from any kind of external threat like theft, fraud, and corruption. Libertarians object to the excessive use of the powers of government because it means intervening in an individual's life and forcing them to follow certain laws. There are three such objections by Libertarians against the governments. First, government should not make paternalistic laws. Second, government should not make laws for the morals legislation of individuals' lives. Third, government should not redistribute wealth by taxing an individual's wealth. By paternalistic laws we mean such laws which protect people from harming themselves, for example, wearing a helmet while on a bike or seatbelt driving safety laws and the pension laws. Libertarians argue that by

enforcing such laws on an individual, a government interferes with an individual's self-ownership, even if it means taking risky decisions. By moral legislation, Libertarians mean that government should not propose a certain kind of value system or principles for individuals' lives. An individual must be given full freedom to choose his or her own way to live one's life as long as it does not affect others. On the issue of taxation, Libertarians dispute government's claim of social benefit out of taxation. They say that by taxing individuals' income, government takes away the ownership of an individual's labor. Libertarians say that it is as good as slavery. What we earn through our labor, talent or skill is our self-expression. They argue that taxing an individual without his consent, even though for a good cause, is violating one's fundamental right to property. This is the reason governments should not redistribute the wealth by following the mechanism of taxation. Libertarians, by limiting the excessive role of government maintain that the life of an individual must be respected as an end and never as means. Respect for an individual's life is independent of collective common good.

Questions:

6) Why should governments not make paternalistic laws?
   1. Such laws question self-ownership of an individual.
   2. Individuals do not have freedom to break such laws.
   3. Very few people obey such laws.
   4. It is violating the individual's right to take calculated risks.

   a) 1&4 b) 1&2 c) 2&3 d) 3&4

7) What is the Libertarian approach to an ethical society?
   1. Society should maintain maximum control over its people.
   2. Morality of an action depends on whether freedom has been honored or not.
   3. An individual cannot harm oneself.
   4. One's freedom is absolute as long as it does not interfere with other's rights.

   a) 2&4 b) 1&3 c)3&4 d) 1&2

8) Why does a Libertarian oppose moral Legislation by government ?
   1. It believes that laws should not prescribe a specific style of living
   2. It limits choices of individuals by dictating a particular way of life.
   3. It provides complete freedom to individuals.
   4. It allows people to choose their own ways of living

   a) 1&2 b) 3&4 c)1&3 d) 1,2&4

9) According to a Libertarian, taxing an individual's income beyond the requirements of a minimal state is wrong because
   1. It disrespects ownership of labor in some sense.
   2. The wish or consent of the person is not considered.
   3. It is a kind of moral legislation
   4. The amount we pay as tax is a kind of forced labor

   a) 1,2&4 b)1&2 c)1&3 d) 2&3

10) What would be the basic conflict between a utilitarian society and a libertarian society?

1. Whether the government should be a welfare state or a minimal state
2. Between a free market economy and a government controlled economy,
3. Between moral policing and no moral legislation.
4. All of the above

a) 4 b)2 c)3 d)1

Passage: 3 (1x5 = 5 marks)

The effective person feels strong and has a deep sense of his or her own capability. There is a feeling that once a decision is made, the individual will have the inner power to implement it. This ability, called personal power can be derived from many sources. Some people believe that early experiences in life play an important part in how people feel about their potential. But it is also true that being able to solve one's inner doubts and problems helps one achieve this strength. Such an individual has a deep sense of self confidence.

The effective person is also in touch with the sources of his or her inner motivation. Activities are undertaken with enthusiasm and passion. Lack of energy and enthusiasm are causes of underachievement. One of the other important qualities of a person is how one deals with difficulties and setbacks. Many opportunities are lost because an individual gives up before trying hard enough. A strong commitment to the completion of the task is the characteristic of mature individuals. Successful people possess the inner strength to undergo short term discomfort for long term goals. The effective person learns from difficulties failures and successes. Each activity is viewed as an experiment and the results are perceived to be positive whether the outcome is successful or not. The effective person has acquired the ability to turn a negative event into a learning experience.

Questions:

11. Which of the following chiefly describe the quality of Personal Power ?

1. The capacity to be successful in anything one chooses to undertake.
2. Possessing an inner strength to take up a new task.
3. To have a detailed plan for the future
4. Skills of networking with people.

a) 2&3 b) 1&2 c) 1&4 d) 1&3

12. When a person has a lot of energy and enthusiasm for his work, it means that

1. One has real passion for the things they are engaged in
2. One enjoys the work
3. One is a good handler of situations.
4. He/She is an effective communicator.

a) 3&4 b) 1&2 c) 2&3 d) 1&4

13. What are the distinguishing features of a professional?

1. Specialized knowledge and skills with expertise in a particular area
2. Possessing machines and technology to do a job.
3. Knowledge of only one field while being ignorant of others
4. Undergoing intensive training and certification by an authorized body.

a) 1&2 b)1&4 c)2&3 d)1&3

14. How does a person who has "realistic vision" express it in one's life ?

1. Such a person has a detailed plan about how to achieve one's goal.
2. By having dreams about becoming great all the time.
3. Such a person has a time-bound program for change
4. By achieving as many degrees and certificates as possible.

a) 2&3 b)1&3 c)1&4 d)1&2

15. Which of the following are **not true** about Professional ethics?

1. It is not related to ethical theories like utilitarianism etc.
2. It includes code of conduct that should govern the actions of a professional.
3. It teaches us to mix our personal and professional lives.
4. It does not require dealing with ethical problems.

a) 1,2&4 b) 1,3&4 c)2,3&4 d) 1,2 &3

Passage 4 (1x5 = 5 marks)

Among the consequentialist ethical theories, Utilitarianism is the most prominent one. This theory was first given by Jeremy Bentham and later modified by John Stuart Mill. Its main principle is that any action that results in the "greatest happiness of the greatest number" is the right action. Bentham was a firm believer in psychological hedonism, the view that pleasure and pain governs all our actions. Therefore, in deciding whether a conduct is moral or not, pleasure and pain are the only consequences that matter. Bentham states his theory in quantitative terms and hoped to make ethics almost mathematical. That is why it has a powerful influence on policy makers, business executives and ordinary citizens. The most basic form

A

of utilitarian analysis is cost benefit analysis, where one tallies the costs and benefits of a given decision and follows the decision that provides the greatest overall gain. Thus Utilitarianism claims to offer a science of morality based on measuring and calculating happiness. While this may seem easy to apply, there remain problems with Bentham's version of Utilitarianism. How do we measure happiness? Are all pleasures equal? More importantly, there is a great possibility of injustice as the rights of an individual person are not taken into account as long as the majority is benefited.

Mill tried to answer these objections to Utilitarianism without rejecting Bentham's fundamental principle of maximum happiness of maximum number. He argued that respecting individual rights and liberty will lead to the greatest human happiness in the long run. Also, while Bentham refused to differentiate higher from lower pleasures, Mill believed that there was a qualitative difference between pleasures. Human beings have capacities that are not satisfied merely with the pleasures of senses; they seek the higher pleasures of mind and heart. Once a man has lived on a higher level, he can never really wish to sink into a lower level of existence. He famously said that "It is better to be a Socrates dissatisfied than a fool satisfied."

Questions:

16. Which of the following statements are **not true** about Bentham's utilitarianism?
    1. Man is under two masters, pain and pleasure.
    2. The greatest good that we should seek is our own happiness.
    3. The greatest good that we seek is quality of happiness.
    4. We should aim at maximizing happiness of the maximum no.

    a) 1&2 b) 1,2&4 c)2&3 d)3&4

17) Why does Mill's Utilitarianism seem more balanced?
    1. It considers higher pleasures.
    2. It values human rights and liberties.
    3. The quality of happiness is more important than quantity.
    4. It gives space to human faculties of thinking and reason.

    a) 1&3 b) 1&2 c) All of the above d) 3&4

18) What are the merits of the Utilitarian philosophy ?

1. It appeals to human being's desire for happiness which is a universal truth.
2. It makes decision-making scientific and objective.
3. It considers the needs and feelings of individuals.
4. It does not base ethics on religion, tradition or culture.

a) 2,3&4 b) 1,3&4 c) 1,2&4 d) 1,2 &3

19). Which of the following is **not true** about Utilitarianism?

1. It is not based on human psychology.
2. It only considers the results of an action to decide its morality.
3. It only considers the intention behind the action to decide its morality.
4. It applies a calculative approach to ethics to make it more scientific.

a) 1&2 b) 1&4 c) 1&3 d) 2& 3

20) What are the dangers of a Utilitarian society?

1. It can lead to injustice by the majority.
2. It can lead to government control over individuals in the name of welfare.
3. Only knowledge and learning will be valued in such a society.
4. None of the above.

a) 1&3 b) 2&3 c) 1&2 d) 4

Note: There are four passages in this paper based on class discussion. Read the passages carefully and answer the given questions. Each question is followed by multiple statements numbered 1,2,3,4. Please note that there is only ONE CORRECT ANSWER (one among a, b, c, d). Choose the most appropriate answer.

Passage 1 (1X 5 marks=5 marks)

The effective person feels strong and has a deep sense of his or her own capability. There is a feeling that once a decision is made, the individual will have the inner power to implement it. This ability, called personal power can be derived from many sources. Some people believe that early experiences in life play an important part in how people feel about their potential. But it is also true that being able to solve one's inner doubts and problems helps one achieve this strength. Such an individual has a deep sense of self confidence. The effective person is also in touch with the sources of his or her inner motivation. Activities are undertaken with enthusiasm and passion. Lack of energy and enthusiasm are causes of underachievement. One of the other important qualities of a person is how one deals with difficulties and setbacks. Many opportunities are lost because an individual gives up before trying hard enough. A strong commitment to the completion of the task is the characteristic of mature individuals. Successful people possess the inner strength to undergo short term discomfort for long term goals. The effective person learns from difficulties failures and successes. Each activity is viewed as an experiment and the results are perceived to be positive whether the outcome is successful or not. The effective person has acquired the ability to turn a negative event into a learning experience.

Questions:

1. Which of the following chiefly describe the quality of Personal Power ?
   1. The capacity to be successful in anything one chooses to undertake.
   2. Possessing an inner strength to take up a new task.
   3. To have a detailed plan for the future
   4. Skills of networking with people.

   a) 2&3 b) 1&2 c) 1&4 d) 1&3

2. When a person has a lot of energy and enthusiasm for his work, it means that
   1. One has real passion for the things they are engaged in
   2. One enjoys the work
   3. One is a good handler of situations.
   4. He/She is an effective communicator.

   a) 3&4 b) 1&2 c) 2&3 d) 1&4

3. What are the distinguishing features of a professional?
   1. Specialized knowledge and skills with expertise in a particular area
   2. Possessing machines and technology to do a job.
   3. Knowledge of only one field while being ignorant of others
   4. Undergoing intensive training and certification by an authorized body.

   a) 1&2 b)1&4 c)2&3 d)1&3

4. How does a person who has "realistic vision" express it in one's life ?
   1. Such a person has a detailed plan about how to achieve one's goal.
   2. By having dreams about becoming great all the time.
   3. Such a person has a time-bound program for change
   4. By achieving as many degrees and certificates as possible.

   a) 2&3 b)1&3 c)1&4 d)1&2

5. Which of the following are **not true** about Professional ethics?
   1. It is not related to ethical theories like utilitarianism etc.
   2. It includes code of conduct that should govern the actions of a professional.
   3. It teaches us to mix our personal and professional lives.
   4. It does not require dealing with ethical problems.

   a) 1,2&4 b) 1,3&4 c)2,3&4 d) 1,2 &3

Passage: 2 (1x5 =5 marks)

Libertarianism holds that morality is about respecting personal freedom and that individuals should be free from interference of others including the government. A society based on libertarian principles holds that justice and fairness, right and wrong are measured not by the welfare of the masses but from ensuring equal opportunity for all to engage in informed choices about their own lives. Individuals' preferences should not be sacrificed for either larger social purposes or the common good.

Nevertheless, we desire those minimum laws and rules which would protect our rights and freedom from being violated by others. That is why Libertarians differentiate between individual and collective (social) freedom. According to

libertarians, there should be no limitations on individual freedom. However, since collective freedom is important, one is free to the extent that one must not harm others. An interesting feature of the Libertarians' idea of freedom is that one should even have the freedom, if one wishes so, to harm oneself.

A natural result of applications of the principles of libertarianism is the minimal state theory. What this theory simply means is that government should not regulate the individuals' choices and actions by making certain laws. Government has only limited role to play in individuals' lives which should be to protect them from any kind of external threat like theft, fraud, and corruption. Libertarians object to the excessive use of the powers of government because it means intervening in an individual's life and forcing them to follow certain laws. There are three such objections by Libertarians against the governments. First, government should not make paternalistic laws. Second, government should not make laws for the morals legislation of individuals' lives. Third, government should not redistribute wealth by taxing an individual's wealth. By paternalistic laws we mean such laws which protect people from harming themselves, for example, wearing a helmet while on a bike or seatbelt driving safety laws and the pension laws. Libertarians argue that by enforcing such laws on an individual, a government interferes with an individual's self-ownership, even if it means taking risky decisions. By moral legislation, Libertarians mean that government should not propose a certain kind of value system or principles for individuals' lives. An individual must be given full freedom to choose his or her own way to live one's life as long as it does not affect others. On the issue of taxation, Libertarians dispute government's claim of social benefit out of taxation. They say that by taxing individuals' income, government takes away the ownership of an individual's labor. Libertarians say that it is as good as slavery. What we earn through our labor, talent or skill is our self-expression. They argue that taxing an individual without his consent, even though for a good cause, is violating one's fundamental right to property. This is the reason governments should not redistribute the wealth by following the mechanism of taxation. Libertarians, by limiting the excessive role of government maintain that the life of an individual must be respected as an end and never as means. Respect for an individual's life is independent of collective common good.

Questions:

6) Why should governments not make paternalistic laws?

1. Such laws question self-ownership of an individual.
2. Individuals do not have freedom to break such laws.
3. Very few people obey such laws.
4. It is violating the individual's right to take calculated risks.

a) 1&4 b) 1&2 c) 2&3 d) 3&4

7) What is the Libertarian approach to an ethical society?

1. Society should maintain maximum control over its people.
2. Morality of an action depends on whether freedom has been honored or not.
3. An individual cannot harm oneself.
4. One's freedom is absolute as long as it does not interfere with other's rights.

a) 2&4 b) 1&3 c)3&4 d) 1&2

8) Why does a Libertarian oppose moral Legislation by government ?

1. It believes that laws should not prescribe a specific style of living
2. It limits choices of individuals by dictating a particular way of life.
3. It provides complete freedom to individuals.
4. It allows people to choose their own ways of living

a) 1&2 b) 3&4 c)1&3 d) 1,2&4

9) According to a Libertarian, taxing an individual's income beyond the requirements of a minimal state is wrong because

1. It disrespects ownership of labor in some sense.
2. The wish or consent of the person is not considered.
3. It is a kind of moral legislation
4. The amount we pay as tax is a kind of forced labor

a) 1,2&4 b)1&2 c)1&3 d) 2&3

10) What would be the basic conflict between a utilitarian society and a libertarian society?

1. Whether the government should be a welfare state or a minimal state
2. Between a free market economy and a government controlled economy,
3. Between moral policing and no moral legislation.
4. All of the above

a) 4 b)2 c)3 d)1

Passage: 3 (1x5 = 5 marks)

Among the consequentialist ethical theories, Utilitarianism is the most prominent one. This theory was first given by Jeremy Bentham and later modified by John Stuart Mill. Its main principle is that any action that results in the "greatest happiness of the greatest number" is the right action. Bentham was a firm believer in psychological hedonism, the view that pleasure and pain governs all our actions. Therefore, in deciding whether a conduct is moral or not, pleasure and pain are the only consequences that matter. Bentham states his theory in quantitative terms and hoped to make ethics almost mathematical. That is why it has a powerful influence on policy makers, business executives and ordinary citizens. The most basic form of utilitarian analysis is cost benefit analysis, where one tallies the costs and benefits of a given decision and follows the decision that provides the greatest overall gain. Thus Utilitarianism claims to offer a science of morality based on

measuring and calculating happiness. While this may seem easy to apply, there remain problems with Bentham's version of Utilitarianism. How do we measure happiness? Are all pleasures equal? More importantly, there is a great possibility of injustice as the rights of an individual person are not taken into account as long as the majority is benefited.

Mill tried to answer these objections to Utilitarianism without rejecting Bentham's fundamental principle of maximum happiness of maximum number. He argued that respecting individual rights and liberty will lead to the greatest human happiness in the long run. Also, while Bentham refused to differentiate higher from lower pleasures, Mill believed that there was a qualitative difference between pleasures. Human beings have capacities that are not satisfied merely with the pleasures of senses; they seek the higher pleasures of mind and heart. Once a man has lived on a higher level, he can never really wish to sink into a lower level of existence. He famously said that "It is better to be a Socrates dissatisfied than a fool satisfied."

Questions:

11. Which of the following statements are **not true** about Bentham's utilitarianism?
    1. Man is under two masters, pain and pleasure.
    2. The greatest good that we should seek is our own happiness.
    3. The greatest good that we seek is quality of happiness.
    4. We should aim at maximizing happiness of the maximum no.

    a) 1&2 b) 1,2&4 c)2&3 d)3&4

12) Why does Mill's Utilitarianism seem more balanced?
    1. It considers higher pleasures.
    2. It values human rights and liberties.
    3. The quality of happiness is more important than quantity.
    4. It gives space to human faculties of thinking and reason.

    a) 1&3 b) 1&2 c) All of the above d) 3&4

13) What are the merits of the Utilitarian philosophy ?
    1. It appeals to human being's desire for happiness which is a universal truth.
    2. It makes decision-making scientific and objective.
    3. It considers the needs and feelings of individuals.
    4. It does not base ethics on religion, tradition or culture.

    a) 2,3&4 b) 1,3&4 c) 1,2&4 d) 1,2 &3

14). Which of the following is **not true** about Utilitarianism?

1. It is not based on human psychology.
2. It only considers the results of an action to decide its morality.
3. It only considers the intention behind the action to decide its morality.
4. It applies a calculative approach to ethics to make it more scientific.

a) 1&2 b) 1&4 c) 1&3 d) 2& 3

15) What are the dangers of a Utilitarian society?

1. It can lead to injustice by the majority.
2. Excessive government control over individuals in the name of welfare.
3. Only knowledge and learning will be valued in such a society.
4. None of the above.

a) 1&3 b) 2&3 c) 1&2 d) 4

Passage 4 (1x5 = 5 marks)

The Life-Boat Case (also known as Richard Parker case) is one of the most debated cases in the law schools. It is about the fate of an English ship which was to be transported to Australia with a crew of four: Thomas Dudley, the captain; Edwin Stephens; Edmund Brooks; and Richard Parker, the cabin boy. The ship went down in a storm and all of them escaped in a lifeboat. They battled thirst and starvation for several days in the sea but in the end had to kill the cabin boy Richard Parker, who had fallen sick by drinking sea-water, and survived by feeding on his body. Luckily, four days after the killing, they were rescued by a passing ship. When they landed, Dudley and Stephens were arrested for murder and put on trial, while Brooke turned a witness. The judge had to decide whether the killing done by the three on life-boat for saving their lives was justified. The accused argued that it was a tragic but an unavoidable necessary action. They reasoned that circumstances were such that they were forced to take Richard Parker's life.

Thomas Dudley, the captain, further argued that Parker was an orphan and had become so ill that he would have died anyway. He also reasoned that since others had families and Parker had none, Parker's death would have caused suffering to fewer people than the death of others. Since all would have died of hunger and thirst had nobody been killed, Parker was the only logical choice.

The argument of situational necessity was rejected by the judge. The arguments presented by the Dudley based on saving of maximum lives too was not sufficient to excuse them from the charges of murder and cannibalism. The jury initially decided the death sentence for both Dudley & Stephenson but it was later changed

into imprisonment for six months by the interference of the crown. However the case offers a thrilling moral debate on whether achieving the greatest good outweighs other moral considerations.

Even though the Utilitarian can find reasons to support Dudley's action, there is something about the action that violates our sense of morality. Wasn't Parker's life made simply a means to achieve a greater good? How could Dudley and Stephens take decision about Parker's life? There are theorists, called the Libertarians, who believe that the rightness or wrongness of an action depends on whether human liberty has been respected or not. Those who hold this view object to Dudley's action on the ground that it violated Parker's liberty, his right to choose his own fate. Had Parker consented to his sacrifice, the action would not be as unethical as it seems now. Morality of an action does not increase or decrease by the numbers of people affected by it. For them Parker's life could not simply be used as a means to save others. Consequences don't decide the morality of an action for such theorists but the respect for an individual's life and liberty.

Questions:

16) Which of the following arguments were **not** offered by Dudley & Stephens in their defence?

1. The saving of maximum lives argument
2. They were following their duty based on Moral law.
3. Situation forced them to take such an action.
4. Killing Richard Parker was done to relieve him of his suffering.

a) 1&3 b) 1&2 c) 3&4 d) 2&4

17) What Utilitarian arguments were given by Dudley, the captain, in his defence?

1. In a situation of shipwreck killing is the only means of surviving.
2. It was necessary to kill one person in order to save three.
3. Parker had no dependents and would have died anyway.
4. A captain's life and a cabin boy's life are not equally valuable.

a) 1&2 b) 1&4 c) 3&4 d) 2&3

18) What two primary ethical approaches emerge in the lifeboat case ?

1. The captain's approach that morality of an action depends only on the results.
2. The captain's approach that in extreme situations there is no humanity.
3. The judge's approach that duty and rights should command our respect.
4. The approach that morality fails in matters of life and death.

a) 1&2 b) 1&4 c) 3&4 d) 1&3

19) What would a libertarian approve in the Life-Boat case?

1. Action about Parker's life should not have been based on consequences
2. The law should be followed at all costs.
3. Respecting Richard Parker's freedom to decide about his life.
4. Freedom of one can be disregarded if it benefits many people.

a) 3&4 b) 2&4 c) 1,2&3 d) 1&3

20) Which of the following are valid **utilitarian** arguments against the captain's claim that killing Richard Parker achieved "maximum happiness of maximum no."?

1. One can argue that allowing it will permit murdering the weak thus resulting in overall unhappiness of the society.
2. It can be argued that people might be encouraged to take law in their own hands thus resulting in overall unhappiness.
3. Taking parker's life without his consent was wrong.
4. The captain did not do his duty.

a) 3&4 b) 1&4 c) 2&3 d)1 &2

Passage: 1 (1 X 5=5 marks)

Among the consequentialist ethical theories, Utilitarianism is the most prominent one. This theory was first given by Jeremy Bentham and later modified by John Stuart Mill. Its main principle is that any action that results in the "greatest happiness of the greatest number" is the right action. Bentham was a firm believer in psychological hedonism, the view that pleasure and pain governs all our actions. Therefore, in deciding whether a conduct is moral or not, pleasure and pain are the only consequences that matter. Bentham states his theory in quantitative terms and hoped to make ethics almost mathematical. That is why it has a powerful influence on policy makers, business executives and ordinary citizens. The most basic form of utilitarian analysis is cost benefit analysis, where one tallies the costs and benefits of a given decision and follows the decision that provides the greatest overall gain. Thus Utilitarianism claims to offer a science of morality based on measuring and calculating happiness. While this may seem easy to apply, there remain problems with Bentham's version of Utilitarianism. How do we measure happiness? Are all pleasures equal? More importantly, there is a great possibility of injustice as the rights of an individual person are not taken into account as long as the majority is benefited.

Mill tried to answer these objections to Utilitarianism without rejecting Bentham's fundamental principle of maximum happiness of maximum number. He argued that respecting individual rights and liberty will lead to the greatest human happiness in the long run. Also, while Bentham refused to differentiate higher from lower pleasures, Mill believed that there was a qualitative difference between pleasures. Human beings have capacities that are not satisfied merely with the pleasures of senses; they seek the higher pleasures of mind and heart. Once a man has lived on a higher level, he can never really wish to sink into a lower level of

existence. He famously said that "It is better to be a Socrates dissatisfied than fool satisfied."

Questions:

1. Which of the following statements are **not true** about Bentham's utilitarianism
   1. Man is under two masters, pain and pleasure.
   2. The greatest good that we should seek is our own happiness.
   3. The greatest good that we seek is quality of happiness.
   4. We should aim at maximizing happiness of the maximum no.

   a) 1&2 b) 1,2&4 c)2&3 d)3&4

2) Why does Mill's Utilitarianism seem more balanced?
   1. It considers higher pleasures.
   2. It values human rights and liberties.
   3. The quality of happiness is more important than quantity.
   4. It gives space to human faculties of thinking and reason.

   a) 1&3 b) 1&2 c) All of the above d) 3&4

3) What are the merits of the Utilitarian philosophy ?
   1. It appeals to human being's desire for happiness which is a universal truth
   2. It makes decision-making scientific and objective.
   3. It considers the needs and feelings of individuals.
   4. It does not base ethics on religion, tradition or culture.

5) What are the dangers of a Utilitarian society?
   1. It can lead to injustice by the majority.
   2. It can lead to government control over individuals in the name of welfar
   3. Only knowledge and learning will be valued in such a society.
   4. None of the above.

   a) 1&3 b) 2&3 c) 1&2 d) 4

Passage: 2 (1x5 =5 marks)

The Life-Boat Case (also known as Richard Parker case) is one of the most debated cases in the law schools. It is about the fate of an English ship which was to be transported to Australia with a crew of four: Thomas Dudley, the captain; Edwin Stephens; Edmund Brooks; and Richard Parker, the cabin boy. The ship went down in a storm and all of them escaped in a lifeboat. They battled thirst and starvation for several days in the sea but in the end had to kill the cabin boy Richard Parker, who had fallen sick by drinking sea-water, and survived by feeding on his body. Luckily, four days after the killing, they were rescued by a passing ship. When they landed, Dudley and Stephens were arrested for murder and put on trial, while Brooke turned a witness. The judge had to decide whether the killing done by the three on life-boat for saving their lives was justified. The accused argued that it was a tragic but an unavoidable necessary action. They reasoned that circumstances were such that they were forced to take Richard Parker's life.

Thomas Dudley, the captain, further argued that Parker was an orphan and had become so ill that he would have died anyway. He also reasoned that since others had families and Parker had none, Parker's death would have caused suffering to fewer people than the death of others. Since all would have died of hunger and thirst had nobody been killed, Parker was the only logical choice.

The argument of situational necessity was rejected by the judge. The arguments presented by the Dudley based on saving of maximum lives too was not sufficient to excuse them from the charges of murder and cannibalism. The jury initially decided the death sentence for both Dudley & Stephenson but it was later changed into imprisonment for six months by the interference of the crown. However the case offers a thrilling moral debate on whether achieving the greatest good outweighs other moral considerations.

Even though the Utilitarian can find reasons to support Dudley's action, there is something about the action that violates our sense of morality. Wasn't Parker's life made simply a means to achieve a greater good? How could Dudley and Stephens take decision about Parker's life? There are theorists, called the Libertarians, who believe that the rightness or wrongness of an action depends on whether human liberty has been respected or not. Those who hold this view object to Dudley's action on the ground that it violated Parker's liberty, his right to choose his own fate. Had Parker consented to his sacrifice, the action would not be as unethical as it seems now. Morality of an action does not increase or decrease by the numbers of people affected by it. For them Parker's life could not simply be used as a means to save others. Consequences don't decide the morality of an action for such theorists but the respect for an individual's life and liberty.

Questions:

6) Which of the following arguments were **not** offered by Dudley & Stephens in their defence?

1. The saving of maximum lives argument
2. They were following their duty based on Moral law.
3. Situation forced them to take such an action.
4. Killing Richard Parker was done to relieve him of his suffering.

a) 1&3 b) 1&2 c) 3&4 d) 2&4

7) What Utilitarian arguments were given by Dudley, the captain, in his defence?

1. In a situation of shipwreck killing is the only means of surviving.
2. It was necessary to kill one person in order to save three.
3. Parker had no dependents and would have died anyway.
4. A captain's life and a cabin boy's life are not equally valuable.

a) 1&2 b) 1&4 c) 3&4 d) 2&3

8) What two primary ethical approaches emerge in the lifeboat case ?

1. The captain's approach that morality of an action depends only on the results.
2. The captain's approach that in extreme situations there is no humanity.
3. The judge's approach that duty and rights should command our respect.
4. The approach that morality fails in matters of life and death.

a) 1&2 b) 1&4 c) 3&4 d) 1&3

9) What would a libertarian approve in the Life-Boat case?

1. Action about Parker's life should not have been based on consequences
2. The law should be followed at all costs.
3. Respecting Richard Parker's freedom to decide about his life.
4. Freedom of one can be disregarded if it benefits many people.

a) 3&4 b) 2&4 c) 1,2&3 d) 1&3

10) Which of the following are valid **utilitarian** arguments against the captain's claim that killing Richard Parker achieved "maximum happiness of maximum no."?

1. One can argue that allowing it will permit murdering the weak thus resulting in overall unhappiness of the society.
2. It can be argued that people might be encouraged to take law in their own hands thus resulting in overall unhappiness.
3. Taking parker's life without his consent was wrong.
4. The captain did not do his duty.

a) 3&4 b) 1&4 c) 2&3 d)1 &2

C

Passage: 3 (1x5 = 5 marks)

The effective person feels strong and has a deep sense of his or her own capability. There is a feeling that once a decision is made, the individual will have the inner power to implement it. This ability, called personal power can be derived from many sources. Some people believe that early experiences in life play an important part in how people feel about their potential. But it is also true that being able to solve one's inner doubts and problems helps one achieve this strength. Such an individual has a deep sense of self confidence.

The effective person is also in touch with the sources of his or her inner motivation. Activities are undertaken with enthusiasm and passion. Lack of energy and enthusiasm are causes of underachievement. One of the other important qualities of a person is how one deals with difficulties and setbacks. Many opportunities are lost because an individual gives up before trying hard enough. A strong commitment to the completion of the task is the characteristic of mature individuals. Successful people possess the inner strength to undergo short term discomfort for long term goals. The effective person learns from difficulties failures and successes. Each activity is viewed as an experiment and the results are perceived to be positive whether the outcome is successful or not. The effective person has acquired the ability to turn a negative event into a learning experience.

Questions:

11. Which of the following chiefly describe the quality of Personal Power ?

1. The capacity to be successful in anything one chooses to undertake.
2. Possessing an inner strength to take up a new task.
3. To have a detailed plan for the future
4. Skills of networking with people.

a) 2&3 b) 1&2 c) 1&4 d) 1&3

12. When a person has a lot of energy and enthusiasm for his work, it means that
    1. One has real passion for the things they are engaged in
    2. One enjoys the work
    3. One is a good handler of situations.
    4. He/She is an effective communicator.

    a) 3&4 b) 1&2 c) 2&3 d) 1&4

13. What are the distinguishing features of a professional?
    1. Specialized knowledge and skills with expertise in a particular area
    2. Possessing machines and technology to do a job.
    3. Knowledge of only one field while being ignorant of others
    4. Undergoing intensive training and certification by an authorized body.
    a) 1&2 b)1&4 c)2&3 d)1&3

14. How does a person who has "realistic vision" express it in one's life ?
    1. Such a person has a detailed plan about how to achieve one's goal.
    2. By having dreams about becoming great all the time.
    3. Such a person has a time-bound program for change
    4. By achieving as many degrees and certificates as possible.
    a) 2&3 b)1&3 c)1&4 d)1&2

15. Which of the following are **not true** about Professional ethics?
    1. It is not related to ethical theories like utilitarianism etc.
    2. It includes code of conduct that should govern the actions of a professional.
    3. It teaches us to mix our personal and professional lives.
    4. It does not require dealing with ethical problems.
    a) 1,2&4 b) 1,3&4 c)2,3&4 d) 1,2 &3

Passage 4 (1x5 = 5 marks)

Libertarianism holds that morality is about respecting personal freedom and that individuals should be free from interference of others including the government. A society based on libertarian principles holds that justice and fairness, right and wrong are measured not by the welfare of the masses but from ensuring equal opportunity for all to engage in informed choices about their own lives. Individuals' preferences should not be sacrificed for either larger social purposes or the common good.

Nevertheless, we desire those minimum laws and rules which would protect our rights and freedom from being violated by others. That is why Libertarians differentiate between individual and collective (social) freedom. According to libertarians, there should be no limitations on individual freedom. However, since collective freedom is important, one is free to the extent that one must not harm others. An interesting feature of the Libertarians' idea of freedom is that one should even have the freedom, if one wishes so, to harm oneself.

A natural result of applications of the principles of libertarianism is the minimal state theory. What this theory simply means is that government should not regulate

the individuals' choices and actions by making certain laws. Government has only limited role to play in individuals' lives which should be to protect them from any kind of external threat like theft, fraud, and corruption. Libertarians object to the excessive use of the powers of government because it means intervening in an individual's life and forcing them to follow certain laws. There are three such objections by Libertarians against the governments. First, government should not make paternalistic laws. Second, government should not make laws for the morals legislation of individuals' lives. Third, government should not redistribute wealth by taxing an individual's wealth. By paternalistic laws we mean such laws which protect people from harming themselves, for example, wearing a helmet while on a bike or seatbelt driving safety laws and the pension laws. Libertarians argue that by enforcing such laws on an individual, a government interferes with an individual's self-ownership, even if it means taking risky decisions. By moral legislation, Libertarians mean that government should not propose a certain kind of value system or principles for individuals' lives. An individual must be given full freedom to choose his or her own way to live one's life as long as it does not affect others. On the issue of taxation, Libertarians dispute government's claim of social benefit out of taxation. They say that by taxing individuals' income, government takes away the ownership of an individual's labor. Libertarians say that it is as good as slavery. What we earn through our labor, talent or skill is our self-expression. They argue that taxing an individual without his consent, even though for a good cause, is violating one's fundamental right to property. This is the reason governments should not redistribute the wealth by following the mechanism of taxation. Libertarians, by limiting the excessive role of government maintain that the life of an individual must be respected as an end and never as means. Respect for an individual's life is independent of collective common good.

Questions:

16) Why should governments not make paternalistic laws?

1. Such laws question self-ownership of an individual.
2. Individuals do not have freedom to break such laws.
3. Very few people obey such laws.
4. It is violating the individual's right to take calculated risks.

a) 1&4 b) 1&2 c) 2&3 d) 3&4

17) What is the Libertarian approach to an ethical society?

1. Society should maintain maximum control over its people.
2. Morality of an action depends on whether freedom has been honored or not.
3. An individual cannot harm oneself.
4. One's freedom is absolute as long as it does not interfere with other's rights.

a) 2&4 b) 1&3 c)3&4 d) 1&2

18) Why does a Libertarian oppose moral Legislation by government ?

1. It believes that laws should not prescribe a specific style of living
2. It limits choices of individuals by dictating a particular way of life.
3. It provides complete freedom to individuals.
4. It allows people to choose their own ways of living

a) 1&2 b) 3&4 c)1&3 d) 1,2&4

19) According to a Libertarian, taxing an individual's income beyond the requirements of a minimal state is wrong because

1. It disrespects ownership of labor in some sense.
2. The wish or consent of the person is not considered.
3. It is a kind of moral legislation
4. The amount we pay as tax is a kind of forced labor

a) 1,2&4 b)1&2 c)1&3 d) 2&3

20) What would be the basic conflict between a utilitarian society and a libertarian society?

1. Whether the government should be a welfare state or a minimal state
2. Between a free market economy and a government controlled economy,
3. Between moral policing and no moral legislation.
4. All of the above

a) 4 b)2 c)3 d)1

Note: There are four passages in this paper based on class discussion. Read the passages carefully and answer the given questions. Each question is followed by multiple statements numbered 1,2,3,4. Please note that there is only ONE CORRECT ANSWER (one among a, b, c, d). Choose the most appropriate answer.

Passage: 1 (1 X 5=5 marks)

The Life-Boat Case (also known as Richard Parker case) is one of the most debated cases in the law schools. It is about the fate of an English ship which was to be transported to Australia with a crew of four: Thomas Dudley, the captain; Edwin Stephens; Edmund Brooks; and Richard Parker, the cabin boy. The ship went down in a storm and all of them escaped in a lifeboat. They battled thirst and starvation for several days in the sea but in the end had to kill the cabin boy Richard Parker, who had fallen sick by drinking sea-water, and survived by feeding on his body. Luckily, four days after the killing, they were rescued by a passing ship. When they landed, Dudley and Stephens were arrested for murder and put on trial, while Brooke turned a witness. The judge had to decide whether the killing done by the three on life-boat for saving their lives was justified. The accused argued that it was a tragic but an unavoidable necessary action. They reasoned that circumstances were such that they were forced to take Richard Parker's life.

Thomas Dudley, the captain, further argued that Parker was an orphan and had become so ill that he would have died anyway. He also reasoned that since others had families and Parker had none, Parker's death would have caused suffering to fewer people than the death of others. Since all would have died of hunger and thirst had nobody been killed, Parker was the only logical choice.

The argument of situational necessity was rejected by the judge. The arguments presented by the Dudley based on saving of maximum lives too was not sufficient to excuse them from the charges of murder and cannibalism. The jury initially decided the death sentence for both Dudley & Stephenson but it was later changed into imprisonment for six months by the interference of the crown. However the case offers a thrilling moral debate on whether achieving the greatest good outweighs other moral considerations.

Even though the Utilitarian can find reasons to support Dudley's action, there is something about the action that violates our sense of morality. Wasn't Parker's life made simply a means to achieve a greater good? How could Dudley and Stephens take decision about Parker's life? There are theorists, called the Libertarians, who believe that the rightness or wrongness of an action depends on whether human liberty has been respected or not. Those who hold this view object to Dudley's action on the ground that it violated Parker's liberty, his right to choose his own fate. Had Parker consented to his sacrifice, the action would not be as unethical as it seems now. Morality of an action does not increase or decrease by the numbers of people affected by it. For them Parker's life could not simply be used as a means to save others. Consequences don't decide the morality of an action for such theorists but the respect for an individual's life and liberty.

Questions:

1) Which of the following arguments were **not** offered by Dudley & Stephens in their defence?

1. The saving of maximum lives argument
2. They were following their duty based on Moral law.
3. Situation forced them to take such an action.
4. Killing Richard Parker was done to relieve him of his suffering.

a) 1&3 b) 1&2 c) 3&4 d) 2&4

2) What Utilitarian arguments were given by Dudley, the captain, in his defence?

1. In a situation of shipwreck killing is the only means of surviving.
2. It was necessary to kill one person in order to save three.
3. Parker had no dependents and would have died anyway.
4. A captain's life and a cabin boy's life are not equally valuable.

a) 1&2 b) 1&4 c) 3&4 d) 2&3

3) What two primary ethical approaches emerge in the lifeboat case ?

1. The captain's approach that morality of an action depends only on the results.
2. The captain's approach that in extreme situations there is no humanity.
3. The judge's approach that duty and rights should command our respect.
4. The approach that morality fails in matters of life and death.

a) 1&2 b) 1&4 c) 3&4 d) 1&3

4) What would a libertarian approve in the Life-Boat case?

1. Action about Parker's life should not have been based on consequences
2. The law should be followed at all costs.
3. Respecting Richard Parker's freedom to decide about his life.
4. Freedom of one can be disregarded if it benefits many people.

a) 3&4 b) 2&4 c) 1,2&3 d) 1&3

D

5) Which of the following are valid **utilitarian** arguments against the captain's claim that killing Richard Parker achieved "maximum happiness of maximum no."?

1. One can argue that allowing it will permit murdering the weak thus resulting in overall unhappiness of the society.
2. It can be argued that people might be encouraged to take law in their own hands thus resulting in overall unhappiness.
3. Taking parker's life without his consent was wrong.
4. The captain did not do his duty.

a) 3&4 b) 1&4 c) 2&3 d)1 &2

Passage: 2 (1x5 =5 marks)

Libertarianism holds that morality is about respecting personal freedom and that individuals should be free from interference of others including the government. A society based on libertarian principles holds that justice and fairness, right and wrong are measured not by the welfare of the masses but from ensuring equal opportunity for all to engage in informed choices about their own lives. Individuals' preferences should not be sacrificed for either larger social purposes or the common good.

Nevertheless, we desire those minimum laws and rules which would protect our rights and freedom from being violated by others. That is why Libertarians differentiate between individual and collective (social) freedom. According to libertarians, there should be no limitations on individual freedom. However, since collective freedom is important, one is free to the extent that one must not harm others. An interesting feature of the Libertarians' idea of freedom is that one should even have the freedom, if one wishes so, to harm oneself.

A natural result of applications of the principles of libertarianism is the minimal state theory. What this theory simply means is that government should not regulate the individuals' choices and actions by making certain laws. Government has only limited role to play in individuals' lives which should be to protect them from any kind of external threat like theft, fraud, and corruption. Libertarians object to the excessive use of the powers of government because it means intervening in an individual's life and forcing them to follow certain laws. There are three such objections by Libertarians against the governments. First, government should not make paternalistic laws. Second, government should not make laws for the morals legislation of individuals' lives. Third, government should not redistribute wealth by taxing an individual's wealth. By paternalistic laws we mean such laws which protect people from harming themselves, for example, wearing a helmet while on a bike or seatbelt driving safety laws and the pension laws. Libertarians argue that by

enforcing such laws on an individual, a government interferes with an individual's self-ownership, even if it means taking risky decisions. By moral legislation, Libertarians mean that government should not propose a certain kind of value system or principles for individuals' lives. An individual must be given full freedom to choose his or her own way to live one's life as long as it does not affect others. On the issue of taxation, Libertarians dispute government's claim of social benefit out of taxation. They say that by taxing individuals' income, government takes away the ownership of an individual's labor. Libertarians say that it is as good as slavery. What we earn through our labor, talent or skill is our self-expression. They argue that taxing an individual without his consent, even though for a good cause, is violating one's fundamental right to property. This is the reason governments should not redistribute the wealth by following the mechanism of taxation. Libertarians, by limiting the excessive role of government maintain that the life of an individual must be respected as an end and never as means. Respect for an individual's life is independent of collective common good.

Questions:

6) Why should governments not make paternalistic laws?
   1. Such laws question self-ownership of an individual.
   2. Individuals do not have freedom to break such laws.
   3. Very few people obey such laws.
   4. It is violating the individual's right to take calculated risks.

   a) 1&4 b) 1&2 c) 2&3 d) 3&4

7) What is the Libertarian approach to an ethical society?
   1. Society should maintain maximum control over its people.
   2. Morality of an action depends on whether freedom has been honored or not.
   3. An individual cannot harm oneself.
   4. One's freedom is absolute as long as it does not interfere with other's rights.

   a) 2&4 b) 1&3 c)3&4 d) 1&2

8) Why does a Libertarian oppose moral Legislation by government ?
   1. It believes that laws should not prescribe a specific style of living
   2. It limits choices of individuals by dictating a particular way of life.
   3. It provides complete freedom to individuals.
   4. It allows people to choose their own ways of living

   a) 1&2 b) 3&4 c)1&3 d) 1,2&4

9) According to a Libertarian, taxing an individual's income beyond the requirements of a minimal state is wrong because
   1. It disrespects ownership of labor in some sense.
   2. The wish or consent of the person is not considered.
   3. It is a kind of moral legislation
   4. The amount we pay as tax is a kind of forced labor

   a) 1,2&4 b)1&2 c)1&3 d) 2&3

10) What would be the basic conflict between a utilitarian society and a libertarian society?

1. Whether the government should be a welfare state or a minimal state
2. Between a free market economy and a government controlled economy,
3. Between moral policing and no moral legislation.
4. All of the above

a) 4 b)2 c)3 d)1

Passage: 3 (1x5 = 5 marks)

The effective person feels strong and has a deep sense of his or her own capability. There is a feeling that once a decision is made, the individual will have the inner power to implement it. This ability, called personal power can be derived from many sources. Some people believe that early experiences in life play an important part in how people feel about their potential. But it is also true that being able to solve one's inner doubts and problems helps one achieve this strength. Such an individual has a deep sense of self confidence.

The effective person is also in touch with the sources of his or her inner motivation. Activities are undertaken with enthusiasm and passion. Lack of energy and enthusiasm are causes of underachievement. One of the other important qualities of a person is how one deals with difficulties and setbacks. Many opportunities are lost because an individual gives up before trying hard enough. A strong commitment to the completion of the task is the characteristic of mature individuals. Successful people possess the inner strength to undergo short term discomfort for long term goals. The effective person learns from difficulties failures and successes. Each activity is viewed as an experiment and the results are perceived to be positive whether the outcome is successful or not. The effective person has acquired the ability to turn a negative event into a learning experience.

Questions:

11. Which of the following chiefly describe the quality of Personal Power ?

1. The capacity to be successful in anything one chooses to undertake.
2. Possessing an inner strength to take up a new task.
3. To have a detailed plan for the future
4. Skills of networking with people.

a) 2&3 b) 1&2 c) 1&4 d) 1&3

12. When a person has a lot of energy and enthusiasm for his work, it means that

1. One has real passion for the things they are engaged in
2. One enjoys the work
3. One is a good handler of situations.
4. He/She is an effective communicator.

a) 3&4 b) 1&2 c) 2&3 d) 1&4

13. What are the distinguishing features of a professional?

1. Specialized knowledge and skills with expertise in a particular area
2. Possessing machines and technology to do a job.
3. Knowledge of only one field while being ignorant of others
4. Undergoing intensive training and certification by an authorized body.

a) 1&2 b)1&4 c)2&3 d)1&3

14. How does a person who has "realistic vision" express it in one's life ?

1. Such a person has a detailed plan about how to achieve one's goal.
2. By having dreams about becoming great all the time.
3. Such a person has a time-bound program for change
4. By achieving as many degrees and certificates as possible.

a) 2&3 b)1&3 c)1&4 d)1&2

15. Which of the following are **not true** about Professional ethics?

1. It is not related to ethical theories like utilitarianism etc.
2. It includes code of conduct that should govern the actions of a professional.
3. It teaches us to mix our personal and professional lives.
4. It does not require dealing with ethical problems.

a) 1,2&4 b) 1,3&4 c)2,3&4 d) 1,2 &3

Passage 4 (1x5 = 5 marks)

Among the consequentialist ethical theories, Utilitarianism is the most prominent one. This theory was first given by Jeremy Bentham and later modified by John Stuart Mill. Its main principle is that any action that results in the "greatest happiness of the greatest number" is the right action. Bentham was a firm believer in psychological hedonism, the view that pleasure and pain governs all our actions. Therefore, in deciding whether a conduct is moral or not, pleasure and pain are the only consequences that matter. Bentham states his theory in quantitative terms and hoped to make ethics almost mathematical. That is why it has a powerful influence on policy makers, business executives and ordinary citizens. The most basic form

of utilitarian analysis is cost benefit analysis, where one tallies the costs and benefits of a given decision and follows the decision that provides the greatest overall gain. Thus Utilitarianism claims to offer a science of morality based on measuring and calculating happiness. While this may seem easy to apply, there remain problems with Bentham's version of Utilitarianism. How do we measure happiness? Are all pleasures equal? More importantly, there is a great possibility of injustice as the rights of an individual person are not taken into account as long as the majority is benefited.

Mill tried to answer these objections to Utilitarianism without rejecting Bentham's fundamental principle of maximum happiness of maximum number. He argued that respecting individual rights and liberty will lead to the greatest human happiness in the long run. Also, while Bentham refused to differentiate higher from lower pleasures, Mill believed that there was a qualitative difference between pleasures. Human beings have capacities that are not satisfied merely with the pleasures of senses; they seek the higher pleasures of mind and heart. Once a man has lived on a higher level, he can never really wish to sink into a lower level of existence. He famously said that "It is better to be a Socrates dissatisfied than a fool satisfied."

Questions:

16. Which of the following statements are **not true** about Bentham's utilitarianism?
    1. Man is under two masters, pain and pleasure.
    2. The greatest good that we should seek is our own happiness.
    3. The greatest good that we seek is quality of happiness.
    4. We should aim at maximizing happiness of the maximum no.

    a) 1&2 b) 1,2&4 c)2&3 d)3&4

17) Why does Mill's Utilitarianism seem more balanced?
    1. It considers higher pleasures.
    2. It values human rights and liberties.
    3. The quality of happiness is more important than quantity.
    4. It gives space to human faculties of thinking and reason.

    a) 1&3 b) 1&2 c) All of the above d) 3&4

18) What are the merits of the Utilitarian philosophy ?

1. It appeals to human being's desire for happiness which is a universal truth.
2. It makes decision-making scientific and objective.
3. It considers the needs and feelings of individuals.
4. It does not base ethics on religion, tradition or culture.

a) 2,3&4 b) 1,3&4 c) 1,2&4 d) 1,2 &3

19). Which of the following is **not true** about Utilitarianism?

1. It is not based on human psychology.
2. It only considers the results of an action to decide its morality.
3. It only considers the intention behind the action to decide its morality.
4. It applies a calculative approach to ethics to make it more scientific.

a) 1&2 b) 1&4 c) 1&3 d) 2& 3

20) What are the dangers of a Utilitarian society?

1. It can lead to injustice by the majority.
2. It can lead to government control over individuals in the name of welfare.
3. Only knowledge and learning will be valued in such a society.
4. None of the above.

a) 1&3 b) 2&3 c) 1&2 d) 4

GLA UNIVERSITY, MATHURA

B. Tech. 2nd Yr. (Odd Sem.), Term II Examination, 2017-18

Subject: English for Professional Purposes-I Subject Code: AHE 3083
Time: 50 Minutes Max. Marks: 15

Note:

- Answer all the questions from Section A and C, and any 3 out of 4 from Section B.
- Answers should be to-the-point, and word limit for informative questions from Section B (approx 60 words) and Section C (150 words) should strictly be maintained.

Section A **0.5 x 6=3**

1. Rewrite the following sentence after eliminating redundancy:
   The teacher asked me to summarize briefly the report on woman empowerment.
2. Name any two standard font types used in Power Point Presentations.
3. The method of paragraph writing which employs arrangements of events in the order of occurrence in time is_____.
4. The length of a précis should be _____the length of the original document.
5. Which method of paragraph writing will you use to write a paragraph on arrangement of various parts of a microscope?
6. Write an appropriate topic sentence for a paragraph on *benefits of getting up early in the morning.*

Section B **2 x 3=6**

1. One sentence in the following paragraph disturbs the coherence of the following paragraph, recognize and give any one objective argument in support of your selection:

   Polyneuropathy (poly- + neuro- + -pathy) is a damage or disease affecting peripheral nerves (peripheral neuropathy) in roughly the same areas on both sides of the body causing weakness, numbness, and burning pain. It usually begins in the hands and feet and may progress to the arms and legs; and sometimes to other parts of the body where it may affect the autonomic nervous system. No disease is good as it makes a person miserable. It may be acute or chronic. A number of different disorders may cause polyneuropathy, including diabetes and some types of Guillain–Barré syndrome.

2. Make the first four slides of a presentation on the topic 'Stress Management'.
3. Enumerate any two features of an ineffective slide in Power Pont Presentation.

4. Read the paragraph and answer the following questions.

In European universities, students are not required to attend classes. In fact, professors in Germany generally do not know the names of the students enrolled in their courses. In the United States, however, students are required to attend all classes and may be penalized if they do not. Furthermore, in the European system, there is usually just one comprehensive examination at the end of the students' entire four or five years of study. In the American system, on the other hand, there are usually numerous quizzes, texts, and homework assignments, and there is almost always a final examination in each course at the end of the semester.

(A) Identify the topic sentence of the paragraph and write it.
(B) Name any two coherence markers /connectives used in the given paragraph.

Section C

3x2=6

1. Attempt a précis of the following passage:

Teaching is the noblest of professions. A teacher has a sacred duty to perform. It is he on whom rests the responsibility of moulding the character of young children. Apart from developing their intellect, he can inculcate in them qualities of good citizenship, remaining neat and clean, talking decently and sitting properly. These virtues are not easy to be imbibed. Only he who himself leads a life of simplicity, purity and rigid discipline can successfully cultivate these habits in his pupils. Besides a teacher always remain young. He may grow old in age, but not in spite. Perpetual contact with budding youths keeps him happy and cheerful. There are moments when domestic worries weigh heavily on his mind, but the delightful company of innocent children makes him overcome his transient moods of despair.

2. Write a brief account of Julian Mantle's spiritual experiences during a Himalayan journey which he undertook after selling his holiday home and red Ferrari.

OR

Explain in brief the phenomenon of 'Black Holes' as discussed in chapter 6 and chapter 7 of Stephen Hawkin's *A brief History of Time.*

VERBAL APTITUDE

Identify the sentence which is the most preferable in respect to grammar/meaning and usage, suitable for formal writing (Q1-10):

1. A. Neither the Director nor the professors was present in the meeting.
   B. Neither the Directors nor the professors was present in the meeting.
   C. Neither the Directors nor the professor were present in the meeting.
   D. Neither the Director nor the professors were present in the meeting.
   E. None of the above is correct
2. A Slow and steady win race.
   B. One of my friends have gone to Turkey.
   C. Everyone of the clerks have applied for a casual leave today.
   D. The United Nations is merely putting up a show of being a staunch supporter of India.
   E. None of the above is correct
3. A. Many a man was drowned in the sea.
   B. Many a men was drowned in the sea.
   C. Many a man were drowned in the sea.
   D. Many a men were drowned in the sea.
   E. None of the above.
4. A. My sister along with her two children is arrived.
   B. My sister along with her two children are arrived.
   C. My sister along with her two children has arrived.
   D. My sister along with her two children have arrived.
   E. None of the above
5. A. The policemen, who was deployed heavily in the area, did nothing to dissuade the protesters.
   B. The policemen, who were deployed heavily in the area, did nothing to dissuade the protesters.
   C. The policemen, who is deployed heavily in the area, did nothing to dissuade the protesters.
   D. The policemen is deployed heavily in the area to dissuade the protesters.
   E. None of the above.
6. A. Diligence and perseverance are needed to succeed in life.
   B. Diligence and perseverance needs to succeed in life.
   C. Diligence and perseverance need to succeed in life.
   D. Diligence and perseverance is needed to succeed in life.
   E. None of the above
7. A. Every pen and every pencil in the room were in order.
   B. Every pen and every pencils in the room was in order.
   C. Every pen and every pencil in the room was in order.
   D. Every pen and each pencils in the room were in order.
   E. None of the above.
8. A. Some of the houses are not fit to live in.
   B. Some of the house are not fits to live in.
   C. Some of the houses are not fit to live.
   D. Some of the house is not fit to live.
   E. None of the above.
9. A. Most of the time were spent memorizing the rules of grammar.
   B. The majority of the time was spent memorizing the rules of grammar.
   C. Most of the time was spent memorizing the rules of grammar.
   D. Most of the times were spent memorizing the rules of grammar.
   E. None of the above
10. A. All the books, which have been placed on that table by the window, needs re-binding.
    B. All the books, which has been placed on that table by the window, needs re-binding.
    C. All the books, which has been placed on that table by the window, need re-binding.
    D. All the books, which have been placed on that table by the window, need re-binding.
    E. None of the above.

Identify the part of speech of the underlined word in (Q. 11-15).

11. "I think we should leave at twelve." "***What***?" "I said I think we should leave at twelve."
A. Adjective B. Noun C. Pronoun
D. Adverb E. Preposition

12.Shivi earns ***around*** sixty thousand a month.
A. Adjective B. Noun C. Pronoun
D. Adverb E. Preposition

13. Their ***wants*** will never be satisfied.
A. Adverb B. Adjective C. Noun
D. Preposition E. Pronoun

14.***When*** do you expect to have the project completed (by)?
A. Adjective B. Noun C. Pronoun
D. Verb E. Adverb

15.You eat a massive plate of food for lunch, ***whereas*** I have just a sandwich.
A. Adverb B. Adjective C. Verb
D. Conjunction E. Pronoun

Fill in the blanks with appropriate verb forms (Q. 16-20):

16. The River Thames _____ through London.
A. is flowing B. has been flowingC. flows
D. has flowed E. None of the above

17. We _____ to new house, because our old house was small for our family.
A. shifted B. shifts C. are shifted
D. is shifted E. None of the above

18. Shiva was suffering from Cancer when I met him. He _____a teacher for twenty years.
A. has been B. was C. had been
D. is E. None of the above

19. The teacher_____ the attendance when I reached the class.
A. takes B. took C. taken
D. has taken E. None of the above

20. I once_____ Mr Prime Minister.
A. met B. had met C. has met
D. meet E. None of the above

Identify the underlined (Q. 21-25):

21. I remember the first song I heard him sing: "Mention Dirty to my Heart".
A. Gerund B. Present Participle C. Infinitive D. Past Participle E. Finite Verb

22. Generally speaking, we receive what we deserve.
A. Finite Verb B. Past Participle C. Gerund D. Present Participle E. Infinitive

23. Much depends on Prasad's returning before evening.
A. Infinitive B. Gerund C. Past Participle D. Present Participle E. Finite Verb

24. Trembling with fear, she opened the door.
A. Infinitive B. Gerund C. Past Participle D. Present Participle E. Finite Verb

25. Milkha Singh ran at the speed of light
A. Infinitive B. Gerund C. Past Participle D. Present Participle E. Finite Verb

Identify the following sentences as simple, complex or compound (Q.26-28):

26. Although she worked hard, she did not secure good marks.
A. Simple B. Complex C. Compound D. Complex-Compound E. None

27. I promise you a holiday on condition of your good behaviour.
A. Simple B. Complex C. Compound
D. Complex-Compound E. None

28. As soon as he received the telegram, he left in taxi.
A. Simple B. Complex C. Compound
D. Complex-Compound E. None

Identify the error (Q 29):

29. On Tuesday, the White House announced (A)/ new steps to expand research into technology (B)/ that would help to capture and to store (C)/ carbon emitted by burning coal. (D)/ No Error. (E)

Fill in the blank with an appropriate non-finite verb (Q. 30):

30. Can you imagine _____ without internet?

A. to live B. living (present participle) C. living (gerund) D. live E. lived

Read the passages given below and answer the questions that follow (Q. 31-40):

Passage I

Dolphins are regarded as the friendliest creatures in the sea and stories of them helping drowning sailors have been common since Roman times. The more we learn about dolphins, the more we realize that their society is more complex than people previously imagined. They look after other dolphins when they are ill, care for pregnant mothers and protect the weakest in the community, as we do. Some scientists have suggested that dolphins have a language but it is much more probable that they communicate with each other without needing words. Could any of these mammals be more intelligent than man? Certainly the most common argument in favor of man's superiority over them that we can kill them more easily than they can kill us is the least satisfactory. On the contrary, the more we discover about these remarkable creatures, the less we appear superior when we destroy them.

Questions

31. It is clear from the passage that dolphins:
A. don't want to be with us as much as we want to be with them
B. are proven to be less intelligent than once thought
C. have a reputation for being friendly to humans
D. are the most powerful creatures that live in the oceans
E. are capable of learning a language and communicating with humans

32. The fact that the writer of the passage thinks that we can kill dolphins more easily than they can kill us:
A. means that they are better adapted to their environment than we are
B. shows that dolphins have a very sophisticated form of communication
C. proves that dolphins are not the most intelligent species at sea
D. does not mean that we are superior to them
E. proves that Dolphins have linguistic skills far beyond what we previously thought

33. One can infer from the reading that:
A. dolphins are quite abundant in some areas of the world
B. communication is the most fascinating aspect of the dolphins
C. dolphins have skills that no other living creatures have such as the ability to think
D. it is not usual for dolphins to communicate with each other
E. dolphins have some social traits that are similar to those of humans

34. Which of the following is true:
A. Dolphins can communicate by using language
B. Dolphins can communicate by using words
C. Dolphins can communicate by using only through sounds
D. Both a) and b)
E. None of the above

35. After reading the passage we can conclude that society of dolphins is:
A. more complex than human society
B. more complex than was thought
C. very simple
D. all of the above
E. none of the above

Passage II

Naval architects never claim that a ship is unsinkable, but the sinking of the passenger-and-car ferry Estonia in the Baltic surely should have never have happened. It was well designed and carefully maintained. It carried the proper number of lifeboats. It had been thoroughly inspected the day of its fatal voyage. Yet hours later, the Estonia rolled over and sank in a cold, stormy night. It went down so quickly that most of those on board, caught in their dark, flooding cabins, had no chance to save themselves: Of those who managed to scramble overboard, only 139 survived. The rest died of hypothermia before the rescuers could pluck them from the cold sea. The final death toll amounted to 912 souls. However, there were an unpleasant number of questions about why the Estonia sank and why so many survivors were men in the prime of life, while most of the dead were women, children and the elderly.

Questions

36. One can understand from the reading that –
A. the lifesaving equipment did not work well and lifeboats could not be lowered
B. design faults and incompetent crew contributed to the sinking of the Estonia ferry
C. 139 people managed to leave the vessel but died in freezing water
D. naval architects claimed that the Estonia was unsinkable
E. most victims were trapped inside the boat as they were in their cabins

37. It is clear from the passage that the survivors of the accident ----.
A. helped one another to overcome the tragedy that had affected them all
B. were mostly young men but women, children and the elderly stood little chance
C. helped save hundreds of lives
D. are still suffering from severe post-traumatic stress disorder
E. told the investigators nothing about the accident

38. According to the passage, when the Estonia sank, ----.
A. there were only 139 passengers on board
B. few of the passengers were asleep
C. there were enough lifeboats for the number of people on board
D. faster reaction by the crew could have increased the Estonia's chances of survival
E. all the passengers had already moved out into the open decks

39. Estonia sank:
A. On the same day when it was inspected
B. Sank hours later the next day
C. Because it had faulty design
D. All of the above
E. None of the above

40. People died because of:
A. of hypothermia
B. they were drowned
C. disease
D. both A and B
E. none of the above

SET-B **University Roll No.**_____

VERBAL APTITUDE

Identify the sentence which is the most preferable in respect to grammar/meaning and usage, suitable for formal writing (Q.1-10):

1. A. Neither he nor I have money to spare for this.
   B. Neither he nor I am money to spare for this.
   C. Neither he nor I were money to spare for this.
   D. Neither he nor I has money to spare for this.
   E. None of the above
2. A. Neither books are interesting.
   B. Each of the boys were given a laptop.
   C. The economics of industrial development are complex.
   D. The family, which is a basic unit of society, is losing its appeal.
   E. None of the above
3. A. Most of the students, especially who have not done their homework, is absent.
   B. Most of the students, especially who has not done their homework, is absent.
   C. Most of the students, especially who has not done their work, are absent.
   D. Most of the student, especially who have not done their work, are absent.
   E. None of the above
4. A. Most of the traffics goes by the main road.
   B. Most of the traffic go by the main road.
   C. Most of the traffics go by the main road.
   D. Most of the traffic goes by the main road
   E. None of the above
5. A. One of my teachers live next door to my aunt.
   B. One of my teacher live next door to my aunt.
   C. One of my teachers lives next door to my aunt.
   D. One of my teachers living next door to my aunt.
   E. None of the above.
6. A. The Rose and Crown are situated in the High Street.
   B. Bread and butter are a wholesome meal.
   C. Barley, wheat and rice is cereals.
   D. There are bread and butter for the breakfast.
   E. None of the above.
7. A. The cattle were grazing in the meadow.
   B. The cattles were grazing in the meadow.
   C. The cattle was grazing in the meadow.
   D. The cattles was grazing in the meadow.
   E. None of the above.
8. A. Those scissors belongs to me.
   B. His trousers is torn.
   C. His shoes is dirty.
   D. That pair of scissors belong to me.
   E. None of the above
9. A. The United States have the largest share of world's gold reserves.
   B. The house with all its furniture and exotic plants was sold for one crore.
   C. Two hundred rupees are a meager salary.
   D. The poet and philosopher are dead.
   E. None of the above.
10. A. Are any of the books interesting?
    B. Are any of the book interesting?
    C. Is any of the books interesting?
    D. Each of the books are interesting.
    E. None of the above

Identify the part of speech of the Italicized and Bold word in (Q. 11-15):

11. He described a superlative meal, the ***like*** of which he'd never eaten.
    A. Adverb B. Noun C. Verb
    D. Conjunction E. Preposition
12. I'll have to stop you ***there***, we've run out of time.
    A. Adverb B. Adjective C. Verb
    D. Noun E. Conjunction
13. ***How*** do we get to the town from here?
    A. Adverb B. Adjective C. Verb
    D. Noun E. Conjunction
14. The documentary offers an insight into the ***everyday*** lives of millions of ordinary Russian citizens.
    A. Adverb B. Adjective C. Verb
    D. Noun E. Conjunction
15. ***Whoever*** could that be phoning at this time?
    A. Adverb B. Adjective C. Verb
    D. Pronoun E. Conjunction

Fill in the blanks with appropriate verb forms (Q.16-20):

16. He asked me to teach Mathematics. But it was ten years since I _____ any lecture on the subject.
    A. had given B. has given C. gave
    D. have given E. none of the above
17. It _____ quite often in Britain during the winter.
    A. is snowing B. snows C. has been snowing
    B. has snowed E. none of the above
18. I have not yet read the document which you_____ me on Sept. 13..
    A. had emailed B. emailed C.have emailed
    D. email E. None of the above
19. She said that I _____ ill and I should go to bed.
    A. had felt B. feel C felt
    D. will feel E. None of the above
20. My alarm clock _____ off this morning.
    A. did not go B. has not gone
    C. had not gone D. does not go
    E. None of the above

Identify the underlined (Q.21-25):

21. Working all day I was fatigued.
    A. Gerund B. Present Participle C. Infinitive
    D. Past Participle E. Finite Verb
22. They tolerate smoking but they prefer people not to.
    A.Finite Verb B. Past Participle C. Gerund D. Present Participle E. Infinitive
23. I still remember buying my first bicycle.
    A. Infinitive B. Gerund C. Past Participle D. Present Participle E. Finite Verb
24. He bought me a Kg. of frozen meat.
    A. Infinitive B. Gerund C. Past Participle D. Present Participle E. Finite Verb
25. The principle asked me to briefly state the issue.
    A. Split infinitive B. to infinitive C. Bare infinitive D. Present Participle E. Finite Verb

Identify the following sentences as simple, complex or compound (Q.26-28):

26. At the meeting it was much regretted that he was absent.
    A. Simple B. Complex C. Compound D. Complex-Compound E. None
27. He must have done his duty, for he is a conscientious man.
    A. Simple B. Complex C. Compound D. Complex-Compound E. None
28. He was lazy and failed.
    A. Simple B. Complex C. Compound D. Complex-Compound E. None

Identify the error in Q. 29:

29. The firemen could not (A)/ succeed in rescue the (B)/ child although they (C)/ could put out the fire. (D)/ No Error. (E)

Fill in the blank with an appropriate non-finite verb (Q. 30):

30. The teenager refused _____on holiday with his parents.

A. to go B. going (present participle) C. going (gerund) D. go E. went

Read the passages given below and answer the questions that follow (Q. 31-40):

Passage I

The term co-operation loses its meaning when 'co-operative' becomes 'competitive' and just a firm of retail shopkeepers, entering into rivalry with either similar co-operatives or private shops. In the issue of licences, permits, supplies, grants, loans, etc. Government follows a general policy of preferring co-operatives to private organizations. Since Government itself is run on party lines, this has led to rival co-operatives, one favoured by the party in power and the other trying to checkmate it. To remedy this, one way would be to insist on having only one multi-purpose co-operative in one unit, to eliminate all private dealers in distribution, and to make membership in the co-operative society compulsory for every householder. My feeling is that co-operatives, whether in selling, purchasing, or distributing should be restricted to carry on their operations for and among their members only. They must not become commission agents or middlemen between non-members on the one hand and Government or the world on the other. Their purchases must be for the needs of their members only, and not for sale to the public. Their sales to the public must be confined to their own productions. Permits, grants, loans, and other help should be given to them for proper distribution among their members only.

Questions

31. A co-operative loses its proper function when:
    A. It does not enter into rivalry with either.
    B. It fails to become competitive.
    C. It becomes just a firm of retail shopkeepers
    D. Both A and B
    E. None of the above

32. Which out of the following is not the solution suggested to remove rivalry among cooperatives?
    A. They must not become commission agents
    B. Their purchases must be for the needs of their members only
    C. Their purchases should be for sale to the public.
    D. Their sales to the public must be confined to their own productions.
    E. None of the above

33. Co-operatives should sell only those things to the public
    A. which they purchase from the market
    B. which are meant for consumers
    C. which they produce themselves
    D. All of the above
    E. None of the above

34. The word 'operation' in the passage means
    A. a surgical procedure
    B. work
    C. management
    D. Both A and B
    E. None of the above

35. The co-operatives should purchase things
    A. for the requirements of their own members
    B. to secure more permits from the government
    C. to make supplies to the government
    D. all of the above
    E. none of the above

Passage II

When I go into a stranger's library I wander round the bookshelves to learn what sort of person the stranger is, and when he comes in I feel that I know the key to his mind and the range of his interests. A house without books is a characterless house, no matter how rich the Persian rugs. These only tell you whether he has a lot of money, but the books tell you whether he has got a mind as well. It is not a question of money that we do not buy books. I repeat that the books are the cheapest as well as the best part of the equipment of a few dollars. Nearly all the best literature in the world is at your command at two dollars a volume. For 100 dollars you can get a library of fifty books. Even if you do not read them yourself, they are a priceless investment for your children. What delight is there like the revelation of books—the sudden impact of a master-spirit, the sense of a window flung wide open to the universe? It is the adventures of the mind, the joy of which does not pass away, that give the adventure of life itself beauty and fragrance.

Questions

36. What does "the sense of a window flung wide open to the universe?" mean:
    A. The master-spirit
    B. The adventures of a person
    C. The sudden revelation.
    D. None of the above
    E. All of the above

37. What can books tell you about a stranger?
    A. That he is a rich man
    B. That he believes in priceless investment
    C. That he has good mental faculties
    D. Both Band C
    E. None of the above

38. When one reads a good book, one is delighted because
    A. one finds the windows of the library opened
    B. one feels the influence of a great writer
    C. one knows much about the universe
    D. all of the above
    E. none of the above

39. 'master-spirit' in the passage mean
    A. a prominent writer
    B. the spiritual effect of a master
    C. one who has a control over the spirit of a man
    D. both a) and b)
    E. none of the above

40. Why does the writer wander round the bookshelves when he goes to a stranger's house?
    A. To learn what sort of person the stranger is.
    B. To feel that he knows the key to his mind
    C. To know the range of the person's interests.
    D. All of the above
    E. None of the above

8. A. There is many fine paintings at the exhibition.
   B. Twenty miles are not a great distance in these days of rapid travel.
   C. He do not know how to work in time.
   D. The poet and the philanthropist have passed away.
   E. None of the above
9. A. The request of the Students' Union President that fees be lowered immediately were immediately supported by a vast majority.
   B. The request of the Students' Union President that fees be lowered immediately was immediately supported by a vast majority.
   C. The requests of the Students' Union President that fees be lowered immediately was immediately supported by a vast majority.
   D. The requesting of the Students' Union President that fees be lowered immediately was immediately supported by a vast majority.
   E. None of the above
10. A. A large number of voters still votes along straight party lines.
    B. A large number of voter still vote along straight party lines.
    C. A large number of voters still vote along straight party lines.
    D. A large number of voters still voting along straight party lines.
    E. None of the above

Identify the part of speech of the Italic and bold word in (Q. 11- 15):

11. I was the ***only*** person on the train.
    A. Verb B. Adverb C. Adjective
    D. Noun E. Preposition
12. Her horse galloped off as soon as she was ***on***.
    A. Adverb B. Adjective C. Conjunction
    D. Preposition E. Pronoun
13. One has to learn to control ***oneself***.
    A. Adverb B. Adjective C. Verb
    D. Noun E. Pronoun
14. I shall be there in a ***twinkling***.
    A. Adverb B. Adjective C. Interjection
    D. Preposition E.Noun
15. Nothing ever happens ***here*** in the evenings.
    A. Adjective B. Adverb C.Verb
    D. Noun E. Pronoun

Read the sentence to find out if there is any error in it. If there is no error, then the answer is (E) - (Q. 16-21):

16. The decline in the fortunes of the once esteemed royal family of Mysore are a direct consequence of the refusal of the members of the family to look for jobs in the independent India.
    A. The decline in the fortunes of the once
    B. esteemed royal family of Mysore are a direct consequence
    C. of the refusal of the
    D. members of the family to look for jobs in the independent India.
    E. No Error
17. The police brought the thief to the villagers so that they can identify them.
    A. The police brought
    B. the thief to the villagers
    C. so that
    D. they can identify them.
    E. No error
18. Rohan has eaten the cookies last night while watching the match.
    A. Rohan has eaten
    B. the cookies last night
    C. while
    D. watching the match
    E. No error
19. Contrary to previous predictions, demand for sugarcane had not increased in recent years.
    A. Contrary to previous predictions
    B. demand for sugarcane
    C. had not
    D. increased in recent years
    E. No error
20. The municipal corporation has been conducted cleanliness drives everywhere on account of the rising instances of malaria.
    A. The municipal corporation
    B. Has been conducted
    C. cleanliness drives everywhere
    D. on account of the rising instances of malaria
    E. No error
21. My friend cannot afford for buying pens that time because they are very expensive. .

A. My friend cannot afford for
B. buying pens
C. that time because
D. they are very expensive
E. No Error.

Identify the underlined (Q. 21-26):

22. Several witness saw the boy leave the sidewalk and run into the side of the bus..
A. Gerund B. Bare infinitive C. Full infinitive
D. Past Participle E. Finite Verb

23. Can you help me fix the leaning column of blocks?
A. Finite Verb B. Past Participle C. Gerund
D. Present Participle E. Infinitive

24. He complained about getting a bad grade.
A. Infinitive B. Gerund C. Past Participle
D. Present Participle E. Finite Verb

25. He asked me to decide quickly.
A. Gerund B. Bare infinitive C. Full infinitive
D. Past Participle E. Finite Verb

26. The depleted resources of gold speak of the greed of man.
A. Gerund B. Bare infinitive C. Full infinitive
D. Past Participle E. Finite Verb

Identify the following sentences as simple, complex or compound (Q.27-30):

27. What he advised did not prove successful.
A. Simple B. Complex C. Compound D. Complex-Compound E. None

28. The heavens declare the glory of God and the firmament shows His handiwork.
A. Simple B. Complex C. Compound
D. Complex-Compound E. None

29. Quarrels would not last long if the fault were only on one side.
A. Simple B. Complex C. Compound
D. Complex-Compound E. None

30. The curator guided us round the gallery, pointing out the most famous paintings in the collection.
A. Simple B. Complex C. Compound
D. Complex-Compound E. None

Read the passages given below and answer the questions that follow (Q. 31-40):

Passage I

If you are not in the grip of avarice, you will choose a trade or profession that appeals to you as the means of self-expression and social service, even if you cannot earn much money by it. Your daily duty is not merely money-making drudgery; it is your contribution to social progress and the path of personal development. How sad must be the lot of the man or woman who must do uncongenial work simply for the sake of more money? I know a younger professor who loved literature passionately and taught it admirably; but his salary was small, and he became a lawyer in order to secure a larger income. I tell you that man was guilty of a crime, and he will not be happy as a lawyer, though he may be a little more comfortable, a little better fed and dressed and lodged. A musician who is born a violinist can never be personally happy or socially useful as a prosperous merchant or stock-broker, as he will miss the violin all the time. Avarice puts round men in square jobs and square men in rounds jobs. At present many persons in all classes, rich and poor, are unhappy and restless because their daily work is not interesting. It does not provide an outlet for the creative impulse and the insistent urge of personality. Therefore, don't ask in youth, 'How can I earn the biggest salary?' Ask rather, 'How can I be truly happy and do most good to society?' Then you may have less money, but you will have more of life and joy.

Questions

31. Which of the following is true:
A. Avarice can make you earn a lot of money
B. All those who choose a profession as a means of self-expression cannot earn money
C. If a person is avaricious he/she will choose a profession that serves as a means of self-expression and social service
D. Both A and B
E. None of the above

32. Which of the following is not true:
A. A person whose daily work is not interesting is not happy
B. A person whose daily work is interesting is not happy
C. A person whose daily work is interesting is happy
D. All of the above
E. None of the above

33. In this passage "he will not be happy as a lawyer" because:
A. He did a crime
B. His salary was small
C. He was a little more comfortable
D. He was musician who was born a violinist
E. None of the above

34. "Round men in square jobs and square men in rounds jobs" means:
A. Difficult jobs
B. Incompatibility
C. Different kinds of jobs
D. Both a) and c)
E. None of the above

35. According to the passage people are unhappy and restless because:
A. Their daily work is not interesting
B. They have less money
C. They are guilty of a crime
D. They want to be a prosperous merchant or stock-broker
E. All of the above

Passage II

Petroleum products such as gasoline, kerosene, home heating oil, residual fuel oil, and lubricating oils come from one source—crude oil found below the earth's surface, as well as under large bodies of water, from a few hundred feet below the surface to as deep as 25,000 feet into the earth's interior. Sometimes crude oil is secured by drilling a hole into the earth, but more dry holes are drilled than those producing oil. Either pressure at the source or pumping forces crude oil to the surface. Crude oil wells flow at varying rates, from about ten to thousands of barrels per hour. Petroleum products are always measured in forty-two-gallon barrels. Petroleum products vary greatly in physical appearance: thin, thick, transparent, or opaque, but regardless, their chemical composition is made up of only two elements: carbon and hydrogen, which form compounds called hydrocarbons. Other chemical elements found in union with the hydrocarbons are few and are classified as impurities. Trace elements are also found, but in such minute quantities that they are disregarded. The combination of carbon and hydrogen forms many thousands of compounds which are possible because of the various positions and unions of these two atoms in the hydrocarbon molecule. The various petroleum products are refined by heating crude oil and then condensing the vapours. These products are the so-called light oils, such as gasoline, kerosene, and distillate oil. The residue remaining after the light oils are distilled is known as heavy or residual fuel oil and is used mostly for burning under boilers. Additional complicated refining processes rearrange the chemical structure of the hydrocarbons to produce other products, some of which are used to upgrade and increase the octane rating of various types of gasoline.

Questions

36. which of the following option(s) is/are true.
A. It is easy to find crude oil by drilling a hole into the earth
B. It is difficult to find crude oil by drilling a hole into the earth
C. It is easy to find crude under large bodies of water
D. All of the above
E. None of the above

37. Crude oil can be brought to the surface by:
A. pumping
B. pressure at the source
C. Without any pressure
D. Both A and B
E. None of the above

38. Which petroleum product is not obtained after heating crude oil and then condensing the vapours.
A. kerosene
B. distillate oil
C. edible oil
D. lubricating oil
E. both C and D

39. All of the following are listed as light oils EXCEPT
A. Distillate oil
B. Gasoline
C. Lubricating oil
D. Kerosene
E. None of the above

40. Petroleum products vary greatly in physical appearance because:
A. They are made up of different elements
B. They are made up of same elements
C. They are thick and opaque
D. All of the above
E. None of the above

Paper Code- AHE4081

SET-C

GLA University

Soft Skills

Mid Term Examination (2017-18)

Course- B.Tech

Year- II

Branch- All Branches

Instructions :

1. There are 2 sections in the paper.
2. Attempt all questions. The maximum marks for the test are 40.
3. The total time allocated is 60 minutes.
4. There will be no negative marking. Also, no marks will be awarded if more than one answer is marked.
5. The OMR form is printed on a special paper and the information given by the candidates will be scanned. Thus, the candidates are required to fill the forms carefully. Mutilated and damaged forms will be rejected by the scanner.
6. The candidates should ensure that the form is not folded, crumpled or mutilated in any manner. The candidates should not mark anything anywhere except wherever required. The black marks on the margin of the OMR form are important. The candidates should not tamper it with marker.
7. Only black& blue pen should be used to fill forms.
8. Each branch is identified with a specific subject code which should be written in subject column of OMR sheet
9. Write your University roll number in the roll no column of OMR sheet.

Name of Student:-.....

Branch:-.....

Section-.....

Uni. Roll No:.....

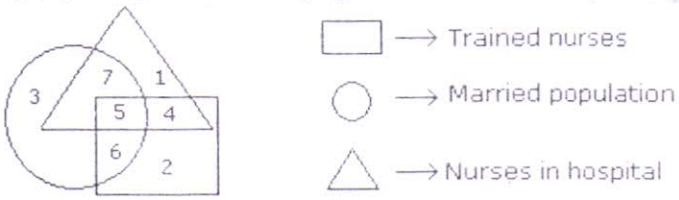

Signature of Invigilator-.....

S.N	Branch	Code
1	CS	1500
2	CE	1000
3	ECE	1300
4	EN	1400
5	EE	1100
6	ME	1200
7	MCA	8840

All The Best

Section-1 (Reasoning Ability)- No of Questions-20, marks-20

Q(1/5)-Study the following figure and answer the questions given below.

1. If hospital management requires only married trained nurses for operation theater, which part of diagram should be chosen by him ?
   A.7 B.4 C.5 D.6

2. By which number, married but untrained nurses in the hospital are represented?
   A.4 B.6 C.7 D.5

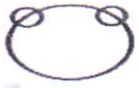

3. By which numbers trained nurses are represented ?
   A.3, 6 B.7, 5 C.5, 6 D.1, 5

4. What is represented by the number 7 ?
   A.Married nurses in the hospital B.Trained nurses
   C.Unmarried trained nurses D.Married trained nurses

5. By which number, the trained unmarried nurses in the hospital are represented ?
   A.6 B.5 C.7 D.4

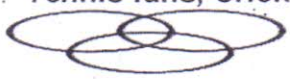

Q6. Which of the following Venn- diagram correctly illustrates the relation ship among the classes : ***Carrot, Food, Vegetables***

a) 
c) 

b) 
d) 

A. a B. b C. c D. d

Q7.Which of the following Venn- diagram correctly illustrates the relation ship among the classes : ***Tennis fans, Cricket players, Students***

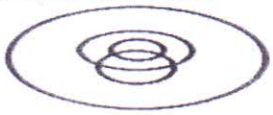

1) 
2) 

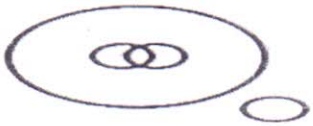

3) 
4) 

A. 1 B. 2 C. 3 D. 4

Q8. In a dinner party both fish and meat were served. Some took only fish and some only meat. There were some vegetarians who did not accept either. The rest accepted both fish and meat. Which of the following Venn-diagrams correctly reflects this situation?

1) 

2) 

3) 

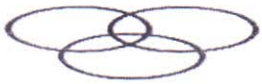

4) 

5) None of these

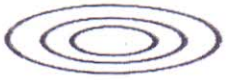

A. 1 B. 2 C. 3 D. 4 E.5

Q9. Select from four alternative diagrams, the one that best illustrates the relationship among the three classes : ***Pigeons, Birds, Dogs***

1) 

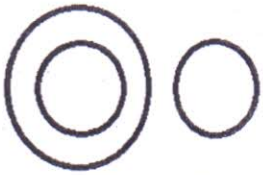

2) 

3) 

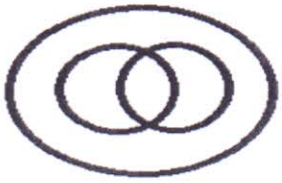

4) 

A. 1 B. 2 C. 3 D. 4

Q10. Select from four alternative diagrams, the one that best illustrates the relationship among the three classes : **Wheat, Grains, Maize**

A. 

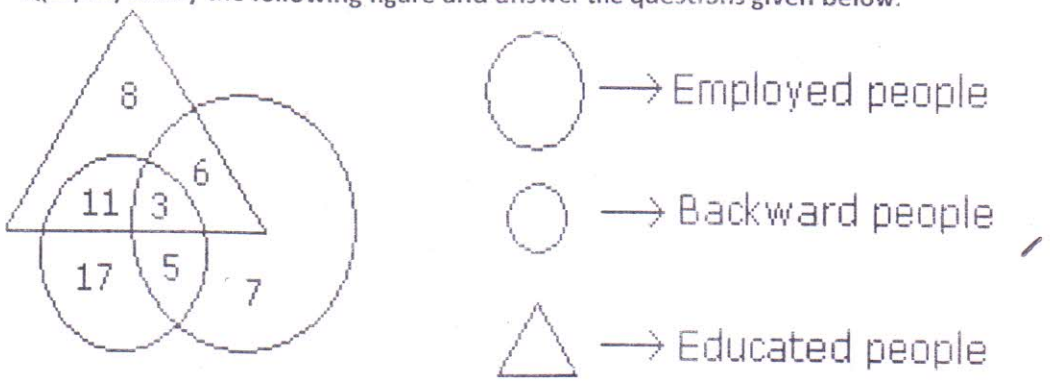

B. 

C. 

D. 

A. a B. b C. c D. d

Q(11/15)-Study the following figure and answer the questions given below.

11. How many educated people are employed ?
A.9 B.18 C.20 D.15

12. How many backward people are educated ?
A.9 B.28 C.14 D.6

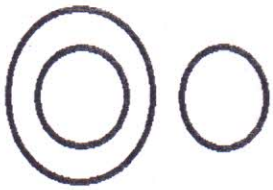

13. How many backward uneducated people are employed ?
A.14 B.5 C.7 D.11

14. How many backward people are not educated ?
A.3 B.14 C.22 D.25

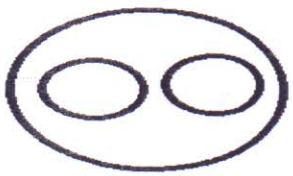

15.How many people are only educated?
A.11 B.8 C.7 D.6

16. Select from four alternative diagrams, the one that best illustrates the relationship among the three classes : **Citizens, Educated, Men**

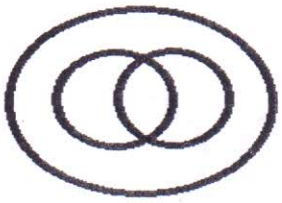

A.

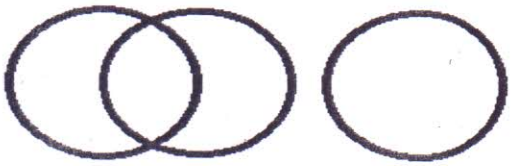

B.

C.

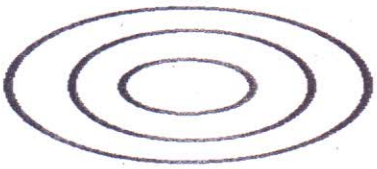

D.

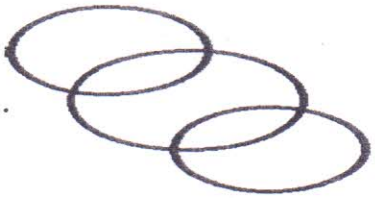

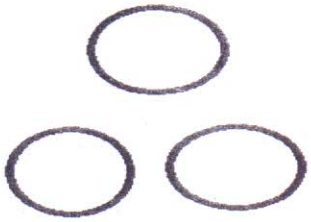

A. a B. b C. c D. d

17. Select from four alternative diagrams, the one that best illustrates the relationship among the three classes :**Pencil, Stationary, Jeep**

A. 

B. 

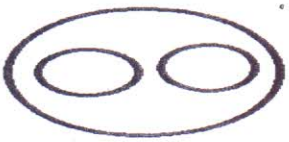

C. 

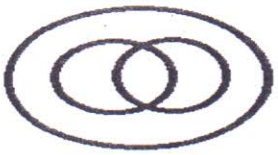

D. 

A. a B. b C. c D. d

18. Select from four alternative diagrams, the one that best illustrates the relationship among the three classes :**Sun, Planets, Earth**

A. 

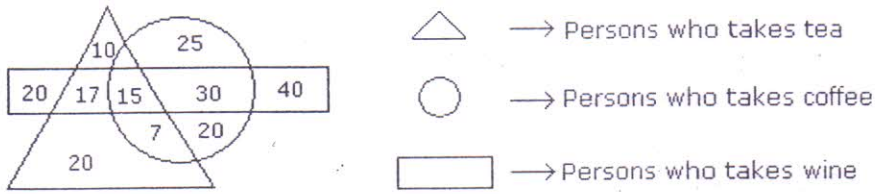

B. 

C. 

D. 

A. a B. b C. c D. d

Q(19/20)-Study the diagram given below and answer each of the following questions.

19. How many persons who take tea and wine but not coffee ?
A.20 B.17 C.25 D.15

20. How many persons are there who take both tea and coffee but not wine ?
A.22 B.17 C.7 D.20

Section-2 (Quantitative Aptitude)- No of Questions-20, marks-20

Q21. 15112 × 10004 = ?
A. 151184448 B. 151280448
C. 151180448 D.None of these

Q22. 68779 × 99998= ?
A. 6877762442 B. 6797762442
C. 6877762342 D.None of these

Q23. 412 × 407= ?
A. 168674 B. 167684 C. 177584 D. None of these

Q24. 9996 × 987= ?
A. 9866052 B. 989652 C. 9986052 D. None of these

Q25. 191 × 199= ?
A. 38209 B. 38109 C. 38009 D. None of these

Q26. 135×184= ?
A. 24940 B. 24840 C. 14840 D. None of these

Q27. 9654 × 1354386 = ?
A. 13313813144 B. 13075242444
C. 133538138131 D.None of these

Q28. 9.97^2= ?
A. 99.5009 B. 99.6009 C. 99.4009 D. None of these

Q29. $\sqrt{24649}$ = ?
A. 157 B. 153 C. 147 D. None of these

Q30. $\sqrt{134.65}$ = ?
A. 11.97 B. 11.60 C. 11.36 D. None of these

Q31. $\sqrt[3]{912673}$ = ?
A. 93 B. 87 C. 97 D. None of these

Q32.91 × 103= ?
A. 9,283 B. 9,983 C. 9,373 D. None of these

Q33. 983457 × 3845= ?
A. 3,78,13,92,165 B. 3,78,23,92,165
C. 3,88,13,92,165 D.None of these

Q34. $93^2 + 113^2$= ?
A. 31,418 B. 21,418 C. 31,618 D. None of these

Q35. $\sqrt{1521} + \sqrt{2704}$ = ?
A.81 B. 91 C. 93 D. None of these

Q36. [1001 × 1009] + [88 × 98] = ?
A. 10,18,633 B. 18,18,633 C. 20,18,633 D. None of these

Q37. $121^2 - [99 \times 91] = ?$
A. 7,632 B. 5,632 C. 8,632 D. None of these

Q38. $84 \times 86 = ?$
A. 6424 B. 5624 C. 7224 D. None of these

Q39. $55^2 + 65^2 + 75^2 + 85^2 = ?$
A. 21,100 B. 20,100 C. 22,100 D. None of these

Q40. $1051 \times 1059 = ?$
A. 11,13,009 B. 111309 C. 11113009 D. None of these
