Cloud Comp. C.S B.Tech IInd year 2017-18 END Term

Printed Pages-3 University Roll No.....

End Term Examination, 2017-18
Course: B.Tech (CSE), Year: II, Semester: III
Computer Organization (CSE3102)

Time: 2.5 Hrs. **Total Marks: 40**

Section A

Note: Attempt All Questions **(1x16= 16 Marks)**

I. How many check bits are needed to detect single bit error in 500 bits data words?

II. Find the 2's complement of 0.156.

III. Express (-105) in IEEE 32- bit floating point format.

IV. Construct the 7-bit Hamming code for a word 0101 to be transmitted

V. What is the minimum number of bits required to store a variable that can assume values whose hexadecimal representation can range from 00 to FF?

VI. A computer has word size of 16 bits and has 16 programmer visible registers. Each instruction has two source and one destination operands and uses only register direct addressing. What is the maximum number of op-codes that this processor can have?

VII. In which of the addressing mode actual operand provided as a part of the instruction?

VIII. Which addressing modes permit relocation without any change whatsoever in the code?

IX. In a micro programmed control unit, why a Microprogram sequencer is required?

X. When a processor fetches an instruction of the executing program, in which register the binary code of the instruction gets stored?

XI. The branch logic that provides decision making capabilities in the control unit is known as.....

XII. The communication between central system and the outside environment is done by.....

XIII. For transferring data from memory to key board to the attached computer, which would be the preferred mode of data transfer?

XIV. Explain bootstrap loader.

XV. What is Flash memory?

XVI. A ROM is used to store the multiplication table of two 8-bit unsigned integers. What would be the size of the required ROM?

Section B

Note: Attempt any Four Questions **(3x4=12 Marks)**

I. Given a 32x 8 ROM chip with an enable input, show the external connections necessary to construct a 128 x 8 ROM with 4 chips and decoder.

II. What are basic differences in between isolated IO and memory mapped IO?

III. Explain all three concepts of data transfer modes and gives the advantage and disadvantage of all methods?

IV. In a computer whose average memory access time is 20ns has the page fault service time 10 ns. For every 100 memory access one page fault is generated. Find out the effective access time of the memory; also differentiate physical memory and virtual memory.

V. Why does Direct Memory Access have priority over the CPU when both request a memory transfer? Also briefly highlight the work of DMA controller.

Section C

Note: Attempt any Three Questions **(4x3=12 Marks)**

I. An address space is specified by 24 bits and the corresponding memory space by 16 bits.

a. How many words are there in the address space?

b. How many words are there in memory space?

c. If a page consist of 2k words how many pages and blocks are there in the system.

II. What are the advantages and disadvantages of virtual memory? How page map table is organized in virtual memory system?

III. What techniques are used to automatically move program and data blocks from the physical main memory to cache memory when they are required for execution? Also explain briefly the techniques which you identified in the previous part of this question.

IV. A virtual memory has an address space 18K words, a memory space has 9K words and block sizes of 3K words. The following reference generated by CPU

3 4 2 6 4 7 1 3 2 6 3 5 1 2 3

Show each page reference change if the replacement algorithm used is (a) Optimal (b) LRU

Also state which algorithm is better on the basis of page fault?

End Term Examination, Odd Semester, 2017-18

B.Tech. (II Year)-III Semester

Subject:- Engineering Mathematics –III **Subject Code:- AHM-3101**

Time : 02 1/2 Hours Max. Marks: 40

Section- A

Note: Attempt All Questions. 1 x 16 = 16 marks

(I) Find the inverse Laplace transform of $\frac{1}{(s+a)^2}$.

(II) Find the Laplace transform of $\delta(t-a)$.

(III) Find the Laplace transform of $\sin^2 3t$.

(IV) Find the Laplace transform of 4^t.

(V) Apply convolution theorem to evaluate $t * t$.

(VI) Write the condition(s) under which the Laplace transform of the derivative of F (t) exists.

(VII) Evaluate $\int_c \frac{\cos \pi z}{z-1} dz$, if c is $|z| = \frac{3}{2}$.

(VIII) For the function $f(z) = \frac{1}{z(e^z - 1)}$, find the order of the pole at z= 0.

(IX) Evaluate $\int_0^{1+i} (x^2 - iy)\, dz$, along the path y = x.

(X) Find the residue of $f(z) = \frac{z^2 - 1}{(z-1)^2 (z+2)}$, at the simple pole.

(XI) A rod 50 cm long with insulated sides has its ends A and B kept at $20^\circ c$ and $70^\circ c$ respectively.

Find the steady state temperature distribution of the rod.

(XII) Solve $\frac{\partial^2 z}{\partial x^2}+2\frac{\partial^2 z}{\partial x \partial y}+\frac{\partial^2 z}{\partial y^2}=0$.

(XIII) Classify the following partial differential equation $x^2\frac{\partial^2 z}{\partial x^2}+\left(1-y^2\right)\frac{\partial^2 z}{\partial y^2}=0$, where $-\infty < x < \infty, x \neq 0, -1 < y < 1$.

(XIV) Solve $x\frac{\partial z}{\partial x}+y\frac{\partial z}{\partial y}=z$.

(XV) Find the particular integral of the partial diff. equation $\frac{\partial^2 z}{\partial x^2}-2\frac{\partial^2 z}{\partial x \partial y}=e^{2x}$.

(XVI) Solve $\left(\frac{\partial z}{\partial x}+4\frac{\partial z}{\partial y}+5\right)^2=0$

Section- B

Note: Attempt Any Four Questions. **3 x 4 = 12 marks**

Q1 If $f\left(x+iy\right)=x^3-3xy^2+i\phi(x,y)$, where $i=\sqrt{-1}$ and $f(x+iy)$ is an analytic function then find $\phi(x,y)$.

Q2 Using Cauchy's integral theorem, find the value of the integral (integral being taken in contour clockwise direction) $\oint_c \frac{z^3-6}{3z-i}dz$, where c is $|z|=1$ and z = x+ i y.

Q3. If $f(z)=c_0+c_1z^{-1}$, then evaluate $\oint_{|z|=1}\frac{1+f(z)}{z}dz$.

Q4. Given $\phi(z)=\frac{z}{(z-a)^2}$ with $|z|>a$, find the residue of $\phi(z)z^{n-1}$ at z = a, for $n \geq 0$.

Q5. Find the analytic region of $f(z)=\left(x-y\right)^2+2i\left(x+y\right)$.

Section- C

Note: Attempt Any Three Questions. **4 x 3 = 12 marks**

Q1. Show that the function $u(x,y)=3x^2y+2x^2-y^3-2y^2$ is harmonic. Find the conjugate harmonic function $v(x,y)$.

Q2. Expand $\dfrac{1}{z^2-3z+2}$ in the region $(i)1<|z|<2$, $(ii)0<|z-1|<1$.

Q3. Evaluated by Cauchy's residue theorem, $\int_c \dfrac{z-1}{(z+1)^2(z-2)}dz$ where c is $|z-i|=2$.

Q4. Evaluate $\int_0^{2\pi} \dfrac{d\theta}{13+5\sin\theta}$.

B. Tech C.S. Industrial

University Roll No.....

End- Term Theory Examination, Odd Semester, 2017-18

B.Tech – Second (II) Year, III Semester

Industrial Economics **Paper Code: MBA5031**

Time: 0 2 ½ hours **Max Marks: 40**

Instructions:

1) Attempt **(Total All Questions from Section A), (Four questions from Section B) & (Three questions from Section C) Only.**
2) Answer should be to-the-point and must be supplemented with **neat graphical** illustration.

Section – A

Note: Attempt All Questions **1 x 16= 16 Marks**

I. Define perfectly inelastic demand.
II. Define GDP_{mp}.
III. Define Homogenous products.
IV. Name the some non-factors of production.
V. Define the role of Average variable cost in determining shut down point of the firm.
VI. Define Marketing cost.
VII. Define Equi-marginal principle of utility with an example.
VIII. Define Monopoly power with the help of formulae.
IX. How Economics is the study of growth and development?
X. Define NNP_{Mp}.
XI. Write any two methods of quantitative demand forecasting?
XII. Is it practically possible to draw a Vertical isoquant? Justify.
XIII. Who is price taker under perfect market?
XIV. Name any two methods of National Income calculation.
XV. Define creeping inflation.
XVI. Why MR curve always lies below the average revenue curve under monopoly market?

Section – B

Note: Attempt ANY Four Questions **3 X 4 = 12 Marks**

I. Discuss Effect of Inflation on different groups of society.
II. Write down the first and second order condition for market equilibrium conditions for market. Must illustrate graphically.
III. Discuss phases of business cycle. Show them by a graphical representation.
IV. Discuss important characteristics of monopoly competition with adequate different degrees of monopoly.
V. Explain in detail value added & Income methods of national income calculation.

Section –C

Note: Attempt ANY Three Questions **4 x 3 = 12 Marks**

I. Discuss different market structures by classifying markets on the basis competition, time period and geographical dividend.
II. Discuss key characteristics of Duopoly competition and compare it with monopolistic competition.
III. What do you understand by inflationary gap? Show it graphically.
IV. Discuss Average revenue and marginal revenue curves for perfect market with respect to elasticity and slope of curves and output show them by graphical illustration.

End Term Examination, 2017-18
Course: B. Tech. (CSE), Year: II, Semester: III
Database Management System (CSE 3003)

Uni. Roll No:

Time: 2.5 Hrs. **Total Marks: 40**

Notes:

1. All parts of a question should be answered at one place.
2. Answer should be brief and to-the-point and may be supplemented with neat sketches.
3. Any missing or wrong data may be assumed suitably giving proper justification.
4. Figures on the right-hand side margin indicate full marks.

Section A

Note: Attempt All Questions **(1 x 16 = 16 marks)**

I. What is union compatibility of relations?

II. What is meant by having a *d* in the circle in depicting supertype/subtypes entity classes?

III. What is a recursive relationship? How is it depicted in an ER diagram?

IV. Express Division operator using other relation algebra operators.

V. What is a surrogate key?

VI. Mention at least four different constraints that can be applied during table creation in SQL.

VII. Normalization does not eliminate data redundancies. State the reason to support your opinion in favor of or against this statement.

VIII. State the conditions that need to be satisfied by any relation in BCNF.

IX. What is a canonical cover of a Function Dependency set?

X. Describe at least two usage and syntax of Alter table statement in SQL.

XI. Consider the following relations containing airline flight information:

Flights (flno: integer, from: string, to: string, distance: integer, departs: time, arrives: time)

Aircraft (aid: integer, aname: string, cruisingrange: integer)

Certified (eid: integer, aid: integer)

Employees (eid: integer, ename: string, salary: integer)

Rewrite the following tuple relation calculus query in domain relation calculus.

{A.aid | A ∈ Aircraft ∧ ∃ F ∈ Flights (F.from ='Delhi'∧ F.to ='Mumbai' ∧ A.cruisingrange > F.distance)}

XII. Consider the following relation schema:

Sailors (sid: integer, sname: string, rating: integer, age: real)

Boat (bid: integer, bname: string, color: string)

Reserves (sid: integer, bid: integer, day: date)

Write a query in SQL to find the average age of the sailor who are eligible for voting for each rating level that has at least two sailors.

XIII. Which concurrency control protocol out of 2-phase locking and Time-stamp ordering protocols, ensure both conflict serializability and freedom from deadlock?

XIV. If two transactions T_1 and T_2 consists of 2 and 3 operations, respectively, then what is the maximum number of concurrent schedules possible involving these two transactions?

XV. State the conditions that need to be satisfied by view equivalent schedules.

XVI. What is data transparency in distributed database?

Section B

Note: Attempt any Four Questions **(3 x 4 = 12 marks)**

I. What are ACID properties of a transaction? Advocate their importance citing examples for each of them.

II. Differentiate Dirty Read, Non Repeatable Read and Phantom Read in Database.

III. What is Thomas' Write rule? Analyze the impact of the rule on timestamp-ordering protocol.

IV. Create a trigger, which verify that updated salary of employee must be greater than his/her previous salary and also raise an exception mentioning the problem, if any.

V. From the following table of transactions identify all the conflicts in operations and the draw the precedence graph. Further, identify at least two concurrent conflict equivalent schedules, if possible.

T1 reads from x	T2 reads from z	T3 reads from x
T1 writes to y	T2 writes to w	T3 writes to p
T1 writes to z	T2 reads from x	

Section C

Note: Attempt any Three Questions **(3 x 4 = 12 marks)**

I. What are deferred and immediate updates? Explain the log-based recovery mechanism in database stating the difference resulted as a result of these two approaches.

II. Suppose the table Result in the database, which has the following structure: Result (RollNo, Sub1, Sub2, Sub3, Sub4, Total, Percentage). The RollNo and marks in each subject is stored in database. Write a PL/SQL code to calculate the Total and Percentage of each student and update the database.

III. Explain what do you understand by deadlock in databases. Also, discuss the methods of deadlock management.

IV. Describe the method for checking whether the following schedule is Conflict serializable and View serializable or not?

Schedule S: R1(A); R2(A); R3(A); R4(A); W1(B); W2(B); W3(B); W4(B).

where Ri and Wi represent Read and Write operations by transaction Ti, respectively.

Data Analysis

End Term Examination, Odd Semester 2017-18
Course: B.Tech. (CSE), Year: II
Data Structures & Algorithms (CSE-3001)

Uni. Roll No:
Time: 02 ½ Hours **Total Marks: 40**
Notes:

1. All parts of a question should be answered at one place.
2. Answer should be brief and to-the-point and be supplemented with neat sketches.
3. Any missing or wrong data may be assumed suitably giving proper justification.
4. Figures on the right-hand side margin indicate full marks.

Section A

Note: Attempt All Questions **(1x16=16)**

I. Compare Iteration with Recursion.

II. Which is the best data structure to check an expression has balanced parentheses?

III. Explain Non-Linear Data Structures.

IV. Write the polish notation of (A - B) / (C * D) - E

V. Write the applications of Queue in Computer Science.

VI. Write the condition of overflow and underflow in Circular Queue.

VII. Construct the expression tree for the given expression

(A *B - C) + ((D + E * F) + G)

VIII. Write the properties of B-Tree.

IX. What is the minimum number of nodes in a AVL tree of height 4?

X. How many distinct binary search trees can be created out of 4 distinct keys?

XI. A 3-ary tree is a tree in which every internal node has exactly 3 children. Find the number of leaf nodes in such a tree with 6 internal nodes.

XII. Write the complexity of Quick sort in average and worst case.

XIII. Compare BFS with Dijkstra's Algorithm.

XIV. Explain linear probing.

XV. Which data structures are used in Prim's and Dijkstra's Algorithm?

XVI. How records are inserted in sequential files?

Section B

Note: Attempt Any Four Questions **(3x4=12)**

I. Consider a hash table of size $m = 1000$ and a corresponding hash function $h(k) = \text{floor}(m\ (kA \bmod 1))$ for $A = (\sqrt{5} - 1)/2$. Compute the locations to which the keys 61, 62, 63, 64, and 65 are mapped.

II. Let P be a shortest path from some vertex s to some other vertex t in a graph. If the weight of each edge in the graph is increased by one, whether P will still be a shortest path from s to t. Explain with example.

III. Explain the recursive solution to all-pair shortest path problem.

IV. Give an adjacency-list representation for a complete binary tree of 7 vertices. Give an equivalent adjacency-matrix. Explain the disadvantages of adjacency list representation.

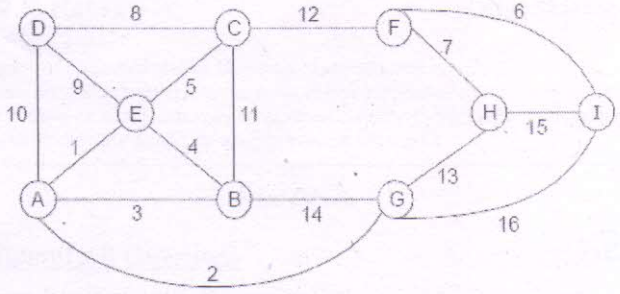

V. Compare Indexing with Hashing.

Section C

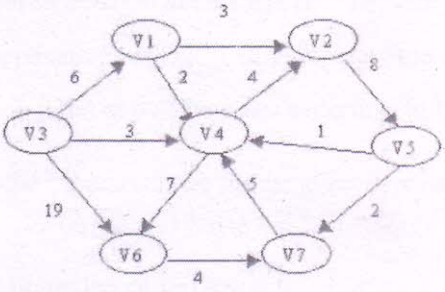

Note: Attempt Any three Questions **(4x3=12)**

I. Explain Sparse, Dense, Primary and Secondary indices with suitable example.

II. Explain two applications of minimum spanning trees in Computer Science. Apply Prim's Algorithm on the given graph. Consider E as source vertex.

III. Discuss the similarity between Dijkstra's Algorithm and Prim's Algorithm. Apply the Dijkstra's Algorithm on the given graph. Consider V3 as a source vertex.

IV. Discuss the problems involved in linear probing. Consider inserting the keys 10, 22, 31, 4, 15, 28, 17, 88, 59 into a hash table of length m=11 using open addressing with the auxiliary hash function $h_1(k) = k$. Illustrate the result of inserting these keys using quadratic probing with $c1 = 1$ and $c2 = 3$, $h_2(k) = 1 + (k \bmod (m-1))$.

Paper Code- AHE3081

SET-B

GLA University

Soft-Skills (Odd Sem)

End Term Examination (2017-18)

Course- B.Tech **Year- II**

Branch- All Branches

Instructions :

1. There are 2 sections in the paper.
2. Attempt all questions. The maximum marks for the test are 40.
3. The total time allocated is 120 minutes.
4. There will be no negative marking. Also, no marks will be awarded if more than one answer is marked.
5. The OMR form is printed on a special paper and the information given by the candidates will be scanned. Thus, the candidates are required to fill the forms carefully. Mutilated and damaged forms will be rejected by the scanner.
6. The candidates should ensure that the form is not folded, crumpled or mutilated in any manner. The candidates should not mark anything anywhere except wherever required. The black marks on the margin of the OMR form are important. The candidates should not tamper it with marker.
7. Only black& blue pen should be used to fill forms.
8. Each branch is identified with a specific subject code which should be written in subject column of OMR sheet
9. Write your University roll number in the roll no column of OMR sheet.

LIFE@GLA

Section-1 (Reasoning Ability)- No of Questions-40, marks-20

Q1. The Sharma family consists of the following in terms of relationships:
1 grandfather, 1 grandmother, 2 fathers, 2 mothers, 4 children, 3 grandchildren, 1 brother, 2 sisters, 2 sons, 2 daughters, 1 father-in-law, 1 mother-in-law, and 1 daughter-in-law.
Find out the minimum number of members in the family?
A. 23 B. 17 C. 11 D. 7 E. None of these

Q2. Riya started from her home to office. She started in east direction. After walking for 4 m she turned to her left and walked 8 m, now she turned left and walked 2 m. After this she turned to right walked 4 m. Now after turning to her right she walked 13 m and reached office. Find the shortest distance between her office and home.
A.87 m B.$9\sqrt{41}$ m C.26 m D.$3\sqrt{41}$ m E.None of these

Q3. Raghav starts walking in south direction and walks a distance of 7 meters. Now he tooks a left turn and walk 6m. Again he takes a left turn and walk 15m and reached a point P. Find the distance between starting point and P and in which direction is the person from the initial point.
A.10m, south east B.10m, north east C.20m, north west
D.20m, south west E.None of these

Q4. Ram and shyam are two friends who are facing each other. Shadow of ram falls on the left side of shyam, so in which direction ram is facing?
A.north B.south C.west D.east E.can't say

Q5. P and Q are two friends separated by a distance of 20 meter. They starts walking away from each other and after travelling 5 meter each they turn right and left respectively and walks 10 meter more. Now they turn to their left and walk 10 meter more. Find the distance between P and Q now,
A.20m B.30m C.40m D.45m E.None of these

Directions(6-8):
Study the following information carefully and answer the questions given below:
A is the daughter of E. F has only two children – A and G. H is the brother of I. G is married to K. F has only two daughters. M is the mother of E. H is married to A. M is married to N. F is the son of O.

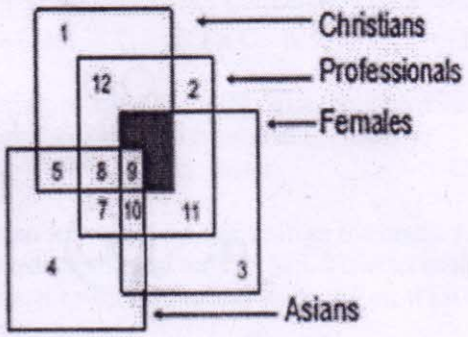

Q6. Who among the following is the father of E?
A. M B. O C. F D. N E. None of these

Q7. Who among the following is the sister-in-law of I?
A. G B. A C. E D. M E. O

Q8. How is F related to H?
A. Father-in-law B. Mother-in-law C. Father D. Mother E. Brother

LIFOGLA

Directions (Q. Nos. 9 to 13)-Answer these questions based on the diagram given below.

Q9: Asian Non-Christian Females who are Professional are represented by
(a)3 (b)10 (c)8 (d)11

Q10: Asian Females who are neither Professional nor Christians are denoted by
(a)3 (b)9 (c)10 (d)None of these

Q11. Non-Asian Professional Christian males are represented by
(a)10 (b)11 (c)12 (d)9

Q12. Christian Females who are Non-Professional and Asian are represented by
(a)5 (b)10 (c)9 (d)None

Q13. The shaded portion depicts
(a)Asian Professional Christian males
(b)Non-Asian Professional female Christians
(c)Non- Christians Professional female Asians
(d)Non-Asian Unprofessional female Christians.

Q14. Which of the following diagrams indicates the best relation between-
Female, Father and Male ?

A. 

B. 

C. 

D. 

Q15. Which of the following diagrams indicates the best relation between-
Black, White and Red ?

A. 

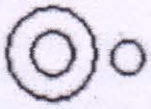

B. 

C. 

D. 

FOGLA

Q16. Which of the following diagrams indicates the best relation between- **Cow, Aquatic and Fish ?**

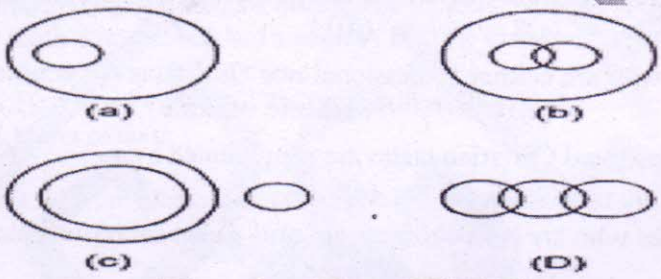

A. 

B. 

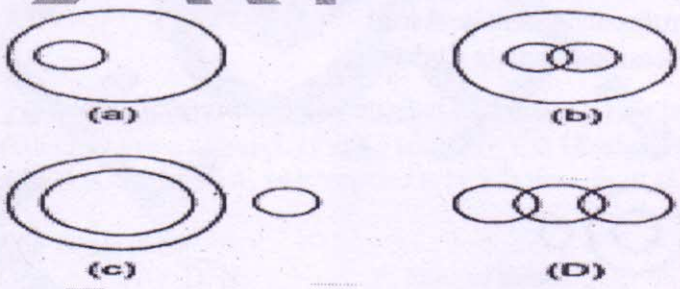

C. 

D. 

Q17. Choose from the given five diagrams (a) to (d) as the answer choice, which best illustrates a relationship among the three given classes in the following questions: **Living things, Men, Table**

Q18. Choose from the given five diagrams (a) to (d) as the answer choice, which best illustrates a relationship among the three given classes in the following questions: **Brinjal, Vegetables, Rice**

Q19. If P + Q means P is the brother of Q; P x Q means P is the wife of Q and P % Q means P is the daughter of Q then which of the following means D is the uncle of A?

A.A % B x C + D B.A x B + C % D C.A + C % B x D D.None of these

Q20. A is the son of C; C and Q are sisters; Z is the mother of Q and P is the son of Z. Which of the following statements is true?

A.P and A are cousins B.P is the maternal uncle of A

C.Q is the maternal grandfather of A D.C and P are sisters

Q21. M is the father of N who is the son of V. In order to know the relation of M to P, which of the statement/statements is/are necessary?

1.P is the brother of V.

2.The daughter of N is the granddaughter of V.

A.Only (1) B.Only (2) C.Either (1) or (2) D.(1) and (2) both

Q22. If X + Y means X is the daughter of Y; X - Y means X is the brother of Y; X % Y means X is the father of Y and X x Y means X is the sister of Y. Which of the following means I is the niece of J?

A.J - N % C x I B.I x C - N % J C.J + M x C % I D.I x C + N - J

Q23. Pointing to a boy in the photograph Reena said, "He is the only son of the only child of my Paternal grandfather." How Reena is related to that boy?

A. Mother B. Sister C. Aunt D. Cannot be determined

Q24. A man leaves for his office from his house. He walks towards East. After moving a distance of 20 m, he turns towards South and walks 10 m. Then he walks 35 m towards the West and further 5 m towards the North. He then turns towards East and walks 15 m. What is the straight distance in metres between his initial and final positions?

A. 0 m B. 3 m C. 4 m D. 5 m

Q25. There are four towns P, Q, R and T. Q is to the South-west of P, R is to the east of Q and south-east of P, and T is to the north of R in line with QP. In which direction of P is T located?

A. South–east B. South C. North–east D. East

Q26. I am facing South. I turn right and walk 20 m. Then I turn right again and walk 10 m. Then I turn left and walk 10 m and then turning right walk 20 m. Then I turn right again and walk 60 m. In which direction am I from the starting point?

A. East B. North–west C. West D. North–east

Q27. Rohit walked 25 metres towards South. Then he turned to his left and walked 20 metres. He then turned to his left and walked 25 metres. He again turned to his right and walked 16 metres. At what distance is he from the starting point and in which direction?

A. 36 metres East B. 35 metres North C. 40 metres East D. 60 metres East

Q28. X and Y start moving towards each other from two places 200 m apart. After walking 60 m, B turns left and goes 20 m, then he turns right and goes 40 m. He then turns right again and comes back to the road on which he had started walking. If A and B walk with the same speed, what is the distance between them now?

A. 20 m B. 30 m C. 40 m D. 50 m

Q(29/31). In a certain society, there are two marriage groups, Red and Brown. No marriage is permitted within a group. On marriage, males become part of their wife's group; women remain in their own group. Children belong to the same group as their parents. Widowers and divorced makes revert to the group of their birth. Marriage to more than one person at the same time and marriage to a direct descendant are forbidden.

Q29. A Brown female could have had

i. a grandfather born Brown
ii. a grandfather born Red.
iii. two grandfathers born Brown

a. I only b. III only c. I and II only d. II and III only e. I, II, and III

Q30. A male born into the Brown group may have

a. an uncle in either group
b. a Brown daughter
c. a Brown son
d. a son-in-law born into the Red group
e. a daughter-in-law in the Red group

UFTOGLA

Q31. Which of the following is not permitted under the rules as stated ?

a. A Brown male marrying his father's sister
b. A Red female marrying her mother's brother
c. A man born Red, who is now a widower, marrying his brother's widow
d. A widower marrying his wife's sister
e. A Widow marrying her divorced daughter's ex-husband.

Q32. Joe is walking towards North for 15 miles, turns left and walks another 10 miles. He then turns right and walks 10 miles. Now, he again turns right and walks 30 miles. Which direction is he from Starting point?

a) South-East b) North-East c) North-West d) South-West e) None of these

Q33. Morris is facing North and walks 10kms. He turns 270° anti-clockwise and walks 15kms. Now, he again turns 45° clockwise and walks for 25kms. Which direction is he facing now?

a) North-West b) South-West c) North-East d) South-East e) None of these

Q34. Mary is walking towards South-West for 15 miles, turns right and walks another 10 miles. She then turns 90° Clockwise and walks 10 miles. Now, she again turns left and walks 30 miles. Which direction is she facing?

a) East b) Westc) South-East d) North-West e) Can't determined

Q35. Joe went 35 meters towards east from Mary's house. He turns left and walks 15 meters. Now, he takes a left turn and walks 80 meters. Finally, he turns left and walks for 15 meters. How far Joe is from Mary's house?

a) 30 b) 45 c) 50 d) 65

Q36. One morning after sunrise, Joe was standing facing a pole. The shadow of the pole fell exactly to his right. To which direction was he facing?

a) East b) South c) West d) Data is inadequate

Q37. Prince was standing facing to the Pole at 1:48PM. Shadow of the Pole fell towards his right. To which direction was Prince facing?

a) West b) South c) East d) North

Q38. Study the information given below carefully, and answer the question that follow:

On a stage, D, N, A and P are standing as described below facing North.

a) N is 2.5 m to the west of A.
b) D is 6 m to the south of K.
c) K is 4 m to the right of A.
d) P is 9 m to the north of D.

If a boy walks from N, meets A followed by K, D and then P, how many metres has he walked if he has travelled the straight distance all through?

a. 15 m **b.** 18 m **c.** 21.5 m **d.** 22.5 m

Q39. Study the information given below carefully, and answer the question that follow:

On a stage, D, N, A and P are standing as described below facing North.

a) N is 2.5 m to the west of A.
b) K is 4 m to the right of A.
c) D is 6 m to the south of K.
d) P is 9 m to the north of D.

Q40. Pointing to Manju, Raju said, "The son of her only brother is the brother of my wife". How is Manju related to Raju?

a.Mother's sister b.Grandmother c.Mother-in-law d.Sister of father-in-law e.Maternal aunt

Section-2 (Quantitative Aptitude)- No of Questions-40, marks-20

Q41. By selling an item at a certain amount , a person incurs a profit of 12% . If he sells it for 133 less , he incurs 2 % loss . Find the cost price of the item.

(a) 1000 rs (b) 645 rs. (c) 1050 rs (d)950 rs

Q42. If the cost price of an item is 25% less than the selling price , find the percentage of profit or loss.

(a) 33.3% profit (b) 25% profit (c) 20 % profit (d) 25% loss

Q43. V purchases books at the rate of rs 140 for seven and sells them at the rate of rs 264 for eleven . Find the percentage of profit or loss he gets.

(a) 33.33% profit (b) 25% loss (c) 20% profit (d) 30% loss

Q44. Meenal purchased a car for Rs. 2,50,000 and sold it for Rs. 3,48,000. Then what is the percent profit she made on the car?
A. 40 B. 39.2 C. 38.4 D. 38 E. None of these

Q45. What profit/loss percent did Ravi earn if he purchased an item of Rs. 5,600 and sold it at three-fourth of its cost price?
A. Loss of 20 percent B. Gain of 25 percent C. Neither gain nor loss D. Loss of 15 percent
E. None of these

Q46. A table with marked price Rs. 1200 was sold to a customer for Rs. 1100. Find the rate of discount allowed on the table:
A. 9% B. 8.33% C. 9.33% D. 10%

Q47. List Price of a sewing machine is Rs. 2300. It is sold at a discount of 4%. Find the selling price of it?
A. Rs. 2,200 B. Rs. 2,280 C. 2,180 D. Rs. 2,208

Q48. The list price of a shirt is Rs. 440 and a customer pays Rs. 396 for it. The discount rate is
A. 10% B. 10.5% C. 20% D. 12%

Q49. A person purchased a saree for Rs. 7710 after availing a net discount of Rs. 1285. The percentage of discount, the saree shop offers is:
(A) 14.14% (B) 14.28% (C) 14.42% (D) 14.56%

Q50. By selling an article for Rs. 102, there is a loss of 15%, when the article is sold for Rs. 134.40, the net result in the transaction is:
(A) 12% gain (B) 12% loss (C) 10% loss (D) 15% gain

Q51. 1/2 is what percent of 1/3
a. 50% b. 100% c. 150% d. None of these

Q52. If sales tax is reduced from 5% to 4%, then what difference it will make if you purchase an item of Rs. 1000.
a. Rs. 100 b. Rs. 10 c. Rs. 50 d. Rs. 40

Q53. What is 25% of 25% equal to?
a. 0.00625 b. 0.0625 c. 0.625 d. 6.25

LIFE@GLA

Q54. Which of the following multipliers will cause a number to be increased by 29.7%?
a. 1.297 b. 12.97c. 129.7d. 1297

Q55. If 20% of a = b, then b% of 20 is the same as:
a. 4% of a b. 6% of a c. 8% of a d. 10% of a

Q56. The value of a machine depreciates at the rate of 10% every year. It was purchased 3 years ago. If its present value is Rs. 8748, its purchase price was:
a. 10000 b. 12000 c. 14000 d. 16000

Q57. If A's height is 40% less than that of B, how much percent B's height is more than that of A?
a. 66.66% b. 76.66% c. 96.66% d. 86.66%

Q58. If x is the 90% of y, then what % of x is y?
a. 90% b. $107\frac{1}{9}\%$ c. $111\frac{1}{9}\%$ d. 190%

Q59. If A = x% of y and B = y% of x, then which of the following is true?
a. A is smaller than B.
b. A is greater than B.
c. Relationship between A and B can't be determined
d. If x is smaller than y, then A is greater than B.
e. A is equal to B.

Q60. Three candidates contested an election and received 1136, 7636 and 11628 votes respectively. What percentage of the total votes did the winning candidate get?
a. 57% b. 60% c. 65% d. 90%

Q61. In an election, 30% of the voters voted for candidate A whereas 60% of the remaining voted for candidate B. The remaining voters did not vote. If the difference between those who voted for candidate A and those who did not vote was 1200, how many individuals were eligible for casting vote in that election?
a. 10,000 b. 45,000 c. 60,000 d. 72,000

Q62. A number is increased by 20% and then again by 20%. Approximately By what % should the increased number be reduced so as to get back the original number?
a. $19\frac{11}{31}\%$ b. $30\frac{5}{9}\%$ c. 40% d. 44%

Q63. The price of a T.V. set is decreased by 25% as a result of which the sale increased by 20%. What will be effect on the total revenue of the shop?
a. 10 % decrease b. 5% decrease c. 5% increase d. 10% increase

Q64. The population of a town increases by 5% annually. If its population in 2001 was 1,38,915, what it was in 1998?
a. 1,00,000 b. 1,08,000 c. 1, 10,000 d. 1,20,000

Q65. 30% of the men are more than 25 years old and 80% of the men are less than or equal to 50 years old. 20% of all men play football. If 20% of the men above the age of 50 play football, what percentage of the football players are less than or equal to 50 years?
a. 15% b. 20% c. 80% d. 70%

Q66. 98*108
a. 10584 b. 10784 c. 10894 d. 10684

UFOGLA

Q67. 16111*10002

a. 161584022 b. 161142222 c. 151142822 d. 151161802

Q68. 668* 999

a. 667332 b. 776432 c. 898432 d. 897682

Q69. 215*207

a. 48505 b. 47555 c. 44505 d. 46505

Q70. 99998*96

a. 9599868 b. 9599808 c. 9445008 d. 9465068

Q71. 100005^2

a. 100100100025 b.10001000025 c.1010100025 d. 10100252525

SET-A University Roll No._____

GLA UNIVERSITY, MATHURA

B. Tech. 2nd Year (Odd Semester), End Term Examination, 2017-18

Subject: English for Professional Purposes-I Subject Code: AHE 3083
Time: 1 Hr. 30 Minutes Max. Marks: 90

VERBAL APTITUDE

Fill in the blanks with the most suitable option:

1. This house _____ in 1970 by my grandfather.
A. built B. was built C. was build
D. has built E. None of the above

2. The robbers _____ by the police.
A. have arrested B. was arrested C. had arrested
D. have been arrested E. None of the above

3. The students_____ to submit their reports by the end of this week.
A. have asked B. are asked C. has asked
D. are asking E. None of the above

4. The student _____ for lying.
A. has been punished B. punished C. is punished
D. was punishedE. None of the above

5. Epilepsy _____ to be caused by poor air, which _____ to be carried by the veins to the brain.
A. is believed / thought B. believes / is thought
C. was believed /was thought D. is believing / is thinking
E. will be believed / has thought

6. The Wii, which is a video game console _____ by Nintendo_____ on November 19, 2006.
A. made / was released B. is made / was released
C. was made / will release D. makes / released
E. made / released

7. He _____ his first collection of poems in the early eighties and since that time he _____ by critics and public.
A. publishes / praised B. published / has been praised
C. publishes/has praised D. was published/was praised
E. will publish / will be praised

8. I got everyone in the family _____ Mary's birthday card before I sent it to her.
A. sign B. to sign C. signed
D. will sign E. will be signing

9. I didn't have any time so I had my sister _____ my paper last night.
A. type B. to type C. typed
D. will type E. will be typing

10. The teacher got the students_____ the first quatrain of the poem to make it easy to memorize.
A. write B. to write C. wrote
D. will write E. will be writing

11. Regular repetition makes one _____ new words easily.
A. learn B. to learn C. learned
D. will learn E. will be learning

12. I don't_____ my kids watch violent movies.
A. let B. make C. get
D. had E. None of the above

13. Mary's father won't_____ her adopt a puppy because he's allergic to dogs.
A. let B. make C. get
D. had E. None of the above

14. We will _____our house painted this weekend.
A. let B. make C. get
D. had E. got

15. Bob _____ his teeth whitened; his smile looks great!
A. let B. make C. get
D. had E. None of the above

16. Once _____ of oxygen, the brain dies.
A. deprived B. having deprived C. to deprived
D. depriving E. having deprive

17. The planet Mars is _____ from the earth than the satellite moon.
A. far B. farther C. further
D. farthest E. furthest

18. Shimla is _____ than _____ other hill stations in India.
A. more famous --- most B. most famous --- more
C. more famous --- more D. most famous --- most
E. Famous --- most

19. Few English poets were as _____ as Wordsworth.
A. great B. greater C. greatest
D. more great E. None of the given options

20. The thief was taken to the _____ police station.
A. near B. nearer C. nearest
D. more near E. Most near

21. It is _____ rare to see large sharks in the Mediterranean Sea.
A. credible B. credibly C. incredible
D. incredibly E. None of the given options

22. The minister was forced to resign after the _____ at his ill-considered remarks.
A. cry B. outcry C. incry
D. crying E. None of the given options

23. I had to live in Paris and Madrid for many years because of my business but I don't like _____ city much.
A. All B.whole C. either
D. neither E. None of these

24. I have read ____ books I had.
A. few B. fewer C. the few
D. less E. None of these

25. This book is _____.
A. unique B. more unique C. most unique
D. the most unique E. None of these

26. Both players in the tennis match have been warned by the referee but _____ of them seems to take it seriously.
A. None B. either C. every
D. neither E. None

27. She is _____ poor to give me some money.
A. very B. too C. little
D. some E. None of these

28. Unfortunately, I have _____ talent for music although I have always wanted to be a famous singer.
A. Little B. few C. a few D.plenty of E. None

29. BJP is trying to do _____ Kejriwal. It is heading towards opening Mohalla Clinics in UP.
A. a B. an C. the
D. none of these E. both A and C

Change the following sentences into Indirect Speech.

30. Boys said, "It has been raining since morning."
A. Boys said that it had been raining since morning.
B. Boys said that it has been raining since morning.
C. Boys said that it had raining since morning.
D. Boys said that it is been raining since morning.
E. Boys said that it had been rained since morning.

31. She said to him, "I am leaving now and shall return after two hours."
A. She asked him that she was leaving then and would return after two hours.
B. She told him that she was leaving then and would return after two hours.
C. She told him that she was leaving and would return after two hours.
D. She told him that she has been leaving then and would return after two hours.
E. She told him that she had left then and would return after two hours.

32. The girl said to me," My father went to the market and brought toys for me."
A. The girl told me that my father had gone to the market and had brought toys for her.

B. The girl told me that her father has gone to the market and had brought toys for her.
C. The girl told me that her father had gone to the market and had brought toys for her.
D. The girl told me that her father went to the market and had brought toys for her.
E. The girl told me that her father had gone to the market and has brought toys for her.

33. Her husband said to her, "I shall not go to the office today as I am not feeling well.
A. Her husband told her that he will not go to the office that day as he was not feeling well.
B. Her husband told her that he would not gone to the office that day as he was not feeling well.
C. Her husband told her that he would not go to the office that day as he was not feeling well.
D. Her husband told her that he would not go to the office today as he was not feeling well.
E. Her husband told her that he would not go to the office that day as he had not felt well.

34. My father said to me, "I fear that you have caught cold again."
A. My father asked me that he feared that I had caught cold again.
B. My father told me that he had feared that I had caught cold again.
C. My father told me that he feared that I had caught cold again.
D. My father told me that he feared that you had caught cold again.
E. My father told me that he feared that I have caught cold again.

35. She said to him, "Love begets love."
A. She told him that love begets love.
B. She told him that love begot love.
C. She told him that love had begotten love.
D. She told him that love has begotten love.
E. None of the above.

36. His wife said to him, "Do you know that my servant maid stole our money?"
A. His wife asked him if he knew that her servant maid had stolen their money.
B. His wife told him if he knew that my servant maid had stolen their money.
C. His wife asked him if he had known that her servant maid has stolen their money.
D. His wife asked him if he knew that my servant maid had been stolen their money.
E. None of the above.

37. The boy said, "If I were a king!"
A. The boy wished that he had been a king.
B. The boy had wished that he had been a king.
C. The boy wished that if he had been a king.
D. The boy wished that if he was been a king.
E. None of the above

Change the following sentences into passive voice

38. Daljeet ordered a book for me.
A. A book was ordered for me by Daljeet.
B. I was ordered a book by Daljeet.
C. I were ordered a book by Daljeet.
D. A book was order for me by Daljeet.
E. None of the above.

39. Let her take a break from the work.
A. It had been suggested that she should take a break from the work.
B. It is suggested that she should take a break from the work.
C. It has been suggested that she should take a break from the work.
D. It was suggested that she should take a break from the work.
E. None of the above.

40. Why are they laughing at you?
A. Why are they being laughed at by you?
B. Why are all being laughed at by them?
C. Why are you being laughed at by them?
D. Why are you laughed at by them?
E. None of the above.

41. The hurricane has destroyed many houses.
A. The hurricane has been destroyed by many houses.
B. Many houses destroyed by the hurricane.
C. Many houses had been destroyed by the hurricane.
D. Many houses have been destroyed by the hurricane.
E. None of the above

42. They should shoot the traitors dead.
A. The traitors dead should be shot.
B. The traitors should shot dead.
C. The traitors should be shot dead.
D. The traitors should be shoot dead.
E. None of the above.

43. Whom are you teaching?
A. By whom are you taught?
B. Who is being taught by you?
C. Whom is being taught by you
D. By who is being taught by you?
E. None of the above.

44. We hope that he will recover
A. It is hoped that he will recover.
B. It is hope that he will recover.
C. He will be recovered by hope.
D. He will be recover by hope.
E. None of the above.

45. Her sudden arrival surprised everyone.
A. Everyone was surprise at her sudden arrival.
B. Everyone was surprised by her sudden arrival.
C. Everyone was surprise by her sudden arrival.
D. Everyone was surprised at her sudden arrival.
E. None of the above.

46. Nobody can change the destiny.
A. The destiny cannot be changed.
B. The destiny can be changed.
C. The destiny cannot change.
D. The destiny cannot changed.
E. None of the above.

47. They will build a new bridge next year.
A. A new bridge will be build by them next year.
B. A new bridge will built by them next year.
C. A new bridge will be built by them next year.
D. A new bridge would be built by them next year.
E. None of the above.

Identify the part that contains error.

48. The teacher (A)/ together with his wife and daughter (B)/ were present (C)/ at the annual function to see the performances of little ones (D)/. No error (E)
49. My neighbour along with his children (A)/ are going tonight (B)/ to see the Taj (C) at Agra (D)/. No error (E)
50. The only good thing (A)/ about these pens (B)/ are their colour and their size (C)/. Errors in all the three parts of the sentence (D)/ No Error (E)
51. Neither the chairman (A)/ nor the directors (B)/ was eager (C) to attend the meeting (D)/. No Error (E)
52. Taking their baskets (A)/ the women goes (B)/ to the sea shore (C)/ to collect shells (D)/. No Error (E)
53. The police has (A)/ arrive (B)/ and is investigating the matter (C)/. Errors in all the three parts of the sentence (D)/ No Error (E).
54. The scissors was there (A)/ but the tailor could not (B)/ see them (C)/ as his spectacles were not on his nose (D)./ No Error (E)
55. In this weather (A)/ I don't recommend (B)/ to take the bus (C)/-it takes forever! (D)/ No Error (E).
56. Until some good people (A)/ enter politics, (B)/ there is no point in complaining (C)/ about the state of affairs. (D)/ No Error (E).

57. Being too tired (A)/ and overloaded with work, (B)/ I don't fancy to go out (C)/ the whole weekend. (D)/ No Error (E).
58. Despite the prevalence of small female entrepreneurs (A)/in developing countries, recent research suggest (B)/ that women do not benefit from loans in the same way as men do, (C)/leading to questions about the value of offering financial services to them(D)/ None of the above(E)
59. Thousands of people braved (A)/ incessant rain and gather (B)/ outside the Santacruz Hindu Crematorium to pay respects(C)/ to veteran actor Shashi Kapoor, who passed away on Monday at the age of seventy nine(D)/ None of the above (E)
60. The astronomical fees charge by lawyers(A)/ and the commercialization of (B)/ the legal profession is a violation(C)/ of the fundamental right of the poor to get equal justice(D)/ None of the above (E)
61. The apex court urged (A)/ for a law check the violation(B)/ of professional ethics(C)/ by lawyers(D)/ None of the above (E)
62. The National Disaster Management Authority asked fishermen (A)/ in both eastern and western coasts (B)/not to venture out to sea for the next three days as heavy rainfall is expecting(C)/ in many areas due to cyclone (D)/ None of the above (E)

Identify the word formation process involved in the formation of the given words:

63. Colonization
A. Affixation B. Compounding C. Blending
D. Suppletion E. Clipping
64. Moped
A. Affixation B. Compounding C. Blending
D. Suppletion E. Clipping
65. Worse
A. Affixation B. Compounding C. Blending
D. Suppletion E. Clipping
66. Aspirin
A. Affixation B. Compounding C. Blending
D. Coinage E. Clipping

Identify the following sentences as simple, complex, compound or Compound-complex

67. I'll help you if you help me.
A. Simple B. Compound C. Complex
D. Compound-complex E. None of the above
68. Her name is Sachiko and she comes from Japan.
A. Simple B. Compound C. Complex
D. Compound-complex E. Incorrect expression
69. My mother cooked dinner while I was doing my homework.
A. Simple B. Compound C. Complex
D. Compound-complex E. Both C and D
70. While I was working on my homework, my father cooked the dinner and my mother was asleep in front of the television.
A. Simple B. Compound C. Complex
B. Compound-complex E. Incorrect expression
71. I've brought my umbrella with me in case it rains.
A. Simple B. Compound C. Complex
B. Compound-complex E. Both A and B
72. I don't know why he did that.
A. Simple B. Compound C. Complex
B. Compound-complex E. Both C and D
73. I like playing basketball, and my brother likes playing tennis.
A. Simple B. Compound C. Complex
B. Compound-complex E. Both A and B

Identify the types of the underlined word/words.

74. None <u>but</u> a technician can fix the AC.
A. Adverb B. Preposition C. Adjective
D. Conjunction. E. None of these
75. Vikram couldn't play the match <u>for</u> he injured his knee.
A. Preposition B. Adjective C. Conjunction
D. Verb E. None of these
76. Great achievers are often from a <u>humble</u> background.
A. Noun B. Verb C. Adjective
D. Adverb E. None of these
77. His writing is good <u>but</u> not his spelling.
A. Conjunction B. Adjective C. Preposition
D. Verb E. None of these
78. I hope you appreciate his <u>offering</u> you this position.
A. Past Participle B. Present Participle
C. Gerund D. Bare Infinitive E. Infinitive
79. You might get in trouble for <u>faking</u> illness to avoid assignments.
A. Finite-verb B. Gerund C. Present Participle
D. Bare Infinitive E. Perfect Participle

Read the passage given below and answer the questions that follow (Q. 80-90)

Passage 1

New observations about the age of some globular clusters in our Milky Way galaxy have cast doubt on a long-held theory about how the galaxy was formed. The Milky Way contains about 125 globular clusters (compact groups of anywhere from several tens of thousands to perhaps a million stars) distributed in a roughly spherical halo around the galactic nucleus. The stars in these clusters are believed to have been born during the formation of the galaxy, and so may be considered relics of the original galactic nebula, holding vital clues to the way of the formation took place. The conventional theory of the formation of the galaxy contends that roughly 12 to 13 billion years ago the Milky Way formed over a relatively short time (about 200 million years) when a spherical cloud of gas collapsed under the pressure of its own gravity into a disc surrounded by a halo. Such a rapid formation of the galaxy would mean that all stars in the halo should be very nearly the same age.

However, the astronomer Michael Bolte has found considerable variation in the ages of globular clusters. One of the clusters studied by Bolte is 2 billion years older than most other clusters in the galaxy, while another is 2 billion years younger. A colleague of Bolte contends that the cluster called Palomar 12 is 5 billion years younger than most other globular clusters. To explain the age differences among the globular clusters, astronomers are taking a second look at "renegade" theories. One such newly fashionable theory, first put forward by Richard Larson in the early 1970's, argues that the halo of the Milky Way formed over a period of a billion or more years as hundreds of small gas clouds drifted about, collided, lost orbital energy, and finally collapsed into a centrally condensed elliptical system. Larson's conception of a "lumpy and turbulent" protogalaxy is complemented by computer modeling done in the 1970's by mathematician Alan Toomre, which suggests that closely interacting spiral galaxies could lose enough orbital energy to merge into a single galaxy.

80. The passage is primarily concerned with discussing
A. the importance of determining the age of globular clusters in assessing when the Milky Way galaxy was formed
B. recent changes in the procedure used by astronomers to study the formation of the Milky Way galaxy
C. current disputes among astronomers regarding the size and form of the Milky Way galaxy
D. the effect of new discoveries regarding globular clusters on theories about the formation of the Milky Way galaxy
E. the origin, nature, and significance of groups of stars known as globular clusters
81. According to the passage, one way in which Larson's theory and the conventional theory of the formation of the Milky Way galaxy differs is in their assessment of the
A. amount of time it took to form the galaxy
B. size of the galaxy immediately after its formation
C. particular gas involved in the formation of the galaxy
D. importance of the age of globular clusters in
E. shape of the halo that formed around the galaxy

82. Which of the following, if true, would be most useful in supporting the conclusions drawn from recent observations about globular clusters?
   A. There is firm evidence that the absolute age of the Milky Way galaxy is between 10 and 17 billion years.
   B. A survey reveals that a galaxy close to the Milky Way galaxy contains globular clusters of ages close to the age of Palomar 12.
   C. A mathematical model proves that small gas clouds move in regular patterns.
   D. Space probes indicate that the stars in the Milky Way galaxy are composed of several different types of gas.
   E. A study of over 1,500 individual stars in the halo of the Milky Way galaxy indicates wide discrepancies in their ages.

83. If Bolte and his colleague are both correct, it can be inferred that the globular cluster Paloma 12 is approximately
   A. 5 billion years younger than any other cluster in the galaxy
   B. the same age as most other clusters in the galaxy
   C. 7 billion years younger than another cluster in the galaxy
   D. 12 billion years younger than most other clusters in the galaxy
   E. 2 billion years younger than most other clusters in the galaxy

84. The passage suggests that Toomre's work complements Larson's theory because it
   A. specifies more precisely the time frame proposed by Larson
   B. subtly alters Larson's theory to make it more plausible
   C. supplements Larson's hypothesis with direct astronomical observations
   D. provides theoretical support for the ideas suggested by Larson
   E. expands Larson's theory to make it more widely applicable

85. Which of the following most accurately state a finding of Bolte's research, as described in the passage?
   F. The globular clusters in the Milky Way galaxy are 2 billion years older than predicted by the conventional theory.
   G. The ages of at least some globular clusters in the Milky Way galaxy differ by at leat 4 billion years.
   H. One of the globular clusters in the Milky Way galaxy is 5 billion years younger than most others.
   I. The globular clusters in the Milky Way galaxy are significantly older than the individual stars in the halo.
   J. Most globular clusters in the Milky Way galaxy are between 11 and 15 billion years old.

86. The author of the passage puts the word ‚renegade' (line 6 of para 2) in quotation marks most probably in order to
   A. emphasize the lack of support for the theories in question
   B. contrast the controversial quality of the theories in question with the respectable character of their formulators
   C. generate skepticism about the theories in question
   D. ridicule the scientists who once doubted the theories in question
   E. indicate that the theories in question are no longer as unconventional as they once seemed

Passage 2

In nearly all human populations a majority of individuals can taste the artificially synthesized chemical phenylthiocarbonide (PTC). However, the percentage varies dramatically--from as low as 60% in India to as high as 95% in Africa. That this polymorphism is observed in non-human primates as well indicates a long evolutionary history which, although obviously not acting on PTC, might reflect evolutionary selection for taste discrimination of other, more significant bitter substances, such as certain toxic plants.

A somewhat more puzzling human polymorphism is the genetic variability in earwax, or cerumen, which is observed in two varieties. Among European populations 90% of individuals have a sticky yellow variety rather than a dry, gray one, whereas in northern China these numbers are approximately the reverse. Perhaps like PTC variability, cerumen variability is an incidental expression of something more adaptively significant. Indeed, the observed relationship between cerumen and odorous bodily secretions, to which non-human primates and, toa lesser extent human, pay attention suggests that during the course of human evolution genes affecting body secretions, including cerumen, came under selective influence.

87. It can be inferred from the passage that human populations vary considerably in their
   A. ability to assimilate artificial chemicals
   B. vulnerability to certain toxins found in plants
   C. ability to discern bitterness in taste
   D. sensitivity to certain bodily odors
   E. None of these

88. Which of the following provides the most reasonable explanation for the assertion in the first paragraph that evolutionary history "obviously" did not act on PTC?
   A. PTC is not a naturally occurring chemical but rather has been produced only recently by scientists.
   B. Most humans lack sufficient taste sensitivity to discriminate between PTC and bitter chemicals occurring naturally.
   C. Variability among humans respecting PTC discrimination, like variability respecting earwax, cannot be explained in terms of evolutionary adaptivity.
   D. Unlike non-human primates, humans can discriminate intellectually between toxic and non-toxic bitter substances.
   E. None of these

89. Which of the following best expresses the main idea of the passage?
   A. Artificially synthesized chemicals might eventually serve to alter the course of evolution by desensitizing humans to certain tastes and odors.
   B. Some human polymorphisms might be explained as vestigial evidence of evolutionary adaptations that still serve vital purposes in other primates.
   C. Sensitivity to taste and to odors have been subject to far greater natural selectivity during the evolution of primates than previously thought.
   D. Polymorphism among human populations varies considerably from region to region throughout the world.
   E. None of these

90. It can be inferred from the passage that
   A. The amount of bodily odours and secretion that take place reduce at each stage of evolution.
   B. The extent of attention paid by non-human primates to body secretions is much higher than that of the more evolved human species.
   C. Artificially sythesized chemicals have impaired the extent of sensitivity that human beings have to body secretions.
   D. All of these
   E. None of these

Note: There are five passages in this paper. Read the passages carefully and answer the questions that follow. Each question is followed by multiple statements numbered 1,2,3,4. Please note that there is only ONE CORRECT ANSWER (one among a, b, c, d). Choose the most appropriate answer.

Passage 1

According to Kant, the moral basis of rights is not self-ownership or utility but the idea that we are rational beings, worthy of dignity and respect. The question that Kant tries to answer is: What is the supreme principle of morality? He points out that basing moral principles on preferences and desires or even self-ownership is misunderstanding what morality is all about. He argues instead that morality is all about obeying a universal moral law. We can arrive at the universal moral law through the exercise of rationality. Kant argues that every person is worthy of respect, not because we own ourselves (as the Libertarians would argue) but because we are rational beings, capable of reason; we are also autonomous beings, capable of acting and choosing freely. When we seek pleasure or avoid pain, we aren't really acting freely. We are acting as slaves of our desires.

According to Kant, the moral worth of an action consists not in the consequences that follow from it (as the Utilitarian would argue), but in the intention from which the action is done. What matters is the motive and the motive which gives moral worth to an action is the motive of duty, which in Kantian ethics means doing the right thing for the right reason. But the question arises, how do we know what is our duty in a given situation? Kant says we can do our duty only if we act according to a moral law that is based on reason. Reason can point to us a course of action, a law that binds us all as rational beings. This law or course of action he calls the "categorical imperative." Let us see what he means by this.

In Kant's system there are two categorical imperatives- 1) universalize your maxim and 2) Treat persons as ends, never simply as means. The first principle is called the formula of a universal law: "Act only on the maxim whereby at the same time you can will that it should become a universal law". A maxim is a rule or principle that gives you the reason for a particular action. The second principle is called the formula of humanity as an end. It says "Act in a way that you always treat humanity, whether in your own person or in the person of any other, never simply as a means, but always at the same

time as an end." For Kant, suicide is wrong for the same reason that murder is wrong. Both treat persons as things, and fail to respect humanity as an end in itself.

Questions: (10x1 mark =10 marks)

1. What is right action according to Kant?
   1. An action that is performed with the motive of duty.
   2. An action based on moral law.
   3. An action which is commanded by God
   4. An action which is prescribed by the society

   a)1&3 b) 1&2 c) 2&3 d)3&4
2. How is Kantian concept of freedom different from the Libertarian one?
   1. Kant believes in inner freedom while Libertarians believe in freedom from external interference.
   2. Freedom to do what one wants is the Kantian idea of freedom.
   3. Freedom to do what one wants is the Libertarian idea of freedom.
   4. For Kant, freedom is using one's reason but the libertarian believes in following one's choices.

   a)2&4 b)1&2 c)1&3 d) 1&4
3. How does Kant recommend the use of reason ?
   1. He wants reason to be controlled by our emotions.
   2. He recommends reason to govern our desires.
   3. He wants reason to be used to ensure the best possible result in any situation.
   4. He advises us to use reason to discover our duty.

   a)2&4 b)1&2 c)1&3 d) 1&4
4. What is the Kantian basis for judging an action ?
   1. The outcome of an action decides whether the action is moral or not.
   2. For Kant, only a rational action can be judged moral or immoral.
   3. It is the motive behind the action that should be the basis of judgement.
   4. To follow one's desires without harming others is Kant's view of right action.

   a)2&4 b)1&2 c)2&3 d) 1&4
5. What is Duty according to Kant ?
   1. To follow the society and tradition
   2. To simply obey all the rules of the government is Kant's idea of duty.
   3. To follow the moral law.
   4. To use reason according to the principles of morality.

   a)2&4 b)1&2 c)1&3 d) 3&4
6. How do we rationally discover our duty according to Kant ?
   1. Act on an action which is universalizable.
   2. Act in a way that the moral law is obeyed.
   3. Always treat other human beings as an end, never simply as a means.
   4. Always maximize the happiness of society.

   a) 1,2&3 b)1,3&4 c)1,2,& 4 d)2,3&4

A

7. How is Kant's view different from Bentham on the psychological motive behind any action ?
   1. Kant believes that all our actions should be governed by pleasure and pain.
   2. Bentham believed in psychological hedonism but Kant did not.
   3. Kant believed in duty as the moral end but Bentham believed in happiness.
   4. Bentham believed in respecting freedom but Kant did not.
   a)2&4 b) 2&3 c) 1&2 d) 1&4
8. What is a Categorical Imperative according to Kant ?
   1. An action that is not universalisable.
   2. An action that treats a human being simply as a means.
   3. An action that is universalisable and treats human being as an end.
   4. An action that is done in self interest.
   a)1 b)3 c)2 d)4
9. How does Kant differ from the Libertarian on the issue of suicide?
   1. Suicide is an act of freedom according to Kant.
   2. The libertarian believes that an individual has the right to decide about his life.
   3. According to Kant, suicide is treating one's life with disrespect.
   4. Our moral duty is to honor our life, no matter how difficult the conditions are.
   a) 1,2&3 b)1,3&4 c)1,2,& 4 d)2,3&4
10. A student has 100% attendance and still attends every class. What motive will make this student a Kantian?
   1. The motive to please the teacher.
   2. Bunking might land him in trouble which the student wants to avoid.
   3. The student's duty is to learn and acquire knowledge by attending classes
   4. The fear of punishment.
   a)1 b)2 c)3 d)4

Passage 2

John Rawls, an American philosopher of the 20th century, argues that the way to think about justice is to ask what principles we would agree to in an initial situation of equality. He reasons as follows: If people of a society gather to choose collective principles, it would be difficult to agree because different people coming from different backgrounds (caste, religion, color, background, talent etc.) would favor different principles. So we might settle on a compromise which everyone would agree to follow. But what is the guarantee that the compromise is a fair agreement. This is the first step in thinking about justice according to Rawls. The second step is to devise a way through which we can arrive at a really just arrangement based on fair principles. To do that, we need to consider a thought experiment called the "Veil of ignorance." Suppose that when we gather to choose the principles, we don't know where we will end up in the society i.e. we are choosing behind a "veil of ignorance" that temporarily prevents us from knowing anything about who we are- our class, gender, interests, theories, talents etc. However we are allowed to retain two basic features of a normal human being-

rationality and self-interest. In such an original position of equality, Rawls says that the principles we would agree upon would truly be fair.

What principles would we choose? The two principles Rawls says we would choose are: i) principle of equal basic liberties and ii) the "Difference principle". The first principle is about such basic liberties like freedom of speech or religion. The second principle concerns social and economic inequality and argues that only such socio-economic inequalities that work to the advantage of the least well off members of the society, are permitted. Rawls argues that other principles like utilitarianism, free-market system, meritocracy or caste system will not be acceptable in an original position of equality behind the veil of ignorance. The unique insight that Rawls provides is that there is an underlying element of chance or arbitrariness or "moral luck" that makes these systems unsuitable for governing a society. Distributive justice, therefore, should not be about rewarding moral luck.

Questions: (10x1 mark =10 marks)

11. According to Rawls, Justice is about
    1. finding the principles that we would agree in an initial position of equality.
    2. letting people decide through a majority vote
    3. distributing goods and services equally in the society
    4. A fair way of distributing social goods so that the role of luck is minimized

    a)2&4 b)1&2 c)1&3 d) 1&4
12. The "veil of ignorance" thought experiment of Rawls assumes that
    1. People know about their status, gender, caste, etc.
    2. People should decide on the basis of moral theories.
    3. people are rational and self-interested
    4. The knowledge of background and identity makes people biased.

    a)2&4 b)1&2 c)3&4 d) 1&4
13. According to Rawls, the ideal social contract should be :
    1. in the interest and preference of the majority
    2. according to the religious and cultural traditions of the society
    3. about the basic principles that would be acceptable to everyone
    4. about eliminating the element of moral luck that governs our life prospects.

    a)2&4 b)1&2 c)3&4 d) 1&4
14. How does the Libertarianism compare with Rawls' Egalitarianism ?
    1. Both believe in minimal state.
    2. Libertarians favor minimal state but Rawls does not.
    3. Libertarians believe in distributive justice according to talent but Rawls does not.
    4. Libertarians believes in moral desert while Rawls does not.

    a) 1,2&3 b)1,3&4 c)1,2,& 4 d)2,3&4

A

15. What are the two principles of justice according to Rawls ?
    1. Each person should have equal liberties and rights.
    2. Justice is about making policies that benefit the majority.
    3. Each person should get what he deserves based on his natural talent.
    4. Only an inequality which benefits everyone,especially the least advantaged person in the society should be permitted.

    a)2&4 b)1&2 c)1&3 d) 1&4

16. Why does Rawls believe that only under a "veil of ignorance" can the principles of justice be truly discovered?
    1. Because under this condition there is no possibility of bias.
    2. Because people do not have the capacity to be rational.
    3. Because our background influences our thinking and decisions.
    4. Because only those who have studied ethics can find those principles.

    a)2&4 b) 1&3 c) 1&2 d) 1&4

17. What are the two conditions for "veil of ignorance thought" experiment ?
    1. People should imagine themselves to be without likes and dislikes only.
    2. People should remember the history of their community.
    3. People should only consider themselves as rational and self-interested individuals, nothing else.
    4. People should imagine themselves as having no background, race or gender.

    a)2&4 b) 3&4 c) 1&2 d) 1&4

18. Why is Rawls opposed to a society based on Utilitarian Principles?
    1. Such a society will not be acceptable under the conditions of veil of Ignorance.
    2. Justice in a utilitarian society is based on numbers, not fairness.
    3. Because Utilitarianism believes in taxation
    4. The principle of equal rights and freedom is not respected by Utilitarianism.

    a) 1,2&3 b)1,3&4 c)1,2,& 4 d)2,3&4

19. Why is Rawls opposed to a society based on Libertarianism?
    1. Libertarianism does not give equal opportunity to all.
    2. Libertarianism does not respect freedom and rights.
    3. It believes that justice is based on moral desert.
    4. It allows moral luck to decide an individual's life.

    a)2&4 b) 3&4 c) 1&2 d) 1&4

20. What are the central objections by Rawls to other systems of distributive justice ?
    1. They are all based on some form of moral luck.
    2. They are not based on rational principles.
    3. In an original position of equality, those systems will not be acceptable.
    4. They are all influenced by culture and traditions.

    a)2&4 b)1&2 c)1&3 d) 1&4

Passage 3

Modern theories of justice try to separate questions of fairness and rights from arguments about honor, virtue and moral desert. They seek principles of justice that are

neutral and enable people to choose and pursue their ends for themselves. Aristotle does not think justice can be neutral in that way. He believes that debates about justice are unavoidably debates about honor, virtue and the nature of the good life. Seeing why Aristotle thinks justice and good life are connected will help us to see what is at stake to separate them.

For Aristotle justice means giving people what they deserve, giving each person his or her due. What are the relevant grounds of deserving something? That depends on what is being distributed. Justice involves two factors: "things, and the persons to whom things are assigned." Suppose we are distributing flutes. Who should get the best ones? Aristotle's answer: The best flute players. In the case of flute playing, the relevant merit is the ability to play well. It would be unjust to give it on any other basis, such as wealth, or nobility of birth, or physical beauty or chance. The purpose of flutes is to produce excellent music. Those who can best realize this purpose ought to have the best ones. Aristotle's way of reasoning from the purpose of a thing to the proper allocation of the thing is an example of teleological reasoning. Aristotle claims that in order to determine the just distribution of a good, we have to enquire into the telos or purpose of the good being distributed. In politics too, Aristotle sees a purpose. According to him, politics is about forming good citizens and cultivating good character. For Aristotle, democracy is not the right way to choose leaders because it is not the purpose of politics to satisfy the preference of the majority. The purpose of politics is something higher. It is about learning how to live a good and virtuous life.

Questions: (6x1 mark =6 marks)

21. How is Aristotle's theory of justice different from the other theories ?
    1. For Aristotle, justice is connected to purpose or goal of a thing or practice.
    2. Justice is about providing comfortable life to all.
    3. It is based on rights and liberties while others are not.
    4. Aristotle believes that justice is about promoting virtuous living.

    a)2&4 b)1&2 c)1&3 d) 1&4
22. What is the purpose of a social practice or office in Aristotle's view ?
    1. It is to ensure that law is obeyed by everyone.
    2. A social practice should reward and honor the deserving.
    3. It is to achieve social benefit.
    4. It should be given to those whose nature is best suited for that office.

    a)2&4 b)1&2 c)1&3 d) 1&4
23. Which of the following is true of Aristotle's Virtue theory ?
    1. Morality is about whether an action fulfils a purpose or not.
    2. Virtue is about whether an action has been done freely or not.
    3. Morality is about rewarding virtue.
    4. Virtue shown in an action depends on the character of the person.

    a) 1,2&3 b)1,3&4 c)1,2,& 4 d)2,3&4

24. What do you mean by the Golden Mean principle ?
    1. An action that achieves the best result is the right action.
    2. An action done from a balanced state of mind is the right action.
    3. There is a middle path between two extremes that should be followed.
    4. One should simply follow one's heart and do the action.
    a)2&4 b)1&2 c)2&3 d) 1&4
25. How are social goods to be distributed according to Aristotle?
    1. People should be given according to what they deserve.
    2. A society should aim at equality.
    3. Justice should be based on the concept of purpose of the thing being distributed.
    4. The preference of the majority should be the deciding factor.
    a. 1&2 b. 1,2&3 c. 1&3 d. 2&4
26. Who according to Aristotle deserves the best flutes and why?
    1. One who wants to play it so as to earn a living for his family.
    2. One who can pay the highest price for it.
    3. One who plays it best because flute is meant to create good music.
    4. One who wants to play the flute to please an audience.
    a. 1 b. 2 c. 3 d. 4

Passage 4

According to some thinkers, justice in society means to give one what he/she deserves. In other words, the distribution of social goods should be based on one's talent and skill and those who possess them deserve to get the best that the society has to offer. This argument is called "moral desert". Aristotle is a great example of someone who believed in moral desert. However, some policies of governments all around the world appear to go against this principle- in particular, the policy of "Affirmative action" which is also commonly known as Reservation. The moral desert argument does not seem to apply on "Affirmative action" – the policy by which a government usually acts pro-actively to redress the past injustice to certain sections of society by reserving seats and positions in the areas of education, employment and business. Many consider it unfair to give preference to candidates coming from a certain social background. However, others like Rawls believed that justice in society is not about simply rewarding talent.

Let us try to understand three basic arguments for Affirmative action : 1) Corrective argument: It says that scores or marks have to be interpreted keeping in mind the backgrounds and conditions of a candidate to assess real academic merit. 2) Compensatory argument: It points out the fact that advantaged sections of society today should compensate the disadvantaged groups who have been deprived of basic resources for development in the past, and 3) Diversity argument: It maintains that the various groups who make up the whole society should be given proper and proportionate socio-political representation in terms of education, job and business. They argue from a purpose point of view; the purpose of a social institution-whether university, corporation or politics is not to reward merit but to achieve a more harmonious society.

Reservation alone is not the solution to address the inequalities of a society. It is difficult to separate justice from merit and virtue. The policy should purposefully lessen the socio-economic gaps amongst the people so that they can all compete in the race of development with, if not an equal start, then at least, a fair start. Reservation in this way can rationally be based on socio-economic real facts and conditions, and the socio-economic benefits should be distributed to those who really deserve without considering the arbitrary facts like cast, class, race and gender.

Questions: (6x1 mark =6 marks)

27. Which of the following points are right about the "moral desert" argument?
    1. One should be rewarded on the grounds of merit.
    2. Talent should be the basis for distributing income and opportunities.
    3. Distribution of social goods should be based on welfare of society.
    4. Socio-economic inequality should be for least well-off

    a)2&3 b)1&2 c)2&4 d)1,3&4

28. Which of the following statements are NOT true about Affirmative Action Theory?

1. A government should not take positive actions to redress the wrongs of past.
2. Some disadvantaged groups of people have to compensate for some advantaged groups of people.
3. The different variety of groups who actually make up the whole society should be given proper and proportionate socio-political-economic representation.
4. Socio-economic inequalities should not be based on arbitrary facts

a) 1&2 b) 1&4 c) 2&3 d) 2&4

29. Why do libertarians criticize the policy of Affirmative Action ?

1. Because it is not based on a policy of free competition
2. Because the policy does not respect the merit-based selection.
3. Because it does not achieve maximum welfare in the society.
4. Because it is about the interference of government in limiting people's choices.

a) 1,2&3 b)1,2&4 c)1,3&4 d)2,3&4

30. Which of the following are true about the Diversity argument for Affirmative action?
    1. It says that merit should be honored and rewarded.
    2. It says that people of all background should be represented in an institution.
    3. It believes that promoting multiculturalism should be an aim of society.
    4. Promoting better understanding of each other in the society should be a priority.

    a)1,2&4 b)2,3&4 c)1,2&3 d)1,3&4

31. Which of the following are true about the "Corrective Argument" ?
    1. Merit is about interpreting the scores in the right manner.
    2. Marks have to be adjusted/corrected for the social background to assess merit.
    3. It is correct to allow lesser scores to get admission.
    4. Society needs to correct the inequalities in our current situation.

    a)1,2&4 b)2,3&4 c)1,2&3 d)1,3&4

32. What is the "compensatory argument" for Affirmative action?
    1. History has been unfair to some sections of the society in the past.
    2. We cannot do anything in the present for past wrongs.
    3. The past wrongs done to some should be corrected through this policy.
    4. The present generation has a responsibility to address past injustice.

    a)1,2&4 b)2,3&4 c)1,2&3 d)1,3&4

Passage 5 (Attempt All Questions)

To ask whether a society is just is to ask how it distributes the things we prize-income and wealth, duties and rights, powers and opportunities, offices and honours. Different principles suggest different ways in which a just society should distribute the things that we value. Some say that it should be about social welfare more than anything else. Others believe that distributive justice is about free competition in a society where everyone has equal rights and liberties. A third school of thought lays more emphasis on justice being about honoring virtues. Thus there are basically three different ways to understand justice in society: Welfare approach, the Freedom & Rights approach and the Virtue approach.

The welfare approach is based on the principle of utilitarianism. For a Utilitarian like Bentham, happiness is simply about experience of pleasure and absence of pain. People are happy insofar as they feel pleasure, unhappy insofar as they feel pain; there is nothing else that goes into happiness. Abilities, knowledge, friendship, love—all these are only means to achieving pleasure. For Bentham, there is no intrinsic difference among different kinds of pleasures. They only differ in degrees of intensity, not in kind. Mill later modified it to include higher pleasures and qualities of happiness as well. The ultimate principle, however, remained that the right thing to do is whatever produces the greatest amount of happiness for the greatest number.

Libertarians disagree on this point and argue that we must never violate anyone's rights—even if doing so would increase overall happiness. According to libertarians, the greatest threat to individual rights comes from the government. Governments use their power to restrict the freedom of its citizens by either making laws that interfere with our life or by telling us how to live our life. Libertarians feel that tax on our earnings or income is also in some ways a violation of our rights to enjoy the fruits of our labor. They argue that forcing us to pay tax is no different from slavery. In contrast to Utilitarians, who believe that the right thing to do is always to maximize happiness, the Libertarians think that the right thing to do is to let people do whatever they want as long as they don't interfere with other's rights.

Kant holds the view that rationality is the goal of morality; unlike the libertarians, Kant denies that freedom consists in doing whatever one wants. Kant thinks that morality is a kind of universal law which everyone has to obey. Therefore, he thinks it must be the case that everyone could obey it. This is his test for morality. According to Kant, your action is moral only if you acted on a maxim that is universalizable - which you can wish to become a universal law. Morality of an action depends on whether it was done with this sense of duty, or not.

Questions: (16 X .5 mark=8marks)

33) Which of the following statements are right according to Bentham?

1. Pleasure and pain differ only in quantity, not in quality.
2. There is no qualitative difference amongst the pleasures.
3. We should aim at maximizing pleasure of maximum number.
4. We should aim at pleasures that are qualitatively higher.

a) 1,2 &3 b)1, 3&4 c) 1,2,&4 d) 2,3 &4

34) Which of the following statements are true about the Libertarians?

1. We must not violate anyone's rights.
2. The greatest threat to individual rights comes from the government.
3. Individual liberty depends on whether social welfare is achieved or not
4. A government should not pass moral legislation for individuals.

a) 1,3&4 b)1,2&3 c)2,3&4 d)1,2&4

35) Libertarians believe that certain actions like smoking or drinking are a matter of choice and laws prohibiting them are unfair. Why would Kant disagree with this view?

1. Because these actions do not give us pleasure.
2. Actions should obey moral law, not our feelings.
3. By harming ourselves, we are treating human life simply as an object.
4. Because duty is less important than pleasure

a)1&2 b)3&4 c)2&3 d)1&3

36) Which of the following statements are true about the Kantian system of morality?

1. Happiness is the goal of morality.
2. Reason should be a guide in ethical matters.
3. Morality is to discover moral law through feelings.
4. Morality is to be motivated by a sense of duty.

a)2&4 b)1&2 c)1&3 d) 1&4

37) What are the main problems of Utilitarianism ?

1. It does not have a conception of rights.
2. It allows injustice in a society if maximization of happiness is obtained.
3. It considers all pleasures to be equal, especially in Bentham's case.
4. It does not believe that morality has any relation with religion or tradition.

a) 1,2 &3 b)1, 3&4 c) 1,2,&4 d) 2,3 &4

38) What are the features of Utilitarian mode of reasoning ?

1. It only considers the results of an action while making decisions.
2. It only considers the motive in judging an action.
3. It calculates the net benefit or loss arising from a decision.
4. It is based on whether an action is in accordance with duty or not.

a)2&4 b)1&2 c)1&3 d) 1&4

39) How is Utilitarianism related to psychological hedonism ?

1. Both believe that rationality can govern our actions.
2. Both believe that all our actions are motivated by pleasure and pain.
3. Both believe that we should aim at maximizing our own happiness
4. Utilitarianism believes in greatest happiness of all which hedonism does not.

a)2&4 b)1&2 c)1&3 d) 1&4

40) In a puzzling ethical situation, how will a libertarian decide what to do ?

1. By judging whether the action respects an individual's self-ownership or not.
2. The decision should not violate one's basic rights.
3. The outcome of the decision should be favorable for most of the people involved.
4. No one's freedom should be violated in implementing the decision.

a) 1,2 &3 b)1, 3&4 c) 1,2,&4 d) 2,3 &4

41) If an action affects other people, how would the Libertarian judge it ?

1. By measuring the happiness and unhappiness that it causes others.
2. Whether others' wish or consent has been respected or not.
3. Whether the action results in the welfare of the society as a whole or not.
4. If the action respects individual freedom or not.

a) 1&4 b)1&2 c)1&3 d) 2&4

42) Which of the following questions will **not** be a part of Utilitarian decision- making process ?

1. What is my duty towards each person?
2. Does my action lead to any injustice ?
3. Is the action going to lead to overall happiness of the community ?
4. Am I following the moral law ?

a) 1,2 &3 b)1, 3&4 c) 1,2,&4 d) 2,3 &4

43) What arguments can a Utilitarian give in favour of high-tax on individual's income?

1. By taxing the wealthy, the inequality in the society is reduced.
2. Tax makes it possible to use the collected money for welfare of all.
3. It makes people work harder.
4. By taxing the rich and using it for the poor, the overall happiness increases.

a) 1,2 &3 b) 1,2,&4 c) 1, 3&4 d) 2,3 &4

44) Why does a Libertarian oppose high tax ?

1. It is a violation of an individual's free choice.
2. Taxation questions one's right to the fruits of one's labour.
3. High tax discourages people from working harder.
4. It is used to maintain law and order in the society.

a)2&4 b)1&2 c)1&3 d) 1&4

45) Why does the Libertarian equate high tax with slavery ?

1. Because in earlier times slavery was a form of tax.
2. Because one has no choice in matter of tax.
3. Because rich people have to work like slaves to pay tax
4. They say that taxation is equivalent to bonded labor which is slavery.

a) 1&4 b)1&2 c)1&3 d) 2&4

46) Which of the following questions would be a part of Kantian decision making ?

1. Is my decision based on satisfying my desire ?
2. Am I doing my duty in this situation ?
3. Am I acting rationally or emotionally ?
4. Is my decision going to benefit everyone?

a) 1,2 &3 b)1, 3&4 c) 1,2,&4 d) 2,3 &4

47) In the Richard Parker case, which of the following are true?

1. The Captain's action was based on Libertarian Principles.
2. The captain's action was based on Utilitarian principles.
3. The Captain's action was violation of Parker's right and consent.
4. The Captain's action was based on Kantian principles.

a)1&4 b)1&2 c)1&3 d) 2&3

48) How do different ethical thinkers view the role of desire and reason in action ?

1. According to Bentham, reason has no role to play in ethical action.
2. According to Mill, ethical action is about following one's desires.
3. According to Kant, ethical action is about acting rationally.
4. None of these

Note: There are five passages in this paper. Read the passages carefully and answer the questions that follow. Each question is followed by multiple statements numbered 1,2,3,4. Please note that there is only ONE CORRECT ANSWER (one among a, b, c, d). Choose the most appropriate answer.

Passage 1

Modern theories of justice try to separate questions of fairness and rights from arguments about honor, virtue and moral desert. They seek principles of justice that are neutral and enable people to choose and pursue their ends for themselves. Aristotle does not think justice can be neutral in that way. He believes that debates about justice are unavoidably debates about honor, virtue and the nature of the good life. Seeing why Aristotle thinks justice and good life are connected will help us to see what is at stake to separate them. For Aristotle justice means giving people what they deserve, giving each person his or her due. What are the relevant grounds of deserving something? That depends on what is being distributed. Justice involves two factors: "things, and the persons to whom things are assigned." Suppose we are distributing flutes. Who should get the best ones? Aristotle's answer: The best flute players. In the case of flute playing, the relevant merit is the ability to play well. It would be unjust to give it on any other basis, such as wealth, or nobility of birth, or physical beauty or chance. The purpose of flutes is to produce excellent music. Those who can best realize this purpose ought to have the best ones. Aristotle's way of reasoning from the purpose of a thing to the proper allocation of the thing is an example of teleological reasoning. Aristotle claims that in order to determine the just distribution of a good, we have to enquire into the telos or purpose of the good being distributed. In politics too, Aristotle sees a purpose. According to him, politics is about forming good citizens and cultivating good character. For Aristotle, democracy is not the right way to choose leaders because it is not the purpose of politics to satisfy the preference of the majority. The purpose of politics is something higher. It is about learning how to live a good and virtuous life.

Questions: (6x1 mark =6 marks)

1. How is Aristotle's theory of justice different from the other theories ?
   1. For Aristotle, justice is connected to purpose or goal of a thing or practice.
   2. Justice is about providing comfortable life to all.
   3. It is based on rights and liberties while others are not.
   4. Aristotle believes that justice is about promoting virtuous living.

   a)2&4 b)1&2 c)1&3 d) 1&4

2. What is the purpose of a social practice or office in Aristotle's view ?
   1. It is to ensure that law is obeyed by everyone.
   2. A social practice should reward and honor the deserving.
   3. It is to achieve social benefit.
   4. It should be given to those whose nature is best suited for that office.

   a)2&4 b)1&2 c)1&3 d) 1&4
3. Which of the following is true of Aristotle's Virtue theory ?
   1. Morality is about whether an action fulfils a purpose or not.
   2. Virtue is about whether an action has been done freely or not.
   3. Morality is about rewarding virtue.
   4. Virtue shown in an action depends on the character of the person.

   a) 1,2&3 b)1,3&4 c)1,2,& 4 d)2,3&4
4. What do you mean by the Golden Mean principle ?
   1. An action that achieves the best result is the right action.
   2. An action done from a balanced state of mind is the right action.
   3. There is a middle path between two extremes that should be followed.
   4. One should simply follow one's heart and do the action.

   a)2&4 b)1&2 c)2&3 d) 1&4
5. How are social goods to be distributed according to Aristotle?
   1. People should be given according to what they deserve.
   2. A society should aim at equality.
   3. Justice should be based on the concept of purpose of the thing being distributed.
   4. The preference of the majority should be the deciding factor.

   a. 1&2 b. 1,2&3 c. 1&3 d. 2&4
6. Who according to Aristotle deserves the best flutes and why?
   1. One who wants to play it so as to earn a living for his family.
   2. One who can pay the highest price for it.
   3. One who plays it best because flute is meant to create good music.
   4. One who wants to play the flute to please an audience.

   a. 1 b. 2 c. 3 d. 4

Passage 2

John Rawls, an American philosopher of the 20th century, argues that the way to think about justice is to ask what principles we would agree to in an initial situation of equality. He reasons as follows: If people of a society gather to choose collective principles, it would be difficult to agree because different people coming from different backgrounds (caste, religion, color, background, talent etc.) would favor different principles. So we might settle on a compromise which everyone would agree to follow. But what is the guarantee that the compromise is a fair agreement. This is the first step in thinking about justice according to Rawls. The second step is to devise a way through which we can arrive at a really just arrangement based on fair principles. To do that, we need to consider a thought experiment called the "Veil of ignorance." Suppose that

B

when we gather to choose the principles, we don't know where we will end up in the society i.e. we are choosing behind a "veil of ignorance" that temporarily prevents us from knowing anything about who we are- our class, gender, interests, theories, talents etc. However we are allowed to retain two basic features of a normal human being- rationality and self-interest. In such an original position of equality, Rawls says that the principles we would agree upon would truly be fair.

What principles would we choose? The two principles Rawls says we would choose are: i) principle of equal basic liberties and ii) the "Difference principle". The first principle is about such basic liberties like freedom of speech or religion. The second principle concerns social and economic inequality and argues that only such socio-economic inequalities that work to the advantage of the least well off members of the society, are permitted. Rawls argues that other principles like utilitarianism, free-market system, meritocracy or caste system will not be acceptable in an original position of equality behind the veil of ignorance. The unique insight that Rawls provides is that there is an underlying element of chance or arbitrariness or "moral luck" that makes these systems unsuitable for governing a society. Distributive justice, therefore, should not be about rewarding moral luck.

Questions: (10x1 mark =10 marks)

7. According to Rawls, Justice is about
   1. finding the principles that we would agree in an initial position of equality.
   2. letting people decide through a majority vote
   3. distributing goods and services equally in the society
   4. A fair way of distributing social goods so that the role of luck is minimized

   a)2&4 b)1&2 c)1&3 d) 1&4
8. The "veil of ignorance" thought experiment of Rawls assumes that
   1. People know about their status, gender, caste, etc.
   2. People should decide on the basis of moral theories.
   3. people are rational and self-interested
   4. The knowledge of background and identity makes people biased.

   a)2&4 b)1&2 c)3&4 d) 1&4
9. According to Rawls, the ideal social contract should be :
   1. in the interest and preference of the majority
   2. according to the religious and cultural traditions of the society
   3. about the basic principles that would be acceptable to everyone
   4. about eliminating the element of moral luck that governs our life prospects.

   a)2&4 b)1&2 c)3&4 d) 1&4
10. How does the Libertarianism compare with Rawls' Egalitarianism ?
    1. Both believe in minimal state.
    2. Libertarians favor minimal state but Rawls does not.
    3. Libertarians believe in distributive justice according to talent but Rawls does not.
    4. Libertarians believes in moral desert while Rawls does not.

    a) 1,2&3 b)1,3&4 c)1,2,& 4 d)2,3&4

11. What are the two principles of justice according to Rawls ?
    1. Each person should have equal liberties and rights.
    2. Justice is about making policies that benefit the majority.
    3. Each person should get what he deserves based on his natural talent.
    4. Only an inequality which benefits everyone,especially the least advantaged person in the society should be permitted.

    a)2&4 b)1&2 c)1&3 d)-1&4

12. Why does Rawls believe that only under a "veil of ignorance" can the principles of justice be truly discovered?
    1. Because under this condition there is no possibility of bias.
    2. Because people do not have the capacity to be rational.
    3. Because our background influences our thinking and decisions.
    4. Because only those who have studied ethics can find those principles.

    a)2&4 b) 1&3 c) 1&2 d) 1&4

13. What are the two conditions for "veil of ignorance thought" experiment ?
    1. People should imagine themselves to be without likes and dislikes only.
    2. People should remember the history of their community.
    3. People should only consider themselves as rational and self-interested individuals, nothing else.
    4. People should imagine themselves as having no background, race or gender.

    a)2&4 b) 3&4 c) 1&2 d) 1&4

14. Why is Rawls opposed to a society based on Utilitarian Principles?
    1. Such a society will not be acceptable under the conditions of veil of Ignorance.
    2. Justice in a utilitarian society is based on numbers, not fairness.
    3. Because Utilitarianism believes in taxation
    4. The principle of equal rights and freedom is not respected by Utilitarianism.

    a) 1,2&3 b)1,3&4 c)1,2,& 4 d)2,3&4

15. Why is Rawls opposed to a society based on Libertarianism?
    1. Libertarianism does not give equal opportunity to all.
    2. Libertarianism does not respect freedom and rights.
    3. It believes that justice is based on moral desert.
    4. It allows moral luck to decide an individual's life.

    a)2&4 b) 3&4 c) 1&2 d) 1&4

16. What are the central objections by Rawls to other systems of distributive justice ?
    1. They are all based on some form of moral luck.
    2. They are not based on rational principles.
    3. In an original position of equality, those systems will not be acceptable.
    4. They are all influenced by culture and traditions.

    a)2&4 b)1&2 c)1&3 d) 1&4

B

Passage 3

According to Kant, the moral basis of rights is not self-ownership or utility but the idea that we are rational beings, worthy of dignity and respect. The question that Kant tries to answer is: What is the supreme principle of morality? He points out that basing moral principles on preferences and desires or even self-ownership is misunderstanding what morality is all about. He argues instead that morality is all about obeying a universal moral law. We can arrive at the universal moral law through the exercise of rationality. Kant argues that every person is worthy of respect, not because we own ourselves (as the Libertarians would argue) but because we are rational beings, capable of reason; we are also autonomous beings, capable of acting and choosing freely. When we seek pleasure or avoid pain, we aren't really acting freely. We are acting as slaves of our desires.

According to Kant, the moral worth of an action consists not in the consequences that follow from it (as the Utilitarian would argue), but in the intention from which the action is done. What matters is the motive and the motive which gives moral worth to an action is the motive of duty, which in Kantian ethics means doing the right thing for the right reason. But the question arises, how do we know what is our duty in a given situation? Kant says we can do our duty only if we act according to a moral law that is based on reason. Reason can point to us a course of action, a law that binds us all as rational beings. This law or course of action he calls the "categorical imperative." Let us see what he means by this.

In Kant's system there are two categorical imperatives- 1) universalize your maxim and 2) Treat persons as ends, never simply as means. The first principle is called the formula of a universal law: "Act only on the maxim whereby at the same time you can will that it should become a universal law". A maxim is a rule or principle that gives you the reason for a particular action. The second principle is called the formula of humanity as an end. It says "Act in a way that you always treat humanity, whether in your own person or in the person of any other, never simply as a means, but always at the same time as an end." For Kant, suicide is wrong for the same reason that murder is wrong. Both treat persons as things, and fail to respect humanity as an end in itself.

Questions: (10x1 mark =10 marks)

17. What is right action according to Kant?
    1. An action that is performed with the motive of duty.
    2. An action based on moral law.
    3. An action which is commanded by God
    4. An action which is prescribed by the society

    a)1&3 b) 1&2 c) 2&3 d)3&4

18. How is Kantian concept of freedom different from the Libertarian one?

1. Kant believes in inner freedom while Libertarians believe in freedom from external interference.
2. Freedom to do what one wants is the Kantian idea of freedom.
3. Freedom to do what one wants is the Libertarian idea of freedom.
4. For Kant, freedom is using one's reason but the libertarian believes in following one's choices.

a)2&4 b)1&2 c)1&3 d) 1&4

19. How does Kant recommend the use of reason ?

1. He wants reason to be controlled by our emotions.
2. He recommends reason to govern our desires.
3. He wants reason to be used to ensure the best possible result in any situation.
4. He advises us to use reason to discover our duty.

a)2&4 b)1&2 c)1&3 d) 1&4

20. What is the Kantian basis for judging an action ?

1. The outcome of an action decides whether the action is moral or not.
2. For Kant, only a rational action can be judged moral or immoral.
3. It is the motive behind the action that should be the basis of judgement.
4. To follow one's desires without harming others is Kant's view of right action.

a)2&4 b)1&2 c)2&3 d) 1&4

21. What is Duty according to Kant ?

1. To follow the society and tradition
2. To simply obey all the rules of the government is Kant's idea of duty.
3. To follow the moral law.
4. To use reason according to the principles of morality.

a)2&4 b)1&2 c)1&3 d) 3&4

22. How do we rationally discover our duty according to Kant ?

1. Act on an action which is universalizable.
2. Act in a way that the moral law is obeyed.
3. Always treat other human beings as an end, never simply as a means.
4. Always maximize the happiness of society.

a) 1,2&3 b)1,3&4 c)1,2,& 4 d)2,3&4

23. How is Kant's view different from Bentham on the psychological motive behind any action ?

1. Kant believes that all our actions should be governed by pleasure and pain.
2. Bentham believed in psychological hedonism but Kant did not.
3. Kant believed in duty as the moral end but Bentham believed in happiness.
4. Bentham believed in respecting freedom but Kant did not.

a)2&4 b) 2&3 c) 1&2 d) 1&4

24. What is a Categorical Imperative according to Kant ?
1. An action that is not universalisable.
2. An action that treats a human being simply as a means.
3. An action that is universalisable and treats human being as an end.
4. An action that is done in self interest.

a)1 b)3 c)2 d)4

25. How does Kant differ from the Libertarian on the issue of suicide?
1. Suicide is an act of freedom according to Kant.
2. The libertarian believes that an individual has the right to decide about his life.
3. According to Kant, suicide is treating one's life with disrespect.
4. Our moral duty is to honor our life, no matter how difficult the conditions are.

a) 1,2&3 b)1,3&4 c)1,2,& 4 d)2,3&4

26. A student has 100% attendance and still attends every class. What motive will make this student a Kantian?
1. The motive to please the teacher.
2. Bunking might land him in trouble which the student wants to avoid.
3. The student's duty is to learn and acquire knowledge by attending classes
4. The fear of punishment.

a)1 b)2 c)3 d)4

Passage 4

According to some thinkers, justice in society means to give one what he/she deserves. In other words, the distribution of social goods should be based on one's talent and skill and those who possess them deserve to get the best that the society has to offer. This argument is called "moral desert". Aristotle is a great example of someone who believed in moral desert. However, some policies of governments all around the world appear to go against this principle- in particular, the policy of "Affirmative action" which is also commonly known as Reservation. The moral desert argument does not seem to apply on "Affirmative action" – the policy by which a government usually acts pro-actively to redress the past injustice to certain sections of society by reserving seats and positions in the areas of education, employment and business. Many consider it unfair to give preference to candidates coming from a certain social background. However, others like Rawls believed that justice in society is not about simply rewarding talent.

Let us try to understand three basic arguments for Affirmative action : 1) Corrective argument: It says that scores or marks have to be interpreted keeping in mind the backgrounds and conditions of a candidate to assess real academic merit. 2) Compensatory argument: It points out the fact that advantaged sections of society today should compensate the disadvantaged groups who have been deprived of basic resources for development in the past, and 3) Diversity argument: It maintains that the various groups who make up the whole society should be given proper and proportionate socio-political representation in terms of education, job and business. They argue from a

purpose point of view; the purpose of a social institution-whether university, corporation or politics is not to reward merit but to achieve a more harmonious society.
Reservation alone is not the solution to address the inequalities of a society. It is difficult to separate justice from merit and virtue. The policy should purposefully lessen the socio-economic gaps amongst the people so that they can all compete in the race of development with, if not an equal start, then at least, a fair start. Reservation in this way can rationally be based on socio-economic real facts and conditions, and the socio-economic benefits should be distributed to those who really deserve without considering the arbitrary facts like cast, class, race and gender.

Questions: (6x1 mark =6 marks)

27. Which of the following points are right about the "moral desert" argument?
    1. One should be rewarded on the grounds of merit.
    2. Talent should be the basis for distributing income and opportunities.
    3. Distribution of social goods should be based on welfare of society.
    4. Socio-economic inequality should be for least well-off

    a)2&3 b)1&2 c)2&4 d)1,3&4

28. Which of the following statements are NOT true about Affirmative Action Theory?
1. A government should not take positive actions to redress the wrongs of past.
2. Some disadvantaged groups of people have to compensate for some advantaged groups of people.
3. The different variety of groups who actually make up the whole society should be given proper and proportionate socio-political-economic representation.
4. Socio-economic inequalities should not be based on arbitrary facts

    a) 1&2 b) 1&4 c) 2&3 d) 2&4

29. Why do libertarians criticize the policy of Affirmative Action ?
1. Because it is not based on a policy of free competition
2. Because the policy does not respect the merit-based selection.
3. Because it does not achieve maximum welfare in the society.
4. Because it is about the interference of government in limiting people's choices.

    a) 1,2&3 b)1,2&4 c)1,3&4 d)2,3&4

30. Which of the following are true about the Diversity argument for Affirmative action?
    1. It says that merit should be honored and rewarded.
    2. It says that people of all background should be represented in an institution.
    3. It believes that promoting multiculturalism should be an aim of society.
    4. Promoting better understanding of each other in the society should be a priority.

    a)1,2&4 b)2,3&4 c)1,2&3 d)1,3&4

31. Which of the following are true about the "Corrective Argument" ?
    1. Merit is about interpreting the scores in the right manner.
    2. Marks have to be adjusted/corrected for the social background to assess merit.
    3. It is correct to allow lesser scores to get admission.
    4. Society needs to correct the inequalities in our current situation.
    a)1,2&4 b)2,3&4 c)1,2&3 d)1,3&4

32. What is the "compensatory argument" for Affirmative action?
    1. History has been unfair to some sections of the society in the past.
    2. We cannot do anything in the present for past wrongs.
    3. The past wrongs done to some should be corrected through this policy.
    4. The present generation has a responsibility to address past injustice.
    a)1,2&4 b)2,3&4 c)1,2&3 d)1,3&4

Passage 5 (Attempt All Questions)

To ask whether a society is just is to ask how it distributes the things we prize-income and wealth, duties and rights, powers and opportunities, offices and honours. Different principles suggest different ways in which a just society should distribute the things that we value. Some say that it should be about social welfare more than anything else. Others believe that distributive justice is about free competition in a society where everyone has equal rights and liberties. A third school of thought lays more emphasis on justice being about honoring virtues. Thus there are basically three different ways to understand justice in society: Welfare approach, the Freedom & Rights approach and the Virtue approach.

The welfare approach is based on the principle of utilitarianism. For a Utilitarian like Bentham, happiness is simply about experience of pleasure and absence of pain. People are happy insofar as they feel pleasure, unhappy insofar as they feel pain; there is nothing else that goes into happiness. Abilities, knowledge, friendship, love—all these are only means to achieving pleasure. For Bentham, there is no intrinsic difference among different kinds of pleasures. They only differ in degrees of intensity, not in kind. Mill later modified it to include higher pleasures and qualities of happiness as well. The ultimate principle, however, remained that the right thing to do is whatever produces the greatest amount of happiness for the greatest number.

Libertarians disagree on this point and argue that we must never violate anyone's rights—even if doing so would increase overall happiness. According to libertarians, the greatest threat to individual rights comes from the government. Governments use their power to restrict the freedom of its citizens by either making laws that interfere with our life or by telling us how to live our life. Libertarians feel that tax on our earnings or income is also in some ways a violation of our rights to enjoy the fruits of our labor. They argue that forcing us to pay tax is no different from slavery. In contrast to Utilitarians, who believe that the right thing to do is always to maximize happiness, the

Libertarians think that the right thing to do is to let people do whatever they want as long as they don't interfere with other's rights.

Kant holds the view that rationality is the goal of morality; unlike the libertarians, Kant denies that freedom consists in doing whatever one wants. Kant thinks that morality is a kind of universal law which everyone has to obey. Therefore, he thinks it must be the case that everyone could obey it. This is his test for morality. According to Kant, your action is moral only if you acted on a maxim that is universalizable - which you can wish to become a universal law. Morality of an action depends on whether it was done with this sense of duty, or not.

Questions: (16 X .5 mark=8marks)

33) Which of the following statements are right according to Bentham?

1. Pleasure and pain differ only in quantity, not in quality.
2. There is no qualitative difference amongst the pleasures.
3. We should aim at maximizing pleasure of maximum number.
4. We should aim at pleasures that are qualitatively higher.

a) 1,2 &3 b)1, 3&4 c) 1,2,&4 d) 2,3 &4

34) Which of the following statements are true about the Libertarians?

1. We must not violate anyone's rights.
2. The greatest threat to individual rights comes from the government.
3. Individual liberty depends on whether social welfare is achieved or not
4. A government should not pass moral legislation for individuals.

a) 1,3&4 b)1,2&3 c)2,3&4 d)1,2&4

35) Libertarians believe that certain actions like smoking or drinking are a matter of choice and laws prohibiting them are unfair. Why would Kant disagree with this view?

1. Because these actions do not give us pleasure.
2. Actions should obey moral law, not our feelings.
3. By harming ourselves, we are treating human life simply as an object.
4. Because duty is less important than pleasure

a)1&2 b)3&4 c)2&3 d)1&3

36) Which of the following statements are true about the Kantian system of morality?

1. Happiness is the goal of morality.
2. Reason should be a guide in ethical matters.
3. Morality is to discover moral law through feelings.
4. Morality is to be motivated by a sense of duty.

a)2&4 b)1&2 c)1&3 d) 1&4

37) What are the main problems of Utilitarianism ?

1. It does not have a conception of rights.
2. It allows injustice in a society if maximization of happiness is obtained.
3. It considers all pleasures to be equal, especially in Bentham's case.
4. It does not believe that morality has any relation with religion or tradition.

a) 1,2 &3 b)1, 3&4 c) 1,2,&4 d) 2,3 &4

38) What are the features of Utilitarian mode of reasoning ?

1. It only considers the results of an action while making decisions.
2. It only considers the motive in judging an action.
3. It calculates the net benefit or loss arising from a decision.
4. It is based on whether an action is in accordance with duty or not.

a)2&4 b)1&2 c)1&3 d) 1&4

39) How is Utilitarianism related to psychological hedonism ?

1. Both believe that rationality can govern our actions.
2. Both believe that all our actions are motivated by pleasure and pain.
3. Both believe that we should aim at maximizing our own happiness
4. Utilitarianism believes in greatest happiness of all which hedonism does not.

a)2&4 b)1&2 c)1&3 d) 1&4

40) In a puzzling ethical situation, how will a libertarian decide what to do ?

1. By judging whether the action respects an individual's self-ownership or not.
2. The decision should not violate one's basic rights.
3. The outcome of the decision should be favorable for most of the people involved.
4. No one's freedom should be violated in implementing the decision.

a) 1,2 &3 b)1, 3&4 c) 1,2,&4 d) 2,3 &4

41) If an action affects other people, how would the Libertarian judge it ?

1. By measuring the happiness and unhappiness that it causes others.
2. Whether others' wish or consent has been respected or not.
3. Whether the action results in the welfare of the society as a whole or not.
4. If the action respects individual freedom or not.

a) 1&4 b)1&2 c)1&3 d) 2&4

42) Which of the following questions will **not** be a part of Utilitarian decision- making process ?

1. What is my duty towards each person?
2. Does my action lead to any injustice ?
3. Is the action going to lead to overall happiness of the community ?
4. Am I following the moral law ?

a) 1,2 &3 b)1, 3&4 c) 1,2,&4 d) 2,3 &4

43) What arguments can a Utilitarian give in favour of high-tax on individual's income?

1. By taxing the wealthy, the inequality in the society is reduced.
2. Tax makes it possible to use the collected money for welfare of all.
3. It makes people work harder.
4. By taxing the rich and using it for the poor, the overall happiness increases.

a) 1,2 &3 b) 1,2,&4 c) 1, 3&4 d) 2,3 &4

44) Why does a Libertarian oppose high tax ?
1. It is a violation of an individual's free choice.
2. Taxation questions one's right to the fruits of one's labour.
3. High tax discourages people from working harder.
4. It is used to maintain law and order in the society.
a)2&4 b)1&2 c)1&3 d) 1&4

45) Why does the Libertarian equate high tax with slavery ?
1. Because in earlier times slavery was a form of tax.
2. Because one has no choice in matter of tax.
3. Because rich people have to work like slaves to pay tax
4. They say that taxation is equivalent to bonded labor which is slavery.
a) 1&4 b)1&2 c)1&3 d) 2&4

46) Which of the following questions would be a part of Kantian decision making ?
1. Is my decision based on satisfying my desire ?
2. Am I doing my duty in this situation ?
3. Am I acting rationally or emotionally ?
4. Is my decision going to benefit everyone?
a) 1,2 &3 b)1, 3&4 c) 1,2,&4 d) 2,3 &4

47) In the Richard Parker case, which of the following are true?
1. The Captain's action was based on Libertarian Principles.
2. The captain's action was based on Utilitarian principles.
3. The Captain's action was violation of Parker's right and consent.
4. The Captain's action was based on Kantian principles.
a)1&4 b)1&2 c)1&3 d) 2&3

48) How do different ethical thinkers view the role of desire and reason in action ?
1. According to Bentham, reason has no role to play in ethical action.
2. According to Mill, ethical action is about following one's desires.
3. According to Kant, ethical action is about acting rationally.
4. None of these
a)1 b)2 c)3 4) d

Note: There are five passages in this paper. Read the passages carefully and answer the questions that follow. Each question is followed by multiple statements numbered 1,2,3,4. Please note that there is only ONE CORRECT ANSWER (one among a, b, c, d). Choose the most appropriate answer.

Passage 1

John Rawls, an American philosopher of the 20th century, argues that the way to think about justice is to ask what principles we would agree to in an initial situation of equality. He reasons as follows: If people of a society gather to choose collective principles, it would be difficult to agree because different people coming from different backgrounds (caste, religion, color, background, talent etc.) would favor different principles. So we might settle on a compromise which everyone would agree to follow. But what is the guarantee that the compromise is a fair agreement. This is the first step in thinking about justice according to Rawls. The second step is to devise a way through which we can arrive at a really just arrangement based on fair principles. To do that, we need to consider a thought experiment called the "Veil of ignorance." Suppose that when we gather to choose the principles, we don't know where we will end up in the society i.e. we are choosing behind a "veil of ignorance" that temporarily prevents us from knowing anything about who we are- our class, gender, interests, theories, talents etc. However we are allowed to retain two basic features of a normal human being- rationality and self-interest. In such an original position of equality, Rawls says that the principles we would agree upon would truly be fair.

What principles would we choose? The two principles Rawls says we would choose are: i) principle of equal basic liberties and ii) the "Difference principle". The first principle is about such basic liberties like freedom of speech or religion. The second principle concerns social and economic inequality and argues that only such socio-economic inequalities that work to the advantage of the least well off members of the society, are permitted. Rawls argues that other principles like utilitarianism, free-market system, meritocracy or caste system will not be acceptable in an original position of equality behind the veil of ignorance. The unique insight that Rawls provides is that there is an underlying element of chance or arbitrariness or "moral luck" that makes these systems unsuitable for governing a society. Distributive justice, therefore, should not be about rewarding moral luck.

Questions: (10x1 mark =10 marks)

1. According to Rawls, Justice is about
   1. finding the principles that we would agree in an initial position of equality.
   2. letting people decide through a majority vote
   3. distributing goods and services equally in the society
   4. A fair way of distributing social goods so that the role of luck is minimized

   a)2&4 b)1&2 c)1&3 d) 1&4
2. The "veil of ignorance" thought experiment of Rawls assumes that
   1. People know about their status, gender, caste, etc.
   2. People should decide on the basis of moral theories.
   3. people are rational and self-interested
   4. The knowledge of background and identity makes people biased.

   a)2&4 b)1&2 c)3&4 d) 1&4
3. According to Rawls, the ideal social contract should be :
   1. in the interest and preference of the majority
   2. according to the religious and cultural traditions of the society
   3. about the basic principles that would be acceptable to everyone
   4. about eliminating the element of moral luck that governs our life prospects.

   a)2&4 b)1&2 c)3&4 d) 1&4
4. How does the Libertarianism compare with Rawls' Egalitarianism ?
   1. Both believe in minimal state.
   2. Libertarians favor minimal state but Rawls does not.
   3. Libertarians believe in distributive justice according to talent but Rawls does not.
   4. Libertarians believes in moral desert while Rawls does not.

   a) 1,2&3 b)1,3&4 c)1,2,& 4 d)2,3&4
5. What are the two principles of justice according to Rawls ?
   1. Each person should have equal liberties and rights.
   2. Justice is about making policies that benefit the majority.
   3. Each person should get what he deserves based on his natural talent.
   4. Only an inequality which benefits everyone,especially the least advantaged person in the society should be permitted.

   a)2&4 b)1&2 c)1&3 d) 1&4
6. Why does Rawls believe that only under a "veil of ignorance" can the principles of justice be truly discovered?
   1. Because under this condition there is no possibility of bias.
   2. Because people do not have the capacity to be rational.
   3. Because our background influences our thinking and decisions.
   4. Because only those who have studied ethics can find those principles.

   a)2&4 b) 1&3 c) 1&2 d) 1&4

C

7. What are the two conditions for "veil of ignorance thought" experiment ?
   1. People should imagine themselves to be without likes and dislikes only.
   2. People should remember the history of their community.
   3. People should only consider themselves as rational and self-interested individuals, nothing else.
   4. People should imagine themselves as having no background, race or gender.

   a)2&4 b) 3&4 c) 1&2 d) 1&4
8. Why is Rawls opposed to a society based on Utilitarian Principles?
   1. Such a society will not be acceptable under the conditions of veil of Ignorance.
   2. Justice in a utilitarian society is based on numbers, not fairness.
   3. Because Utilitarianism believes in taxation
   4. The principle of equal rights and freedom is not respected by Utilitarianism.

   a) 1,2&3 b)1,3&4 c)1,2,& 4 d)2,3&4
9. Why is Rawls opposed to a society based on Libertarianism?
   1. Libertarianism does not give equal opportunity to all.
   2. Libertarianism does not respect freedom and rights.
   3. It believes that justice is based on moral desert.
   4. It allows moral luck to decide an individual's life.

   a)2&4 b) 3&4 c) 1&2 d) 1&4
10. What are the central objections by Rawls to other systems of distributive justice ?
    1. They are all based on some form of moral luck.
    2. They are not based on rational principles.
    3. In an original position of equality, those systems will not be acceptable.
    4. They are all influenced by culture and traditions.

    a)2&4 b)1&2 c)1&3 d) 1&4

Passage 2

Modern theories of justice try to separate questions of fairness and rights from arguments about honor, virtue and moral desert. They seek principles of justice that are neutral and enable people to choose and pursue their ends for themselves. Aristotle does not think justice can be neutral in that way. He believes that debates about justice are unavoidably debates about honor, virtue and the nature of the good life. Seeing why Aristotle thinks justice and good life are connected will help us to see what is at stake to separate them. For Aristotle justice means giving people what they deserve, giving each person his or her due. What are the relevant grounds of deserving something? That depends on what is being distributed. Justice involves two factors: "things, and the persons to whom things are assigned." Suppose we are distributing flutes. Who should get the best ones? Aristotle's answer: The best flute players. In the case of flute playing, the relevant merit is the ability to play well. It would be unjust to give it on any other basis, such as wealth, or nobility of birth, or physical beauty or chance. The purpose of flutes is to produce excellent music. Those who can best realize this purpose ought to have the best ones. Aristotle's way of reasoning from the purpose of a thing to the proper allocation of the thing is an example of teleological reasoning. Aristotle claims

C

that in order to determine the just distribution of a good, we have to enquire into the telos or purpose of the good being distributed. In politics too, Aristotle sees a purpose. According to him, politics is about forming good citizens and cultivating good character. For Aristotle, democracy is not the right way to choose leaders because it is not the purpose of politics to satisfy the preference of the majority. The purpose of politics is something higher. It is about learning how to live a good and virtuous life.

Questions: (6x1 mark =6 marks)

11. How is Aristotle's theory of justice different from the other theories ?
    1. For Aristotle, justice is connected to purpose or goal of a thing or practice.
    2. Justice is about providing comfortable life to all.
    3. It is based on rights and liberties while others are not.
    4. Aristotle believes that justice is about promoting virtuous living.

    a)2&4 b)1&2 c)1&3 d) 1&4
12. What is the purpose of a social practice or office in Aristotle's view ?
    1. It is to ensure that law is obeyed by everyone.
    2. A social practice should reward and honor the deserving.
    3. It is to achieve social benefit.
    4. It should be given to those whose nature is best suited for that office.

    a)2&4 b)1&2 c)1&3 d) 1&4
13. Which of the following is true of Aristotle's Virtue theory ?
    1. Morality is about whether an action fulfils a purpose or not.
    2. Virtue is about whether an action has been done freely or not.
    3. Morality is about rewarding virtue.
    4. Virtue shown in an action depends on the character of the person.

    a) 1,2&3 b)1,3&4 c)1,2,& 4 d)2,3&4
14. What do you mean by the Golden Mean principle ?
    1. An action that achieves the best result is the right action.
    2. An action done from a balanced state of mind is the right action.
    3. There is a middle path between two extremes that should be followed.
    4. One should simply follow one's heart and do the action.

    a)2&4 b)1&2 c)2&3 d) 1&4
15. How are social goods to be distributed according to Aristotle?
    1. People should be given according to what they deserve.
    2. A society should aim at equality.
    3. Justice should be based on the concept of purpose of the thing being distributed.
    4. The preference of the majority should be the deciding factor.

    a. 1&2 b. 1,2&3 c. 1&3 d. 2&4

16. Who according to Aristotle deserves the best flutes and why?
    1. One who wants to play it so as to earn a living for his family.
    2. One who can pay the highest price for it.

3. One who plays it best because flute is meant to create good music.
4. One who wants to play the flute to please an audience.
   a. 1 b. 2 c. 3 d. 4

Passage 3

According to Kant, the moral basis of rights is not self-ownership or utility but the idea that we are rational beings, worthy of dignity and respect. The question that Kant tries to answer is: What is the supreme principle of morality? He points out that basing moral principles on preferences and desires or even self-ownership is misunderstanding what morality is all about. He argues instead that morality is all about obeying a universal moral law. We can arrive at the universal moral law through the exercise of rationality. Kant argues that every person is worthy of respect, not because we own ourselves (as the Libertarians would argue) but because we are rational beings, capable of reason; we are also autonomous beings, capable of acting and choosing freely. When we seek pleasure or avoid pain, we aren't really acting freely. We are acting as slaves of our desires.

According to Kant, the moral worth of an action consists not in the consequences that follow from it (as the Utilitarian would argue), but in the intention from which the action is done. What matters is the motive and the motive which gives moral worth to an action is the motive of duty, which in Kantian ethics means doing the right thing for the right reason. But the question arises, how do we know what is our duty in a given situation? Kant says we can do our duty only if we act according to a moral law that is based on reason. Reason can point to us a course of action, a law that binds us all as rational beings. This law or course of action he calls the "categorical imperative." Let us see what he means by this.

In Kant's system there are two categorical imperatives- 1) universalize your maxim and 2) Treat persons as ends, never simply as means. The first principle is called the formula of a universal law: "Act only on the maxim whereby at the same time you can will that it should become a universal law". A maxim is a rule or principle that gives you the reason for a particular action. The second principle is called the formula of humanity as an end. It says "Act in a way that you always treat humanity, whether in your own person or in the person of any other, never simply as a means, but always at the same time as an end." For Kant, suicide is wrong for the same reason that murder is wrong. Both treat persons as things, and fail to respect humanity as an end in itself.

Questions: (10x1 mark =10 marks)

17. What is right action according to Kant?
    1. An action that is performed with the motive of duty.
    2. An action based on moral law.
    3. An action which is commanded by God
    4. An action which is prescribed by the society
       a)1&3 b) 1&2 c) 2&3 d)3&4

18. How is Kantian concept of freedom different from the Libertarian one?

1. Kant believes in inner freedom while Libertarians believe in freedom from external interference.
2. Freedom to do what one wants is the Kantian idea of freedom.
3. Freedom to do what one wants is the Libertarian idea of freedom.
4. For Kant, freedom is using one's reason but the libertarian believes in following one's choices.

a)2&4 b)1&2 c)1&3 d) 1&4

19. How does Kant recommend the use of reason ?

1. He wants reason to be controlled by our emotions.
2. He recommends reason to govern our desires.
3. He wants reason to be used to ensure the best possible result in any situation.
4. He advises us to use reason to discover our duty.

a)2&4 b)1&2 c)1&3 d) 1&4

20. What is the Kantian basis for judging an action ?

1. The outcome of an action decides whether the action is moral or not.
2. For Kant, only a rational action can be judged moral or immoral.
3. It is the motive behind the action that should be the basis of judgement.
4. To follow one's desires without harming others is Kant's view of right action.

a)2&4 b)1&2 c)2&3 d) 1&4

21. What is Duty according to Kant ?

1. To follow the society and tradition
2. To simply obey all the rules of the government is Kant's idea of duty.
3. To follow the moral law.
4. To use reason according to the principles of morality.

a)2&4 b)1&2 c)1&3 d) 3&4

22. How do we rationally discover our duty according to Kant ?

1. Act on an action which is universalizable.
2. Act in a way that the moral law is obeyed.
3. Always treat other human beings as an end, never simply as a means.
4. Always maximize the happiness of society.

a) 1,2&3 b)1,3&4 c)1,2,& 4 d)2,3&4

23. How is Kant's view different from Bentham on the psychological motive behind any action ?

1. Kant believes that all our actions should be governed by pleasure and pain.
2. Bentham believed in psychological hedonism but Kant did not.
3. Kant believed in duty as the moral end but Bentham believed in happiness.
4. Bentham believed in respecting freedom but Kant did not.

a)2&4 b) 2&3 c) 1&2 d) 1&4

24. What is a Categorical Imperative according to Kant ?
1. An action that is not universalisable.
2. An action that treats a human being simply as a means.
3. An action that is universalisable and treats human being as an end.
4. An action that is done in self interest.
a)1 b)3 c)2 d)4

25. How does Kant differ from the Libertarian on the issue of suicide?
1. Suicide is an act of freedom according to Kant.
2. The libertarian believes that an individual has the right to decide about his life.
3. According to Kant, suicide is treating one's life with disrespect.
4. Our moral duty is to honor our life, no matter how difficult the conditions are.
a) 1,2&3 b)1,3&4 c)1,2,& 4 d)2,3&4

26. A student has 100% attendance and still attends every class. What motive will make this student a Kantian?
1. The motive to please the teacher.
2. Bunking might land him in trouble which the student wants to avoid.
3. The student's duty is to learn and acquire knowledge by attending classes
4. The fear of punishment.
a)1 b)2 c)3 d)4

Passage 4

According to some thinkers, justice in society means to give one what he/she deserves. In other words, the distribution of social goods should be based on one's talent and skill and those who possess them deserve to get the best that the society has to offer. This argument is called "moral desert". Aristotle is a great example of someone who believed in moral desert. However, some policies of governments all around the world appear to go against this principle- in particular, the policy of "Affirmative action" which is also commonly known as Reservation. The moral desert argument does not seem to apply on "Affirmative action" – the policy by which a government usually acts pro-actively to redress the past injustice to certain sections of society by reserving seats and positions in the areas of education, employment and business. Many consider it unfair to give preference to candidates coming from a certain social background. However, others like Rawls believed that justice in society is not about simply rewarding talent.

Let us try to understand three basic arguments for Affirmative action : 1) Corrective argument: It says that scores or marks have to be interpreted keeping in mind the backgrounds and conditions of a candidate to assess real academic merit. 2) Compensatory argument: It points out the fact that advantaged sections of society today should compensate the disadvantaged groups who have been deprived of basic resources for development in the past, and 3) Diversity argument: It maintains that the various groups who make up the whole society should be given proper and proportionate socio-political representation in terms of education, job and business. They argue from a

C

purpose point of view; the purpose of a social institution-whether university, corporation or politics is not to reward merit but to achieve a more harmonious society.
Reservation alone is not the solution to address the inequalities of a society. It is difficult to separate justice from merit and virtue. The policy should purposefully lessen the socio-economic gaps amongst the people so that they can all compete in the race of development with, if not an equal start, then at least, a fair start. Reservation in this way can rationally be based on socio-economic real facts and conditions, and the socio-economic benefits should be distributed to those who really deserve without considering the arbitrary facts like cast, class, race and gender.

Questions: (6x1 mark =6 marks)

27. Which of the following points are right about the "moral desert" argument?
    1. One should be rewarded on the grounds of merit.
    2. Talent should be the basis for distributing income and opportunities.
    3. Distribution of social goods should be based on welfare of society.
    4. Socio-economic inequality should be for least well-off

    a)2&3 b)1&2 c)2&4 d)1,3&4

28. Which of the following statements are NOT true about Affirmative Action Theory?
1. A government should not take positive actions to redress the wrongs of past.
2. Some disadvantaged groups of people have to compensate for some advantaged groups of people.
3. The different variety of groups who actually make up the whole society should be given proper and proportionate socio-political-economic representation.
4. Socio-economic inequalities should not be based on arbitrary facts

    a) 1&2 b) 1&4 c) 2&3 d) 2&4

29. Why do libertarians criticize the policy of Affirmative Action ?
1. Because it is not based on a policy of free competition
2. Because the policy does not respect the merit-based selection.
3. Because it does not achieve maximum welfare in the society.
4. Because it is about the interference of government in limiting people's choices.

    a) 1,2&3 b)1,2&4 c)1,3&4 d)2,3&4

30. Which of the following are true about the Diversity argument for Affirmative action?
    1. It says that merit should be honored and rewarded.
    2. It says that people of all background should be represented in an institution.
    3. It believes that promoting multiculturalism should be an aim of society.
    4. Promoting better understanding of each other in the society should be a priority.

    a)1,2&4 b)2,3&4 c)1,2&3 d)1,3&4

31. Which of the following are true about the "Corrective Argument" ?
    1. Merit is about interpreting the scores in the right manner.
    2. Marks have to be adjusted/corrected for the social background to assess merit.

3. It is correct to allow lesser scores to get admission.
4. Society needs to correct the inequalities in our current situation.

a)1,2&4 b)2,3&4 c)1,2&3 d)1,3&4

32. What is the "compensatory argument" for Affirmative action?
    1. History has been unfair to some sections of the society in the past.
    2. We cannot do anything in the present for past wrongs.
    3. The past wrongs done to some should be corrected through this policy.
    4. The present generation has a responsibility to address past injustice.

a)1,2&4 b)2,3&4 c)1,2&3 d)1,3&4

Passage 5 (Attempt All Questions)

To ask whether a society is just is to ask how it distributes the things we prize-income and wealth, duties and rights, powers and opportunities, offices and honours. Different principles suggest different ways in which a just society should distribute the things that we value. Some say that it should be about social welfare more than anything else. Others believe that distributive justice is about free competition in a society where everyone has equal rights and liberties. A third school of thought lays more emphasis on justice being about honoring virtues. Thus there are basically three different ways to understand justice in society: Welfare approach, the Freedom & Rights approach and the Virtue approach.

The welfare approach is based on the principle of utilitarianism. For a Utilitarian like Bentham, happiness is simply about experience of pleasure and absence of pain. People are happy insofar as they feel pleasure, unhappy insofar as they feel pain; there is nothing else that goes into happiness. Abilities, knowledge, friendship, love—all these are only means to achieving pleasure. For Bentham, there is no intrinsic difference among different kinds of pleasures. They only differ in degrees of intensity, not in kind. Mill later modified it to include higher pleasures and qualities of happiness as well. The ultimate principle, however, remained that the right thing to do is whatever produces the greatest amount of happiness for the greatest number.

Libertarians disagree on this point and argue that we must never violate anyone's rights—even if doing so would increase overall happiness. According to libertarians, the greatest threat to individual rights comes from the government. Governments use their power to restrict the freedom of its citizens by either making laws that interfere with our life or by telling us how to live our life. Libertarians feel that tax on our earnings or income is also in some ways a violation of our rights to enjoy the fruits of our labor. They argue that forcing us to pay tax is no different from slavery. In contrast to Utilitarians, who believe that the right thing to do is always to maximize happiness, the Libertarians think that the right thing to do is to let people do whatever they want as long as they don't interfere with other's rights.

Kant holds the view that rationality is the goal of morality; unlike the libertarians, Kant denies that freedom consists in doing whatever one wants. Kant thinks that morality is a kind of universal law which everyone has to obey. Therefore, he thinks it must be the case that everyone could obey it. This is his test for morality. According to Kant, your

C

action is moral only if you acted on a maxim that is universalizable - which you can wish to become a universal law. Morality of an action depends on whether it was done with this sense of duty, or not.

Questions: (16 X .5 mark=8marks)

33) Which of the following statements are right according to Bentham?

1. Pleasure and pain differ only in quantity, not in quality.
2. There is no qualitative difference amongst the pleasures.
3. We should aim at maximizing pleasure of maximum number.
4. We should aim at pleasures that are qualitatively higher.

a) 1,2 &3 b)1, 3&4 c) 1,2,&4 d) 2,3 &4

34) Which of the following statements are true about the Libertarians?

1. We must not violate anyone's rights.
2. The greatest threat to individual rights comes from the government.
3. Individual liberty depends on whether social welfare is achieved or not
4. A government should not pass moral legislation for individuals.

a) 1,3&4 b)1,2&3 c)2,3&4 d)1,2&4

35) Libertarians believe that certain actions like smoking or drinking are a matter of choice and laws prohibiting them are unfair. Why would Kant disagree with this view?

1. Because these actions do not give us pleasure.
2. Actions should obey moral law, not our feelings.
3. By harming ourselves, we are treating human life simply as an object.
4. Because duty is less important than pleasure

a)1&2 b)3&4 c)2&3 d)1&3

36) Which of the following statements are true about the Kantian system of morality?

1. Happiness is the goal of morality.
2. Reason should be a guide in ethical matters.
3. Morality is to discover moral law through feelings.
4. Morality is to be motivated by a sense of duty.

a)2&4 b)1&2 c)1&3 d) 1&4

37) What are the main problems of Utilitarianism ?

1. It does not have a conception of rights.
2. It allows injustice in a society if maximization of happiness is obtained.
3. It considers all pleasures to be equal, especially in Bentham's case.
4. It does not believe that morality has any relation with religion or tradition.

a) 1,2 &3 b)1, 3&4 c) 1,2,&4 d) 2,3 &4

38) What are the features of Utilitarian mode of reasoning ?

1. It only considers the results of an action while making decisions.
2. It only considers the motive in judging an action.
3. It calculates the net benefit or loss arising from a decision.
4. It is based on whether an action is in accordance with duty or not.

a)2&4 b)1&2 c)1&3 d) 1&4

39) How is Utilitarianism related to psychological hedonism ?

1. Both believe that rationality can govern our actions.
2. Both believe that all our actions are motivated by pleasure and pain.
3. Both believe that we should aim at maximizing our own happiness
4. Utilitarianism believes in greatest happiness of all which hedonism does not.

a)2&4 b)1&2 c)1&3 d) 1&4

40) In a puzzling ethical situation, how will a libertarian decide what to do ?

1. By judging whether the action respects an individual's self-ownership or not.
2. The decision should not violate one's basic rights.
3. The outcome of the decision should be favorable for most of the people involved.
4. No one's freedom should be violated in implementing the decision.

a) 1,2 &3 b)1, 3&4 c) 1,2,&4 d) 2,3 &4

41) If an action affects other people, how would the Libertarian judge it ?

1. By measuring the happiness and unhappiness that it causes others.
2. Whether others' wish or consent has been respected or not.
3. Whether the action results in the welfare of the society as a whole or not.
4. If the action respects individual freedom or not.

a) 1&4 b)1&2 c)1&3 d) 2&4

42) Which of the following questions will **not** be a part of Utilitarian decision- making process ?

1. What is my duty towards each person?
2. Does my action lead to any injustice ?
3. Is the action going to lead to overall happiness of the community ?
4. Am I following the moral law ?

a) 1,2 &3 b)1, 3&4 c) 1,2,&4 d) 2,3 &4

43) What arguments can a Utilitarian give in favour of high-tax on individual's income?

1. By taxing the wealthy, the inequality in the society is reduced.
2. Tax makes it possible to use the collected money for welfare of all.
3. It makes people work harder.
4. By taxing the rich and using it for the poor, the overall happiness increases.

a) 1,2 &3 b) 1,2,&4 c) 1, 3&4 d) 2,3 &4

44) Why does a Libertarian oppose high tax ?

1. It is a violation of an individual's free choice.
2. Taxation questions one's right to the fruits of one's labour.
3. High tax discourages people from working harder.
4. It is used to maintain law and order in the society.

a)2&4 b)1&2 c)1&3 d) 1&4

45) Why does the Libertarian equate high tax with slavery ?
1. Because in earlier times slavery was a form of tax.
2. Because one has no choice in matter of tax.
3. Because rich people have to work like slaves to pay tax
4. They say that taxation is equivalent to bonded labor which is slavery.
a) 1&4 b)1&2 c)1&3 d) 2&4

46) Which of the following questions would be a part of Kantian decision making ?
1. Is my decision based on satisfying my desire ?
2. Am I doing my duty in this situation ?
3. Am I acting rationally or emotionally ?
4. Is my decision going to benefit everyone?
a) 1,2 &3 b)1, 3&4 c) 1,2,&4 d) 2,3 &4

47) In the Richard Parker case, which of the following are true?
1. The Captain's action was based on Libertarian Principles.
2. The captain's action was based on Utilitarian principles.
3. The Captain's action was violation of Parker's right and consent.
4. The Captain's action was based on Kantian principles.
a)1&4 b)1&2 c)1&3 d) 2&3

48) How do different ethical thinkers view the role of desire and reason in action ?
1. According to Bentham, reason has no role to play in ethical action.
2. According to Mill, ethical action is about following one's desires.
3. According to Kant, ethical action is about acting rationally.
4. None of these

Note: There are five passages in this paper. Read the passages carefully and answer the questions that follow. Each question is followed by multiple statements numbered 1,2,3,4. Please note that there is only ONE CORRECT ANSWER (one among a, b, c, d). Choose the most appropriate answer.

Passage 1

John Rawls, an American philosopher of the 20th century, argues that the way to think about justice is to ask what principles we would agree to in an initial situation of equality. He reasons as follows: If people of a society gather to choose collective principles, it would be difficult to agree because different people coming from different backgrounds (caste, religion, color, background, talent etc.) would favor different principles. So we might settle on a compromise which everyone would agree to follow. But what is the guarantee that the compromise is a fair agreement. This is the first step in thinking about justice according to Rawls. The second step is to devise a way through which we can arrive at a really just arrangement based on fair principles. To do that, we need to consider a thought experiment called the "Veil of ignorance." Suppose that when we gather to choose the principles, we don't know where we will end up in the society i.e. we are choosing behind a "veil of ignorance" that temporarily prevents us from knowing anything about who we are- our class, gender, interests, theories, talents etc. However we are allowed to retain two basic features of a normal human being- rationality and self-interest. In such an original position of equality, Rawls says that the principles we would agree upon would truly be fair.

What principles would we choose? The two principles Rawls says we would choose are: i) principle of equal basic liberties and ii) the "Difference principle". The first principle is about such basic liberties like freedom of speech or religion. The second principle concerns social and economic inequality and argues that only such socio-economic inequalities that work to the advantage of the least well off members of the society, are permitted. Rawls argues that other principles like utilitarianism, free-market system, meritocracy or caste system will not be acceptable in an original position of equality behind the veil of ignorance. The unique insight that Rawls provides is that there is an underlying element of chance or arbitrariness or "moral luck" that makes these systems unsuitable for governing a society. Distributive justice, therefore, should not be about rewarding moral luck.

Questions: (10x1 mark =10 marks)

1. According to Rawls, Justice is about
   1. finding the principles that we would agree in an initial position of equality.
   2. letting people decide through a majority vote
   3. distributing goods and services equally in the society
   4. A fair way of distributing social goods so that the role of luck is minimized

   a)2&4 b)1&2 c)1&3 d) 1&4
2. The "veil of ignorance" thought experiment of Rawls assumes that
   1. People know about their status, gender, caste, etc.
   2. People should decide on the basis of moral theories.
   3. people are rational and self-interested
   4. The knowledge of background and identity makes people biased.

   a)2&4 b)1&2 c)3&4 d) 1&4
3. According to Rawls, the ideal social contract should be :
   1. in the interest and preference of the majority
   2. according to the religious and cultural traditions of the society
   3. about the basic principles that would be acceptable to everyone
   4. about eliminating the element of moral luck that governs our life prospects.

   a)2&4 b)1&2 c)3&4 d) 1&4
4. How does the Libertarianism compare with Rawls' Egalitarianism ?
   1. Both believe in minimal state.
   2. Libertarians favor minimal state but Rawls does not.
   3. Libertarians believe in distributive justice according to talent but Rawls does not.
   4. Libertarians believes in moral desert while Rawls does not.

   a) 1,2&3 b)1,3&4 c)1,2,& 4 d)2,3&4
5. What are the two principles of justice according to Rawls ?
   1. Each person should have equal liberties and rights.
   2. Justice is about making policies that benefit the majority.
   3. Each person should get what he deserves based on his natural talent.
   4. Only an inequality which benefits everyone,especially the least advantaged person in the society should be permitted.

   a)2&4 b)1&2 c)1&3 d) 1&4
6. Why does Rawls believe that only under a "veil of ignorance" can the principles of justice be truly discovered?
   1. Because under this condition there is no possibility of bias.
   2. Because people do not have the capacity to be rational.
   3. Because our background influences our thinking and decisions.
   4. Because only those who have studied ethics can find those principles.

   a)2&4 b) 1&3 c) 1&2 d) 1&4

D

7. What are the two conditions for "veil of ignorance thought" experiment ?
   1. People should imagine themselves to be without likes and dislikes only.
   2. People should remember the history of their community.
   3. People should only consider themselves as rational and self-interested individuals, nothing else.
   4. People should imagine themselves as having no background, race or gender.

   a)2&4 b) 3&4 c) 1&2 d) 1&4
8. Why is Rawls opposed to a society based on Utilitarian Principles?
   1. Such a society will not be acceptable under the conditions of veil of Ignorance.
   2. Justice in a utilitarian society is based on numbers, not fairness.
   3. Because Utilitarianism believes in taxation
   4. The principle of equal rights and freedom is not respected by Utilitarianism.

   a) 1,2&3 b)1,3&4 c)1,2,& 4 d)2,3&4
9. Why is Rawls opposed to a society based on Libertarianism?
   1. Libertarianism does not give equal opportunity to all.
   2. Libertarianism does not respect freedom and rights.
   3. It believes that justice is based on moral desert.
   4. It allows moral luck to decide an individual's life.

   a)2&4 b) 3&4 c) 1&2 d) 1&4
10. What are the central objections by Rawls to other systems of distributive justice ?
    1. They are all based on some form of moral luck.
    2. They are not based on rational principles.
    3. In an original position of equality, those systems will not be acceptable.
    4. They are all influenced by culture and traditions.

    a)2&4 b)1&2 c)1&3 d) 1&4

Passage 2

According to Kant, the moral basis of rights is not self-ownership or utility but the idea that we are rational beings, worthy of dignity and respect. The question that Kant tries to answer is: What is the supreme principle of morality? He points out that basing moral principles on preferences and desires or even self-ownership is misunderstanding what morality is all about. He argues instead that morality is all about obeying a universal moral law. We can arrive at the universal moral law through the exercise of rationality. Kant argues that every person is worthy of respect, not because we own ourselves (as the Libertarians would argue) but because we are rational beings, capable of reason; we are also autonomous beings, capable of acting and choosing freely. When we seek pleasure or avoid pain, we aren't really acting freely. We are acting as slaves of our desires.

According to Kant, the moral worth of an action consists not in the consequences that follow from it (as the Utilitarian would argue), but in the intention from which the action is done. What matters is the motive and the motive which gives moral worth to an action is the motive of duty, which in Kantian ethics means doing the right thing for the right reason. But the question arises, how do we know what is our duty in a given

situation? Kant says we can do our duty only if we act according to a moral law that is based on reason. Reason can point to us a course of action, a law that binds us all as rational beings. This law or course of action he calls the "categorical imperative." Let us see what he means by this.

In Kant's system there are two categorical imperatives- 1) universalize your maxim and 2) Treat persons as ends, never simply as means. The first principle is called the formula of a universal law: "Act only on the maxim whereby at the same time you can will that it should become a universal law". A maxim is a rule or principle that gives you the reason for a particular action. The second principle is called the formula of humanity as an end. It says "Act in a way that you always treat humanity, whether in your own person or in the person of any other, never simply as a means, but always at the same time as an end." For Kant, suicide is wrong for the same reason that murder is wrong. Both treat persons as things, and fail to respect humanity as an end in itself.

Questions: (10x1 mark =10 marks)

11. What is right action according to Kant?
    1. An action that is performed with the motive of duty.
    2. An action based on moral law.
    3. An action which is commanded by God
    4. An action which is prescribed by the society

    a)1&3 b) 1&2 c) 2&3 d)3&4

12. How is Kantian concept of freedom different from the Libertarian one?
    1. Kant believes in inner freedom while Libertarians believe in freedom from external interference.
    2. Freedom to do what one wants is the Kantian idea of freedom.
    3. Freedom to do what one wants is the Libertarian idea of freedom.
    4. For Kant, freedom is using one's reason but the libertarian believes in following one's choices.

    a)2&4 b)1&2 c)1&3 d) 1&4

13. How does Kant recommend the use of reason ?
    1. He wants reason to be controlled by our emotions.
    2. He recommends reason to govern our desires.
    3. He wants reason to be used to ensure the best possible result in any situation.
    4. He advises us to use reason to discover our duty.

    a)2&4 b)1&2 c)1&3 d) 1&4

14. What is the Kantian basis for judging an action ?
    1. The outcome of an action decides whether the action is moral or not.
    2. For Kant, only a rational action can be judged moral or immoral.
    3. It is the motive behind the action that should be the basis of judgement.
    4. To follow one's desires without harming others is Kant's view of right action.

    a)2&4 b)1&2 c)2&3 d) 1&4

D.

15. What is Duty according to Kant ?
    1. To follow the society and tradition
    2. To simply obey all the rules of the government is Kant's idea of duty.
    3. To follow the moral law.
    4. To use reason according to the principles of morality.
    a)2&4 b)1&2 c)1&3 d) 3&4
16. How do we rationally discover our duty according to Kant ?
    1. Act on an action which is universalizable.
    2. Act in a way that the moral law is obeyed.
    3. Always treat other human beings as an end, never simply as a means.
    4. Always maximize the happiness of society.
    a) 1,2&3 b)1,3&4 c)1,2,& 4 d)2,3&4
17. How is Kant's view different from Bentham on the psychological motive behind any action ?
    1. Kant believes that all our actions should be governed by pleasure and pain.
    2. Bentham believed in psychological hedonism but Kant did not.
    3. Kant believed in duty as the moral end but Bentham believed in happiness.
    4. Bentham believed in respecting freedom but Kant did not.
    a)2&4 b) 2&3 c) 1&2 d) 1&4

18. What is a Categorical Imperative according to Kant ?
    1. An action that is not universalisable.
    2. An action that treats a human being simply as a means.
    3. An action that is universalisable and treats human being as an end.
    4. An action that is done in self interest.
    a)1 b)3 c)2 d)4
19. How does Kant differ from the Libertarian on the issue of suicide?
    1. Suicide is an act of freedom according to Kant.
    2. The libertarian believes that an individual has the right to decide about his life.
    3. According to Kant, suicide is treating one's life with disrespect.
    4. Our moral duty is to honor our life, no matter how difficult the conditions are.
    a) 1,2&3 b)1,3&4 c)1,2,& 4 d)2,3&4
20. A student has 100% attendance and still attends every class. What motive will make this student a Kantian?
    1. The motive to please the teacher.
    2. Bunking might land him in trouble which the student wants to avoid.
    3. The student's duty is to learn and acquire knowledge by attending classes
    4. The fear of punishment.
    a)1 b)2 c)3 d)4

Passage 3

Modern theories of justice try to separate questions of fairness and rights from arguments about honor, virtue and moral desert. They seek principles of justice that are neutral and enable people to choose and pursue their ends for themselves. Aristotle does not think justice can be neutral in that way. He believes that debates about justice are unavoidably debates about honor, virtue and the nature of the good life. Seeing why Aristotle thinks justice and good life are connected will help us to see what is at stake to separate them. For Aristotle justice means giving people what they deserve, giving each person his or her due. What are the relevant grounds of deserving something? That depends on what is being distributed. Justice involves two factors: "things, and the persons to whom things are assigned." Suppose we are distributing flutes. Who should get the best ones? Aristotle's answer: The best flute players. In the case of flute playing, the relevant merit is the ability to play well. It would be unjust to give it on any other basis, such as wealth, or nobility of birth, or physical beauty or chance. The purpose of flutes is to produce excellent music. Those who can best realize this purpose ought to have the best ones. Aristotle's way of reasoning from the purpose of a thing to the proper allocation of the thing is an example of teleological reasoning. Aristotle claims that in order to determine the just distribution of a good, we have to enquire into the telos or purpose of the good being distributed. In politics too, Aristotle sees a purpose. According to him, politics is about forming good citizens and cultivating good character. For Aristotle, democracy is not the right way to choose leaders because it is not the purpose of politics to satisfy the preference of the majority. The purpose of politics is something higher. It is about learning how to live a good and virtuous life.

Questions: (6x1 mark =6 marks)

21. How is Aristotle's theory of justice different from the other theories ?
    1. For Aristotle, justice is connected to purpose or goal of a thing or practice.
    2. Justice is about providing comfortable life to all.
    3. It is based on rights and liberties while others are not.
    4. Aristotle believes that justice is about promoting virtuous living.

    a)2&4 b)1&2 c)1&3 d) 1&4
22. What is the purpose of a social practice or office in Aristotle's view ?
    1. It is to ensure that law is obeyed by everyone.
    2. A social practice should reward and honor the deserving.
    3. It is to achieve social benefit.
    4. It should be given to those whose nature is best suited for that office.

    a)2&4 b)1&2 c)1&3 d) 1&4
23. Which of the following is true of Aristotle's Virtue theory ?
    1. Morality is about whether an action fulfils a purpose or not.
    2. Virtue is about whether an action has been done freely or not.
    3. Morality is about rewarding virtue.
    4. Virtue shown in an action depends on the character of the person.

    a) 1,2&3 b)1,3&4 c)1,2,& 4 d)2,3&4

24. What do you mean by the Golden Mean principle ?
    1. An action that achieves the best result is the right action.
    2. An action done from a balanced state of mind is the right action.
    3. There is a middle path between two extremes that should be followed.
    4. One should simply follow one's heart and do the action.
    a)2&4 b)1&2 c)2&3 d) 1&4
25. How are social goods to be distributed according to Aristotle?
    1. People should be given according to what they deserve.
    2. A society should aim at equality.
    3. Justice should be based on the concept of purpose of the thing being distributed.
    4. The preference of the majority should be the deciding factor.
    a. 1&2 b. 1,2&3 c. 1&3 d. 2&4

26. Who according to Aristotle deserves the best flutes and why?
    1. One who wants to play it so as to earn a living for his family.
    2. One who can pay the highest price for it.
    3. One who plays it best because flute is meant to create good music.
    4. One who wants to play the flute to please an audience.
    a. 1 b. 2 c. 3 d. 4

Passage 4

According to some thinkers, justice in society means to give one what he/she deserves. In other words, the distribution of social goods should be based on one's talent and skill and those who possess them deserve to get the best that the society has to offer. This argument is called "moral desert". Aristotle is a great example of someone who believed in moral desert. However, some policies of governments all around the world appear to go against this principle- in particular, the policy of "Affirmative action" which is also commonly known as Reservation. The moral desert argument does not seem to apply on "Affirmative action" – the policy by which a government usually acts pro-actively to redress the past injustice to certain sections of society by reserving seats and positions in the areas of education, employment and business. Many consider it unfair to give preference to candidates coming from a certain social background. However, others like Rawls believed that justice in society is not about simply rewarding talent.

Let us try to understand three basic arguments for Affirmative action : 1) Corrective argument: It says that scores or marks have to be interpreted keeping in mind the backgrounds and conditions of a candidate to assess real academic merit. 2) Compensatory argument: It points out the fact that advantaged sections of society today should compensate the disadvantaged groups who have been deprived of basic resources for development in the past, and 3) Diversity argument: It maintains that the various groups who make up the whole society should be given proper and proportionate socio-political representation in terms of education, job and business. They argue from a

purpose point of view; the purpose of a social institution-whether university, corporation or politics is not to reward merit but to achieve a more harmonious society.
Reservation alone is not the solution to address the inequalities of a society. It is difficult to separate justice from merit and virtue. The policy should purposefully lessen the socio-economic gaps amongst the people so that they can all compete in the race of development with, if not an equal start, then at least, a fair start. Reservation in this way can rationally be based on socio-economic real facts and conditions, and the socio-economic benefits should be distributed to those who really deserve without considering the arbitrary facts like cast, class, race and gender.

Questions: (6x1 mark =6 marks)

27. Which of the following points are right about the "moral desert" argument?
    1. One should be rewarded on the grounds of merit.
    2. Talent should be the basis for distributing income and opportunities.
    3. Distribution of social goods should be based on welfare of society.
    4. Socio-economic inequality should be for least well-off

    a)2&3 b)1&2 c)2&4 d)1,3&4

28. Which of the following statements are NOT true about Affirmative Action Theory?
1. A government should not take positive actions to redress the wrongs of past.
2. Some disadvantaged groups of people have to compensate for some advantaged groups of people.
3. The different variety of groups who actually make up the whole society should be given proper and proportionate socio-political-economic representation.
4. Socio-economic inequalities should not be based on arbitrary facts

    a) 1&2 b) 1&4 c) 2&3 d) 2&4

29. Why do libertarians criticize the policy of Affirmative Action ?
1. Because it is not based on a policy of free competition
2. Because the policy does not respect the merit-based selection.
3. Because it does not achieve maximum welfare in the society.
4. Because it is about the interference of government in limiting people's choices.

    a) 1,2&3 b)1,2&4 c)1,3&4 d)2,3&4

30. Which of the following are true about the Diversity argument for Affirmative action?
    1. It says that merit should be honored and rewarded.
    2. It says that people of all background should be represented in an institution.
    3. It believes that promoting multiculturalism should be an aim of society.
    4. Promoting better understanding of each other in the society should be a priority.

    a)1,2&4 b)2,3&4 c)1,2&3 d)1,3&4

31. Which of the following are true about the "Corrective Argument" ?
    1. Merit is about interpreting the scores in the right manner.
    2. Marks have to be adjusted/corrected for the social background to assess merit.

3. It is correct to allow lesser scores to get admission.
4. Society needs to correct the inequalities in our current situation.
   a)1,2&4 b)2,3&4 c)1,2&3 d)1,3&4

32. What is the "compensatory argument" for Affirmative action?
1. History has been unfair to some sections of the society in the past.
2. We cannot do anything in the present for past wrongs.
3. The past wrongs done to some should be corrected through this policy.
4. The present generation has a responsibility to address past injustice.
   a)1,2&4 b)2,3&4 c)1,2&3 d)1,3&4

Passage 5 (Attempt All Questions)

To ask whether a society is just is to ask how it distributes the things we prize-income and wealth, duties and rights, powers and opportunities, offices and honours. Different principles suggest different ways in which a just society should distribute the things that we value. Some say that it should be about social welfare more than anything else. Others believe that distributive justice is about free competition in a society where everyone has equal rights and liberties. A third school of thought lays more emphasis on justice being about honoring virtues. Thus there are basically three different ways to understand justice in society: Welfare approach, the Freedom & Rights approach and the Virtue approach.

The welfare approach is based on the principle of utilitarianism. For a Utilitarian like Bentham, happiness is simply about experience of pleasure and absence of pain. People are happy insofar as they feel pleasure, unhappy insofar as they feel pain; there is nothing else that goes into happiness. Abilities, knowledge, friendship, love—all these are only means to achieving pleasure. For Bentham, there is no intrinsic difference among different kinds of pleasures. They only differ in degrees of intensity, not in kind. Mill later modified it to include higher pleasures and qualities of happiness as well. The ultimate principle, however, remained that the right thing to do is whatever produces the greatest amount of happiness for the greatest number.

Libertarians disagree on this point and argue that we must never violate anyone's rights—even if doing so would increase overall happiness. According to libertarians, the greatest threat to individual rights comes from the government. Governments use their power to restrict the freedom of its citizens by either making laws that interfere with our life or by telling us how to live our life. Libertarians feel that tax on our earnings or income is also in some ways a violation of our rights to enjoy the fruits of our labor. They argue that forcing us to pay tax is no different from slavery. In contrast to Utilitarians, who believe that the right thing to do is always to maximize happiness, the Libertarians think that the right thing to do is to let people do whatever they want as long as they don't interfere with other's rights.

Kant holds the view that rationality is the goal of morality; unlike the libertarians, Kant denies that freedom consists in doing whatever one wants. Kant thinks that morality is a kind of universal law which everyone has to obey. Therefore, he thinks it must be the case that everyone could obey it. This is his test for morality. According to Kant, your

action is moral only if you acted on a maxim that is universalizable - which you can wish to become a universal law. Morality of an action depends on whether it was done with this sense of duty, or not.

Questions: (16 X .5 mark=8marks)

33) Which of the following statements are right according to Bentham?

1. Pleasure and pain differ only in quantity, not in quality.
2. There is no qualitative difference amongst the pleasures.
3. We should aim at maximizing pleasure of maximum number.
4. We should aim at pleasures that are qualitatively higher.

a) 1,2 &3 b)1, 3&4 c) 1,2,&4 d) 2,3 &4

34) Which of the following statements are true about the Libertarians?

1. We must not violate anyone's rights.
2. The greatest threat to individual rights comes from the government.
3. Individual liberty depends on whether social welfare is achieved or not
4. A government should not pass moral legislation for individuals.

a) 1,3&4 b)1,2&3 c)2,3&4 d)1,2&4

35) Libertarians believe that certain actions like smoking or drinking are a matter of choice and laws prohibiting them are unfair. Why would Kant disagree with this view?

1. Because these actions do not give us pleasure.
2. Actions should obey moral law, not our feelings.
3. By harming ourselves, we are treating human life simply as an object.
4. Because duty is less important than pleasure

a)1&2 b)3&4 c)2&3 d)1&3

36) Which of the following statements are true about the Kantian system of morality?

1. Happiness is the goal of morality.
2. Reason should be a guide in ethical matters.
3. Morality is to discover moral law through feelings.
4. Morality is to be motivated by a sense of duty.

a)2&4 b)1&2 c)1&3 d) 1&4

37) What are the main problems of Utilitarianism ?

1. It does not have a conception of rights.
2. It allows injustice in a society if maximization of happiness is obtained.
3. It considers all pleasures to be equal, especially in Bentham's case.
4. It does not believe that morality has any relation with religion or tradition.

a) 1,2 &3 b)1, 3&4 c) 1,2,&4 d) 2,3 &4

38) What are the features of Utilitarian mode of reasoning ?

1. It only considers the results of an action while making decisions.
2. It only considers the motive in judging an action.
3. It calculates the net benefit or loss arising from a decision.
4. It is based on whether an action is in accordance with duty or not.

a)2&4 b)1&2 c)1&3 d) 1&4

39) How is Utilitarianism related to psychological hedonism ?

1. Both believe that rationality can govern our actions.
2. Both believe that all our actions are motivated by pleasure and pain.
3. Both believe that we should aim at maximizing our own happiness
4. Utilitarianism believes in greatest happiness of all which hedonism does not.

a)2&4 b)1&2 c)1&3 d) 1&4

40) In a puzzling ethical situation, how will a libertarian decide what to do ?

1. By judging whether the action respects an individual's self-ownership or not.
2. The decision should not violate one's basic rights.
3. The outcome of the decision should be favorable for most of the people involved.
4. No one's freedom should be violated in implementing the decision.

a) 1,2 &3 b)1, 3&4 c) 1,2,&4 d) 2,3 &4

41) If an action affects other people, how would the Libertarian judge it ?

1. By measuring the happiness and unhappiness that it causes others.
2. Whether others' wish or consent has been respected or not.
3. Whether the action results in the welfare of the society as a whole or not.
4. If the action respects individual freedom or not.

a) 1&4 b)1&2 c)1&3 d) 2&4

42) Which of the following questions will **not** be a part of Utilitarian decision- making process ?

1. What is my duty towards each person?
2. Does my action lead to any injustice ?
3. Is the action going to lead to overall happiness of the community ?
4. Am I following the moral law ?

a) 1,2 &3 b)1, 3&4 c) 1,2,&4 d) 2,3 &4

43) What arguments can a Utilitarian give in favour of high-tax on individual's income?

1. By taxing the wealthy, the inequality in the society is reduced.
2. Tax makes it possible to use the collected money for welfare of all.
3. It makes people work harder.
4. By taxing the rich and using it for the poor, the overall happiness increases.

a) 1,2 &3 b) 1,2,&4 c) 1, 3&4 d) 2,3 &4

44) Why does a Libertarian oppose high tax ?

1. It is a violation of an individual's free choice.
2. Taxation questions one's right to the fruits of one's labour.
3. High tax discourages people from working harder.
4. It is used to maintain law and order in the society.

a)2&4 b)1&2 c)1&3 d) 1&4

45) Why does the Libertarian equate high tax with slavery ?
1. Because in earlier times slavery was a form of tax.
2. Because one has no choice in matter of tax.
3. Because rich people have to work like slaves to pay tax
4. They say that taxation is equivalent to bonded labor which is slavery.
a) 1&4 b)1&2 c)1&3 d) 2&4

46) Which of the following questions would be a part of Kantian decision making ?
1. Is my decision based on satisfying my desire ?
2. Am I doing my duty in this situation ?
3. Am I acting rationally or emotionally ?
4. Is my decision going to benefit everyone?
a) 1,2 &3 b)1, 3&4 c) 1,2,&4 d) 2,3 &4

47) In the Richard Parker case, which of the following are true?
1. The Captain's action was based on Libertarian Principles.
2. The captain's action was based on Utilitarian principles.
3. The Captain's action was violation of Parker's right and consent.
4. The Captain's action was based on Kantian principles.
a)1&4 b)1&2 c)1&3 d) 2&3

48) How do different ethical thinkers view the role of desire and reason in action ?
1. According to Bentham, reason has no role to play in ethical action.
2. According to Mill, ethical action is about following one's desires.
3. According to Kant, ethical action is about acting rationally.
4. None of these
a)1 b)2 c)3 4) d
