Human Values and Present Practices: Addressing Corruption, Cyber Threats, and Promoting Ethics

An Examination of Contemporary Issues and Remedies

The Role of Human Values

1. Human values are the ethical, moral, and philosophical principles that guide human behaviour and interactions.
2. They are fundamental beliefs that help individuals determine what is right or wrong, good or bad.
3. These values shape attitudes, choices, and actions in various aspects of life and are deeply rooted in human consciousness.
4. Core values such as honesty, integrity, compassion, and respect for others are widely recognised and valued.
5. Embracing and promoting these values is fundamental to fostering a culture of integrity, respect, and compassion, and building a more just and equitable world.

Corruption and Bribery: Undermining Human Values

1Corruption refers to the abuse of entrusted power for private gain. This can be financial, political, or personal.

2.Manifestations include embezzlement, bribery, nepotism, cronyism, and patronage.

Bribery involves offering, giving, receiving, or soliciting something of value to influence decisions of those in power.

3.Corruption and bribery undermine the values of integrity and honesty by promoting deceit and unethical behaviour.

4.They distort justice and fairness, allowing the privileged to manipulate systems.

Accountability and responsibility are weakened, fostering a culture of impunity.

5.The rule of law is subverted, eroding public confidence.

6.Social cohesion and trust are corroded, creating divisions.

7. Economic development is hampered by diverting resources and distorting markets.

8.Ethical leadership and good governance are undermined.

9.Human dignity and rights are violated through exploitation and abuse of power.

Policies in Web and Social Media: Privacy Concerns

Privacy policies are essential documents outlining how user data is collected, stored, and used by websites and social media platforms.

Web Privacy Policies typically specify:

1. Types of data collected (personal information, browsing history, cookies).
2. Purposes of data collection (user experience, personalisation, analytics).
3. Data sharing with third parties.
4. Security measures to protect user data.
5. User rights regarding their data (access, correction, deletion, opt-out).
6. Cookie policy.
7. Policy updates and contact information.

Social Media Privacy Policies often address:

1. Profile information collected.
2. Privacy settings and controls.
3. Sharing of user-generated content.
4. Data sharing with third-party apps and advertisers.
5. Use of data for advertising and targeting.
6. Data retention policies.
7. Data security measures.
8. Policy updates and notifications.
9. Compliance with privacy regulations (e.g., GDPR, CCPA).

Privacy policies aim to inform users about their rights and expectations regarding their personal data.

Cyber Threats in Online Shopping

1. Cyber threats pose significant risks to online shopping platforms and consumers.
2. These include data breaches, identity theft, phishing scams, and fraudulent transactions.

Remedies and Best Practices - Addressing Cyber Threats

1. Secure Website Infrastructure: Implement SSL encryption and regularly update software.
2. User Authentication and Access Control: Employ multi-factor authentication and enforce strong password policies.
3. Secure Payment Processing: Use reputable payment gateways (PCI DSS) and avoid storing sensitive payment information.
4. Fraud Detection and Prevention: Use advanced algorithms and real-time monitoring.
5. Educate Users: Provide resources to recognise and avoid common cyber threats.
6. Secure Data Storage and Handling: Implement data encryption and regularly audit access controls.
7. Continuous Monitoring and Incident Response: Establish protocols and conduct regular security assessments.
8. Legal and Regulatory Compliance: Stay informed about relevant cybersecurity laws (e.g., GDPR, CCPA, PSD2).

The UK Bribery Act

1. The UK Bribery Act (2010) aims to combat bribery and corruption in both public and private sectors.

2. Key Offences:

Offering, promising, or giving a bribe (active bribery).

Requesting, agreeing to receive, or accepting a bribe (passive bribery).

Bribing a foreign public official.

Failure of commercial organisations to prevent bribery.

3. Extraterritorial Application: Applies to acts committed abroad by UK nationals or companies.

4. Penalties: Imprisonment (up to 10 years), unlimited fines for individuals and companies.

5. Corporate Liability: Companies are liable for bribery by employees/agents unless they had adequate procedures to prevent it.

6. Adequate Procedures: Include anti-bribery policies, staff training, risk assessments, and reporting mechanisms.

7. Prohibits Facilitation Payments: Small bribes to expedite routine government actions.

Introduction to Sustainable Practices in the Indian Economy

1. Sustainable policies aim for economic growth while preserving the environment and promoting social equity for present and future generations.

2. India faces challenges balancing development with resource pressure.

3. **Key Components:**

Environmental Conservation: Mitigating degradation and addressing climate change through renewable energy, emission reduction, and biodiversity protection. Initiatives include the National Action Plan on Climate Change and Swachh Bharat Abhiyan.

Renewable Energy and Green Technology: Investing in solar, wind, hydro, and biomass. The National Solar Mission and UJALA scheme are examples.

Sustainable Agriculture and Rural Development: Promoting organic farming, water conservation, and soil management. Programs include NMSA and PMKSY.

Urban Planning and Infrastructure: Addressing urbanisation challenges through sustainable development strategies. Initiatives include the Smart Cities Mission and AMRUT.

Social Equity and Inclusive Growth: Ensuring equitable access to resources and opportunities. Programs like MGNREGA and NRLM are relevant.

Circular Economy and Waste Management: Minimising waste and promoting recycling. Initiatives include Swachh Bharat Mission (Urban) and Plastic Waste Management Rules.

Collaboration is crucial for effective implementation.
