Input: "listen", "silent"
Output: true

6. Find duplicate characters in a String

Input: "programming"
Output: g, r, m

7. Remove all whitespace from a String

Input: "I love Java"
Output: "IloveJava"

8. Remove all duplicate characters from a String

Input: "banana"
Output: "ban"

9. Check if a String contains only digits

Input: "12345"
Output: true

10. Convert lowercase to uppercase (without using toUpperCase)

Intermediate String Coding Questions

11. Find first non-repeated character in a String

Input: "swiss"
Output: 'w'

12. Find all permutations of a String

Input: "abc"
Output: abc, acb, bac, bca, cab, cba

13. Check if a String is a rotation of another string

Input: "ABCD", "CDAB"
Output: true

14. Find the longest substring without repeating characters

Input: "abcabcbb"
Output: "abc"

15. Find the maximum occurring character in a String

Input: "success"
Output: 's'

16. Count the frequency of each character in a String

Input: "aabbc"
Output: a=2, b=2, c=1

17. Find a substring between two characters

Input: "Welcome[Home]", between '[' and ']'
Output: "Home"

18. Convert the first letter of each word to uppercase

Input: "java programming"
Output: "Java Programming"

19. Check if a String is a valid email address

20. Remove a given character from a String

Input: "programming", remove 'm'
Output: "prograing"
