Experience

Cybersecurity Intern June – July 2026
Uttar Pradesh Police (Amroha Police) *Amroha, Uttar Pradesh*

- Supported active cybercrime investigations using OSINT, social media analysis, and digital footprint verification.
- Created link-analysis reports and relationship maps that turned raw data into actionable intelligence for investigators.

Personal Projects

Vitality – Full-Stack Wellness Web App | *Node.js, Express.js, MongoDB, JWT, JavaScript* 2026

- Built and deployed a full-stack wellness application with challenges across four categories (Walking, Hydration, Meditation, Exercise), daily activity tracking, and a competitive leaderboard.
- Implemented JWT-based authentication and a rule-based anti-cheat detection engine to validate user-submitted activity data.
- Deployed frontend on Vercel and backend on Railway with MongoDB Atlas; shipped three major iterations (v1–v3) adding public profiles, avatar system, and 32 total challenges.

FocusForest – Pomodoro Productivity App | *HTML5, CSS3, JavaScript* 2025

- Built a Pomodoro timer with integrated notes and task management as a single-file, PWA-ready web app using localStorage for persistence.
- Designed a configurable hosted-music system to support focus sessions without external dependencies.

Student Management System | *Java, SQL* 2025

- Developed an application to manage student records, courses, and marks with full CRUD operations.
- Designed a normalized SQL schema and applied OOP principles with input validation for maintainable code.
