```
1  import static mayank.samplePackage.Test.*;
2  import static mayank.samplePackage.Test2.*;
3
4  public class Main {
5
6      public static void main(String[] args)
7      {
8          disp(); //error
9          /*  Ambiguous method call. Both
10             disp() in Test
11             and
12             disp() in Test2
13             match
14          */
15     }
16 }
17
18 /*
19 Ques is what is inside "mayank.samplePackage" package. Have a look:
20
21 package mayank.samplePackage; //user defined package
22
23 public class Test
24 {
25     static void disp()
26     {
27         System.out.println("Hi");
28     }
29 }
30 public class Test2
31 {
32     static void disp()
33     {
34         System.out.println("bye");
35     }
36 }
37 public class Main2 {
38     public static void main(String[] args) {
39         Test2.disp();
40     }
41 }
42  */
```
