Assignment

Write an essay:-

The world of engineering:-

The first female to get a degree of engineering was elisa Leonida Zamfiresu. In the 21st century if we are to look around in our society, we will see most of it displays engineering, which shows why it is an important discipline. The field of engineering consists of vast sea of knowledge whose boundary is infinite.

Society has given engineers various nicknames like problem solvers, organizer human calculator, etc because of highly creative activities, There has been a significant role in engineering since when human civilization had started. The evidence from ancient Hoorappa and Mohenjodaro civilization shows that it had planned layout of street grid along equal sized buildings. well planned drainage system etc which are all considered as civil engineering activities.
